**WATER AVAILABILITY VERIFICATION PERMIT
INDIVIDUAL & TWO-PARTY WELLS**

\$120 Review Fee

If located within WRIAs 22/23 (ESSB 6901) + \$500 Fee

INDIVIDUAL WATER SYSTEMS	<input type="checkbox"/> One	<input type="checkbox"/> Two Residential Connections
<p>PLEASE NOTE— Recent Legislation amended the process for Water Availability reviews by adding specific requirements for wells constructed on or after January 19, 2018 and located in certain watersheds (Water Resource Inventory Areas (WRIAs) 22 & 23). The new law mandates an additional fee and approval conditioned on use limitations, see Item No. 7 below.</p>

Complete Sections A & B if a water right is required and/or has been issued (5,000 or more gallons pumped per day or a surface/spring water source). Otherwise complete only Section B.

SECTION A (Individual water system or Exempt Group B PWS requiring a Water Right)
Use of water for this building is authorized by Water Right Permit number _____, which has not been canceled or relinquished (**attach copy of the certificate**).

SECTION B (Individual water system without a Water Right)
The source for this building does not require a Department of Ecology water right. I have attached copies of the following documents in order to verify the availability of water.

- 1) A well log signed by a licensed well driller and recorded with Ecology
- 2) A scaled plot plan.
- 3) Written results for the bailer test, air line test or pump test, which was performed for a minimum of one hour, verifying a minimum yield of **400 gallons per day per residence**. Usually found on the well log.
- 4) Bacteriological (within last 12-months) and Nitrate (within last 36-months) water test results.
- 5) Subdivisions with individual wells created after January 1, 1995, need to allow for each lot a 100 foot protective zone within the lot lines or obtain restrictive covenants for the portion of the protective zone encumbering adjacent properties in accordance with WAC 246-272A. Minimum setback from public road rights-of-way is 50 feet.
- 6) 2-Party wells. Recorded written agreement provided (required for 2-party residential only)
- 7) **Limitations of consumption recorded to title - 3,000 gallons per day maximum annual average**
