The Board of Mayor and Aldermen of the City of Fayetteville, Lincoln County, Tennessee, met in open, public called session at the regular meeting place of said board in the Municipal Building at 5:30 P.M. on September 17, 2009, to discuss the Robert E. Lee Garden Estates. Mayor Gwen Shelton was present and presiding. The following named aldermen were present:

Joe Askins
Danny Bryant
Dorothy Small
Pat Fraley
Michael Stewart
Marty Pepper

Also present were James S. Hereford, Jr., City Attorney, and James H. Lee, City Administrator.

Mr. Carman stated the original plan was to build 25 units, 1 gatehouse, with a clubhouse, as a gated community. Thus far, 10 units have been completed, as well as updating the plumbing, storm, and septic drains. Two units have been bought, with interest in the other units and 2 to be occupied soon. Mr. Carman stated it would not be economical to build the other 15 units because the market will not absorb these units. Would like to develop a new plant for the property with one possibility being to turning the lower end into a park to be donated to the city (for the city to possibly maintain) with no clubhouse, add an irrigation system and to finish building the existing streets. Mr. Carman stated he could not get the support to build the other 15 units and it would not be in the best interest of the city. Current owners will have some say in the development of the new plans, but future prospective owners are being advised about the changes, and are allowed to leave if it does not work out the way they like. Work with the Developer, City Administrator, and City Planner will be scheduled and recommendation will be brought before the Board of Mayor and Aldermen at a public hearing.

Community Comments:

1. Ryan Tyhuis – City Planner – Is there difficulty with the lending institution? What about the construction of the roads, when will they be finished and who will maintain them -- owners or the homeowners association?
2. Michael Whisenant – 210 Bright Ave. – Where is their dumpster? Who is the Developer?
