FLORIDA INLAND NAVIGATION DISTRICT**BUDGET NARRATIVE****FY 2013-2014****INTRODUCTION**

The District's FY 2013-2014 tentative budget represents a detailed analysis of the District's anticipated revenues and expenditures for the upcoming year. The District has proposed to establish its tax millage rate at 0.0345 mills which is the same as last year's millage rate. This is the 16th year in a row that the District has reduced or kept its millage rate the same. Total new tax revenue is \$21.1 million.

New District expenditures for capital improvement projects are expected to generate approximately 633 jobs, primarily in the private construction sector. When the contribution of the District's project partners is included the construction value of these capital improvement projects increases to approximately \$75 million with 1,875 jobs generated.

Continued capital improvement projects are expected to generate another 1,400 jobs through the District's expenditures. When the contribution of the District's project partners is included the construction value of these capital improvement projects increases to approximately \$168 million with 4,200 jobs generated.

In total the District's FY 2013-2014 budget is \$83,764,019 and includes 190 infrastructure development projects which are expected to generate 6,075 jobs with a total capital improvement investment of \$243 million when partnership funding is included.

The following is a summary of the budget categories:

REVENUE

The District will have an estimated cash balance at the beginning of the year of \$58.5 million. This represents those contracted or delayed projects that were not completed during the previous fiscal year plus unexpected revenues and reallocated funds for projects that came in under budget or no longer will be constructed. New revenue of \$25.3 million will include approximately \$21 million in taxes, return of funds provided to the Corps of Engineers, the potential return of a deposit covering a lease with Broward County, interest on invested funds, and a note receivable from the City of Edgewater for a previous land sale.

EXPENSES

The FY 2013-2014 budget includes proposed new expenditures of approximately \$31 million in the following categories: Administration \$1.1 million; Operations \$9.9 million; Capital Programs \$5.4 million; Waterway Studies \$200,000; Waterways Assistance Program Projects \$13.5 million; Cooperative Assistance Program Projects \$75,000; Public Information Program \$97,000 and; \$660,000 for Tax Collection and Property Appraisers Commissions. Approximately \$5 million of these new expenditures are financed with reallocated funds from the previous year's budget based upon project cost savings and projects that did not move forward.

The District's FY 2013-2014 budget continues approximately \$52.8 million in programs and projects that were budgeted in previous years. These continued projects include: Administration \$4,263; Capital Program projects \$5 million; Operations Projects \$22 million; Waterways Studies \$597,396; Waterways Assistance Program Projects \$24.6 million; Cooperative Assistance Program Projects \$489,600 and; Public Information Program \$68,308.

ADMINISTRATIVE EXPENSES

Administrative expenditures are \$1.1 million which is 1.3% of the total budget and 4.3% of the new revenues. All Administrative line items were reviewed for cost savings. There is a decrease in personnel costs because of the retirement of the Executive Director.

SALARIES

Salaries and benefits for the 6 staff members of the District are 0.8% of the total budget and 2.8% of the new revenue. The District Board will address salary increases or bonuses for the staff based upon their performance.

OPERATIONS PROGRAM

The expenditures for operations are proposed to be \$31.9 million this year. This includes \$9.9 million in new expenses and \$22 million in continued projects. There are no new dredging projects proposed, however continued ICW maintenance dredging projects includes projects in Indian River, St. Lucie, and Palm Beach Counties. Deepening projects on the ICW in Palm Beach and Broward County are also budgeted.

The District will also continue its maintenance and management program of permanent Dredge Material Management Areas (DMMA's) with projects involving revegetation of buffer areas, the installation of monitoring wells, and the monitoring of groundwater and other site conditions. The District will continue to set aside funding to assist in the reconstruction of waterway projects damaged by the hurricanes. Funding is also provided

for cooperative Waterway Cleanup Projects throughout the District, the Small Scale Spoil Island Enhancement and Restoration Program, and the Small Scale Derelict Vessel Removal Program.

CAPITAL PROGRAM

The expenditures for Capital Program projects are proposed to be \$10.4 million this year. The District will continue with the purchase of one required Dredge Material Management Area for the Okeechobee Waterway. Two DMMA's will be fully constructed at a cost of approximately \$6.6 million. The District will initiate the design of 2 DMMA's, the shoreline of MSA 619 will be stabilized, and DMMA SJ-14 will be restored.

WATERWAY STUDIES

The expenditures for Waterway Studies are proposed to be approximately \$0.8 million this year. The District will continue to perform bathymetric surveys of the Intracoastal Waterway channel to document shoal areas. Updates to the Long Range Dredged Material Management Plan will continue in 3 counties. Seagrass surveys will be performed to support dredging efforts. Seagrass mitigation planning will be continued for the central and southern portion of the waterway. The funding of up to three Waterway Master Plans will continue in a cooperative effort with our member counties.

INTERLOCAL AGREEMENTS

There are no Interlocal Agreements currently budgeted this year.

WATERWAYS ASSISTANCE PROGRAM

The expenditures for the Waterways Assistance Program are proposed to be \$38.1 million this year. The District proposes to participate in 77 new assistance projects with local governments to improve the waterway and the public's enjoyment and access to it. The cost of the new projects will be \$13.5 million. Approximately 89 existing projects that are underway will be extended into the new year. These projects total approximately \$24.6 million.

COOPERATIVE ASSISTANCE PROGRAM

The expenditures for the Cooperative Assistance Program are proposed to be \$564,600 this year. The District proposes to participate in one new assistance project with the state. The cost of this new project is \$75,000. Four projects totaling \$489,600 will be continued.

PUBLIC INFORMATION PROGRAM

The expenditures for the Public Information Program are proposed to be \$165,308 this year. Last year the District distributed over 200,000 brochures and manuals on the waterway, manatee & boating safety speed zones, hurricane preparedness for vessels, bridge opening schedules and clearances, spoil island usage, boating safety and channel conditions. The District will also continue to develop educational materials about the District and the waterway. Twelve Community Outreach Events are planned during the year. Additionally, public noticing of District meeting and projects will continue along with record management projects.

The annual work program to accomplish these projects is attached to the budget. The proposed Board meeting schedule is also included which provides for at least one meeting in every county of the District. A total of 14 public meetings of the Board are scheduled over the course of the year.
