

REQUEST FOR PROPOSALS
Rejuvenation of Dredge Material Management
Facility

The Florida Inland Navigation District is soliciting proposals from contractors/individuals for the rejuvenation of the District's Dredged Material Management Area (DMMA) known as NA-1 in AMELIA ISLAND, NASSAU COUNTY, FLORIDA. Rejuvenation will consist of the removal and disposal of at least 50,000 cubic yards of dredged material from the DMMA to restore its capacity for future dredging events. The District will not charge for the dredged material but the proposer shall be responsible for all costs of handling, transporting and disposing of the dredged material and for reimbursing the District for fees charged by the District's engineering consultant for technical review and supervision of the rejuvenation. All materials will be excavated and transported by the proposer to its final destination. All permits and authorizations are the responsibility of the proposer. Proposals shall be evaluated on the basis of the proposer's experience, resources, references, timetable and plans. The District will select the proposal that best meets the objectives of the District. The District reserves the right to reject any or all proposals, to waive irregularities, and to cancel this Request for Proposals, either before or after the submission deadline. Written proposals shall be due at the District office no later than 2:00 PM FEBRUARY 12, 2018, and shall be valid for a minimum of thirty (30) days from that date. Interested proposers should contact Mark Tamblyn, at the District for related information regarding this available material and proposal process. He can be reached at 1314 Marcinski Road, Jupiter, Florida 33477, telephone (561) 627-3386, FAX (561) 624-6480 Email mtamblyn@aicw.org
