## BUDGET NARRATIVE FY 2012-2013

### INTRODUCTION

The District's FY 2012-2013 tentative budget represents a detailed analysis of the District's anticipated revenues and expenditures for the upcoming year. The District has proposed to establish its tax millage rate at 0.0345 mills which is the same as last year's millage rate. This is the 15th year in a row that the District has reduced or kept its millage rate the same. Total new revenue expected is \$21 million.

New District expenditures for capital improvement projects are expected to generate approximately 503 jobs, primarily in the private construction sector. When the contribution of the District's project partners is included the construction value of these capital improvement projects increases to approximately \$75 million with 1,500 jobs generated.

Continued capital improvement projects are expected to generate another 1,172 jobs through the District's expenditures. When the contribution of the District's project partners is included the construction value of these capital improvement projects increases to approximately \$178 million with 3,516 jobs generated.

In total the District's FY 2012-2013 budget is \$71,095,037 and includes 149 infrastructure development projects which are expected to generate 5,016 jobs with a total capital improvement investment of \$253 million when partnership funding is included.

**The following is a summary of the budget categories:**

## **REVENUE**

The District will have an estimated cash balance at the beginning of the year of \$49.7 million. This represents those contracted or delayed projects that were not completed during the previous fiscal year plus unexpected revenues and reallocated funds for projects that came in under budget or no longer will be constructed. New revenue will include approximately \$21 million in taxes, interest on invested funds, and a note receivable from the City of Edgewater for a previous land sale.

## **EXPENSES**

The FY 2012-2013 budget includes proposed new expenditures of approximately \$30.2 million in the following categories: Administration \$1.3 million; Operations \$11.9 million; Capital Programs \$2 million; Waterway Studies \$280,000; Waterways Assistance Program Projects \$12.5 million; Cooperative Assistance Program Projects \$400,000; Public Information Program \$144,000 and; \$660,000 for Tax Collection and Property Appraisers Commissions. Approximately \$10 million of these new expenditures are financed with reallocated funds from the previous year's budget based upon project cost savings and projects that did not move forward.

The District's FY 2012-2013 budget continues approximately \$41.2 million in programs and projects that were budgeted in previous years. These continued projects include: Administration \$189,000; Capital Program projects \$11.1 million; Operations Projects \$13.8 million; Waterways Studies \$920,955; Waterways Assistance Program Projects \$15.1 million; Cooperative Assistance Program Projects \$39,600 and; Public Information Program \$58,197.
