McLEOD COUNTY

ATTENTION: MCLEOD COUNTY EMPLOYEES

How the Stay Safe MN Order, starting May 18th, 2020, affects McLeod County Employees

YOUR SAFETY

The safety of our Employees and the public is our top priority. As our communities begin to gradually re-open, we are committed to keeping you, your colleagues, and your families safe. Extra precautions, signage, hand washing stations, Plexiglas shields, etc. have been added as needed.

THIS WILL BE A PROCESS

McLeod County will resume in-person services as able for each Department. Employees who have been working remotely due to COVID-19 will return to the office gradually and safely. This arrangement will differ depending on Departments and roles. It will not all happen at once.

"RE-OPENING"

McLeod County has remained open throughout the COVID-19 Pandemic. However, we have adjusted public-facing services for the safety of all.
Dept. Heads understand the requirements of their department and will communicate changes in services.

KEEP COMMUNICATING

If you have questions, are uncertain of how you are affected by the Safer at Home MN order, or have suggestions , we encourage you to talk with your direct Supervisor to gain clarity as quickly as possible.

*Also note: A final draft of our **COVID-19 Preparedness Plan for McLeod County Offices** is nearly complete; once shared, all will review in full for a better understanding of our current state of operations.*
