		SPI	DES	ID						
Name of MS4	Village of Great Neck	N	Y	R	2	0	А	4	5	3

Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for <u>each</u> of the following positions as indicated below:

- 1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
- 2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
- 3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
- 4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
- 5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- Principal Executive Officer/Chief Elected Official
- O Duly Authorized Representative
- O Local Stormwater Public Contact
- O Stormwater Management Program (SWMP) Coordinator
- O Report Preparer

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village promotes all local activities held by the Manhasset Bay Protection Committee, and the Village residents are informed of the activities at public meetings and at Village Hall. The Village invites its residents to public meetings where applications for land development are reviewed and discussed. As a coalition member with Nassau County, the Village benefits from their efforts pertaining to public participation.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village held Zoning Board meetings, Planning Board meeting, Board of Trustees meetings and Architectural Review Board meetings where the Village residents were invited to review and discuss applications for land development projects and environmental issues and concerns.

	C.	How many	times was	this observ	ation measu	ired or evalu	iated in this	reporting perio	d?
--	----	----------	-----------	-------------	-------------	---------------	---------------	-----------------	----

				1	
samp	les/	parı	tici,	pant	s/events

D. Has your MS4 made progress toward this measurable goal during this reporting period?

$V_{\Delta c}$	\bigcirc No

(ex.:

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

• Yes	⊃ No
-------	------

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue to invite residents to meetings to review and discuss development plans, and the Village also intends to continue its coalition membership with Nassau County and the Manhasset Bay Protection Committee.

This report is being submitted for the reporting period ending March 9, $\begin{vmatrix} 2 & 0 \end{vmatrix} \begin{vmatrix} 2 & 2 \end{vmatrix}$

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):	
 On behalf of an individual MS4 On behalf of a coalition 	
How many MS4s contributed to this report?	1

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

MANHASSET BAY PROTECTION COMMITTEE

Phase II Activities Undertaken On Behalf of Member Municipalities March 10, 2021 to March 9, 2022 Permit Year

MCM # 1 - Public Education and Outreach

Distributing educational materials and performing outreach to inform citizens about the impacts polluted stormwater runoff discharges can have on water quality.

- Continued a quarterly e-newsletter and organically grew the distribution list from 165 to 187 recipients. A link to sign-up is posted on the Committee's website and on the Facebook page. Two newsletters were released in this reporting period (all were also posted to the Committee's Facebook and Twitter pages). An archive of all past mailings is here: https://us17.campaign-
 - archive.com/home/?u=df70a805d021557ae64c3aaa5&id=f7fd5c7f5f.
 - Winter 2022 Newsletter: https://mailchi.mp/1bdbff19e58e/winter 2022
 - Fall 2021 Newsletter: https://mailchi.mp/6ce7cd448b54/fall2021
- Updated the Committee's website to give it a new, clean look and in an effort to make the website more navigable: manhassetbay.info
- Continued to grow the Committee's Facebook presence
 (https://www.facebook.com/manhassetbay/) and again participated in the #DontTrashLIS social media campaign run this past August September by the Long Island Sound Study and the member organizations of its Citizens Advisory Committee, which highlighted the problem of plastic waste to wildlife and water quality. The Committee's Facebook page has 379 followers.
- Started a YouTube channel (https://www.youtube.com/channel/UCCoVUZAvyiQ-fsg8y6DiKSQ) to post recordings of meetings and, in the future, educational information.
- The Committee maintained their new Twitter (https://twitter.com/manhassetbaypc) and Instagram (https://www.instagram.com/manhassetbaypc) accounts
- Co-hosted a virtual public joint protection committee meeting with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor, and Peconic Estuary Protection Committees, the Setauket Harbor Task Force, and Friends of the Bay which was held on May 20, 2021. A recording of the meeting was posted to the Hempstead Harbor Protection Committee's YouTube page and a link to it is on MBPC's website. The meeting's topic was "Local Efforts to Reduce Nitrogen."
- Began planning this year's public joint protection committee meeting with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor, and Peconic Estuary Protection Committees, the Setauket Harbor Task Force, and Friends of the Bay to be held May 12, 2022 virtually. Topic and agenda are still being discussed.
- Staffed an informational table with educational pamphlets, giveaways, and kids' activities at the Long Island Clean-Water Vendor Day (July 14, 2021). The Committee also cohosted the event.

- Forwarded numerous <u>newspaper articles</u> to municipal representatives and others on water quality and environmental issues important to Manhasset Bay. Some of these were also posted to the Committee's social media.
- Monitored Nassau County sewage spill reports and notified Committee members and others when one was reported on Manhasset Isle in June 2021 after a force main, maintained by the Village of Manorhaven, leaked untreated sewage.
- Manhasset Bay and/or the Protection Committee were the subject of 14 news articles published during the reporting period. The list of news articles is attached.
- Participated in and gave a presentation to a boat outing that left from Manhasset Bay, about the Bay, the Protection Committee, and our top most pressing issues. The boat trip was planned by the National Fish and Wildlife Foundation for the Long Island Sound Funder's Collaborative and there were 26 participants (October 14, 2021).
- Responded to questions from both member municipalities and the public about "how do I
 get involved," MS4 program, where stormwater pollution comes from, why does the Bay
 smell, and other inquiries.
- Distributed educational brochures about stormwater pollution, watersheds, feeding geese, organic gardening, impacts of pet feces on water quality, water conservation, clean boating, storm drain markings, and other water quality related topics as was feasible given the Novel Coronavirus.
- Kept the municipalities up-to-date on trainings and other events.

MCM #2 - Public Participation

Providing opportunities for citizens to participate in program development and implementation, including effectively publicizing public hearings and/or encouraging citizen representatives on a stormwater management panel.

- Held six (6) virtual Manhasset Bay Protection Committee meetings (open to the public) on April 15, 2021, May 20, 2021, June 17, 2021, September 23, 2021, November 4, 2021, and January 20, 2022. Most meetings were transcribed and both meeting minutes and transcriptions were posted to http://www.manhassetbayprotectioncommittee.org/PDF_PUBLIC/Minutes/2021/ and https://manhassetbayprotectioncommittee.org/PDF_PUBLIC/Minutes/2022/ Those meetings that weren't transcribed were posted to the Committee's new YouTube channel.
- Organized two simultaneous beach clean-ups for the annual Ocean Conservancy's
 International Coastal Clean-up. Teams assembled and cleaned at Manorhaven Beach
 Town Park and Bay Walk Park on Saturday, September 25, 2021. All totaled, 148
 volunteers (adults, teens, and kids) picked up over 200 pounds of trash. Additionally, this
 year's clean-up included a "fun patch" for all the children who participated and other
 giveaways, including informational brochures. Links to the email announcements are
 attached.
- Began planning, for the first time ever, a spring beach clean-up that will occur on two separate dates.
- Member of the Town of North Hempstead Waterfront Advisory Committee, whose meetings are also open to the public
- The Town of North Hempstead and the Committee, and with funding from the NYS Department of State, selected a vendor for the Development of a Manhasset Bay Water

- Quality Improvement Plan. The contract was signed in March and work was expected to begin immediately.
- Served as the member representative for the Committee on the Long Island Nitrogen Action Plan's (LINAP) Nassau County Subwatershed Planning Advisory work group and Solute Transport Model Advisory work group. Continued to provide representation to the Long Island Sound Study (LISS) Citizens Advisory Committee and the LISS Management Committee Watersheds and Embayments work group. In that role, continued work to establish water quality monitoring of embayments as a priority and to develop a mechanism for regular (non-grant) funding to support monitoring efforts.
- Conducted a weekly water quality monitoring program (June through August) with North Hempstead Bay Constables and Nassau County Dept. of Health. The Committee's summer intern assisted in the collection and collation of this data.
- Distributed information on the Great Neck and Port Washington Water Pollution Control Districts' *Shed the Meds* collection programs, the Town of North Hempstead's STOP programs, and the Town's Sustainability classes and programs throughout the reporting period.
- Began planning an upcoming joint protection committee meeting (public) with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor, and Peconic Estuary Protection Committees, the Setauket Harbor Task Force, and Friends of the Bay to be held May 12, 2022 virtually. Topic and agenda are still being discussed.
- Continued editing and distributing introductory folders to new committee member representatives in order to educate them on the Committee, stormwater, and regulations. The goal is to make new representatives comfortable in their new role.
- Alerted member municipalities to the release of DEC's Draft SPDES General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-22-002) as well as updates to the DEC's 303(d) list of Impaired Waters.

MCM # 3 - Illicit Discharge Detection and Elimination

Developing and implementing a plan to detect and eliminate illicit discharges to the storm sewer system (includes developing a system map and informing the community about hazards associated with illegal discharges and improper disposal of waste).

- Conducted a weekly water quality monitoring program (June through September) with North Hempstead Bay Constables and Nassau County Dept. of Health.
- Included removing illegal downspout hook-ups as a "What You Can Do" tip.

MCM # 4 - Construction Site Runoff Control

Developing, implementing, and enforcing an erosion and sediment control program for construction activities that disturb 1 or more acres of land (controls could include silt fences and temporary stormwater detention ponds).

- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.
- Monitored changes in regulations and alerted member municipalities to the release of DEC's Draft SPDES General Permit for Stormwater Discharges from Municipal Separate

- Storm Sewer Systems (GP-0-22-002). The Protection Committee also provided the municipal members with example language and instructions on submitting comments
- The Protection Committee was signatory to three different letters to DEC during the abovementioned public comment period. The effort put into communicating with the member municipalities, reviewing the draft permit and fact sheet, drafting comments, and editing multiple letters was quite extensive.
- Bay constables watched for unusual discharges or conditions while conducting weekly water quality monitoring

MC # 5 - Post Construction Runoff Control

Developing, implementing, and enforcing a program to address discharges of post-construction stormwater runoff from new development and redevelopment areas. Applicable controls could include preventative actions such as protecting sensitive areas (e.g., wetlands) or the use of structural BMPs such as grassed swales or porous pavement.

- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.
- Monitored changes in regulations and advised member municipalities of public comment periods as described above.
- Watched for unusual discharges or conditions while conducting weekly water quality monitoring (summer)

MCM # 6 - Good Housekeeping

Developing and implementing a program with the goal of preventing or reducing pollutant runoff from municipal operations. The program must include municipal staff training on pollution prevention measures and techniques (e.g., regular street sweeping, reduction in the use of pesticides or street salt, or frequent catch-basin cleaning).

- Committee members have shared information on which good housekeeping practices work through Committee meetings as well as changes to their good housekeeping programs.
- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.

FUTURE PLANS

- The Manhasset Bay Protection Committee is nearing completion of their first ever DEC-approved Quality Assurance Project Plan (QAPP). This will be finalized by May 2022.
- Due to work on the QAPP, the Manhasset Bay Protection Committee was set back on the goals to finalize and publish the water quality report based on weekly monitoring data collected 2016 to 2018 and a bacteria trend report. These reports will be completed, but an exact date is unknown.
- The Committee is poised to begin the development of a new Water Quality Improvement Plan for Manhasset Bay utilizing State and Committee funds. The contractor's first task is to complete an outreach plan for the project.

plan now is summer.	, floating trash receptacle, has not yet been operational. The Committee's to partner with a marina to get it into the water and begin full operation the
