15-508. At pedestrian control signals.
15-509. Stops to be signaled.

15-501. **Upon approach of authorized emergency vehicles.** Upon the immediate approach of an authorized emergency vehicle making use of audible and/or visual signals meeting the requirements of the laws of this state, or of a police vehicle properly and lawfully making use of an audible signal only, the driver of every other vehicle shall immediately drive to a position parallel to, and as close as possible to, the right hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. (1995 Code, § 15-501)

15-502. **When emerging from alleys, etc.** The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto any sidewalk or street. They shall not proceed to drive onto the sidewalk or street until they can safely do so without colliding or interfering with approaching pedestrians or vehicles. (1995 Code, § 15-502)

15-503. **To prevent obstructing an intersection.** No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic-control signal indication to proceed. (1995 Code, § 15-503)

15-504. **At "stop" signs.** The driver of a vehicle facing a "stop" sign shall bring his vehicle to a complete stop immediately before entering the crosswalk

on the near side of the intersection or, if there is no crosswalk, then immediately before entering the intersection, and shall remain standing until he can proceed through the intersection in safety. (1995 Code, § 15-505)

15-505. At "yield" signs. The drivers of all vehicles shall yield the right of way to approaching vehicles before proceeding at all places where "yield" signs have been posted. (1995 Code, § 15-506)

15-506. At traffic-control signals generally. Traffic-control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, shall show the following colors only and shall apply to drivers of vehicles and pedestrians as follows:

(1) **Green alone, or "Go":**
   (a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.
   (b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(2) **Steady yellow alone, or "Caution":**
   (a) Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.
   (b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(3) **Steady red alone, or "Stop":**
   (a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone. Provided, however, that a right turn on a red signal shall be permitted at all intersections within the city, provided that the prospective turning car comes to a full and complete stop before turning and that the turning car yields the right-of-way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, said turn will not endanger other traffic lawfully using said intersection. A right turn on red shall be permitted at all intersections except those clearly marked by a "No Turns On Red" sign, which may be erected by the city at intersections which the city decides require no right turns on red in the interest of traffic safety.
   (b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(4) **Steady red with green arrow:**
(a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(5) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made a vehicle length short of the signal. (1995 Code, § 15-507)

15-507. **At flashing traffic-control signals.** Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal placed or erected by the municipality it shall require obedience by vehicular traffic as follows:

(1) Flashing red (stop signal). When a red lens is illuminated with intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(2) Flashing yellow (caution signal). When a yellow lens is illuminated with intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(1995 Code, § 15-508, modified)

15-508. **At pedestrian control signals.** Wherever special pedestrian control signals exhibiting the words "Walk" or "Wait" or "Don't Walk" have been placed or erected by the municipality, such signals shall apply as follows:

(1) **Walk.** Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(2) **Wait or Don't Walk.** No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to the nearest sidewalk or safety zone while the wait signal is showing. (1995 Code, § 15-509)

15-509. **Stops to be signaled.** No person operating a motor vehicle shall stop such vehicle, whether in obedience to a traffic sign or signal or
otherwise, without first signaling his intention in accordance with the requirements of the state law,¹ except in an emergency. (1995 Code, § 15-510)
