**Non-County-Maintained Road:** A non-county-maintained road is a road which has not been accepted for county maintenance. A non-county-maintained road may be a public or private road. The county may install a county sign that indicates that a road is not maintained beyond a certain point. The County Road Department may alter the schedule based on emergency conditions such as flooding or other urgent conditions that may arise. This schedule is for routine road blading only. Other actions such as snow removal or road repairs will be based on priorities such as school bus routes, availability of alternate routes, and other factors.
