To Whom It May Concern:

RE: Westgate Area Water Supply System Improvements
Biddeford Drive, Biddeford Court & Wallingford Drive

Dear Resident:

As you may be aware, Plainfield Charter Township plans to complete a water system capital improvement project in the Westgate neighborhood. The work is being done to improve water system reliability in the neighborhood. The scope of the project will include replacement of water mains and service lines, complete road replacement and replacement of driveway approaches that are impacted by construction. In 2020, work will be completed in Biddeford Drive from 6 Mile Road to Westshire Drive, in Biddeford Court, and in Wallingford Drive from Biddeford Drive to Brookgate Drive.

On July 13, 2020, the Plainfield Charter Township Board of Trustees awarded the contract to Schippers Excavating, Inc. of West Olive, MI. The Contractor intends to begin construction next week. Construction will begin on the north end of Biddeford Drive, at 6 Mile Road, and progress south down Biddeford Drive. You will start to see MISS DIG flags, which mark existing underground utilities, and construction stakes showing up in your front yard in the coming days. Please do not remove the flags or stakes because that will cause delays in the construction project.

To facilitate mail service, the Contractor will coordinate with you and the Post Office and may temporarily relocate your mailbox to a central location. The Contractor also will work with you and your trash hauler to maintain service. Individual driveways may be closed during the day but will be restored to a drivable condition after each workday. Some landscaping within the construction limits will be removed. Vegetation within the right-of-way will not be replaced and other structures may not be replaced if deemed a traffic hazard by the Road Commission. You should move anything you would like to save and relocate it outside the right-of-way before construction commences.

If you have any questions or concerns about the project, please contact me at (616) 364-8491 or Mr. Rick Solle, P.E., with the Plainfield Water Department at (616) 363-9660. We will work with you to ensure that the work can proceed with the least impact to you in a cost-effective manner for the Township and the residents.

Sincerely,

Prein&Newhof

Jeremy Kamp, P.E.
