**Re: Appeal of Denial of Application 420-023**

Dear Mr. Karrow:

We would like to appeal your decision denying our application (420-023) to place bluestone under our deck. We request that our appeal be heard at the June 16, 2020 zoning board meeting.

You denied our application because our property is over our impervious coverage and noted that we would need to seek a second variance. However, we believe that you are improperly double counting the impervious coverage because our deck is completely impervious. We will provide a more complete explanation with exhibits 10-days prior to the June 16 hearing.

Sincerely,

Robert J. Livermore  
Sara M. Livermore
