Our Favorite Victim

Class 1 Basic Moulage

Check-in begins at 9:30 am with coffee & pastries
Class begins at 10:00am **SHARP**
Class ends at 1:30pm

This class goes into the basics on how to set up to do Moulage, how to acquire supplies and use them efficiently and safely. There will be hands on demonstrations on basic wounds and effects. This is also a refresher course and is required for the advanced class.

Class 2 Advanced Moulage

Check-in begins at 2:30pm
Class begins at 3pm **SHARP**
Class ends approximately at 6pm

Basic Moulage or equivalent is **required** for this class. Stephanie Allestad can be contacted for more details.

This hands on class will go more into using prosthetics, sculpting techniques, how to build more complex wounds and using household items to create your own. They will also show and discuss new products on the market.

Your Instructors:

Elizabeth “Buzzy” Mounce

Works with the University of Washington’s Department of Bioengineering. She was showing a rescuer a wound she had seen, he corrected her “technique” and she’s been hooked ever since. She teaches “The Art of Moulage” for such events like the Northwest Citizen Corp Expo. Specializing in prosthetics, makeup and blood based on victim’s symptoms and triage cards.

Laurell Sprague

Started her Moulage journey shortly after she went through a CERT (Community Emergency Response Team) Class in 2004. She has been doing small drills ever since, but thanks to word of mouth, she has become an in-demand Moulage Artist, so much so that she is teaching. She also has a Facebook page called “Moulage Mayhem”.

With these classes we are hoping to provide all our first responders with well trained Moulage artist for their live training scenarios. With a greater amount of artists available to draw from, we can do larger events in the county without tapping out one agency. Also with more artists, there is more time to create detailed and involved injuries for a more realistic look.

Also, those who complete the advanced course will be invited to use their skills at other training events outside of Grays Harbor County, with other agencies.

If you already have a kit, please bring it with you. If you would like a list of supplies to build or add to your kit please contact us.

**Class located at South Beach Regional Fire Authority
170 W. Spokane St., Westport, WA 98595**
