

Town of Hartland residents:

After three months of confinement we are happy to be able to slowly get back to operations. Our town hall will be back to full staff effective Tuesday July 7th. We will still be operating by appointment only and the town hall will be locked. Please call **735-7179** for assistance. This will be in effect through the month of July. We will assess the situation and determine operations for the month of August. By NY State Office of Court Administration orders the court office is working limited hours. We ask that you continue to use the drop box or mail to conduct business when possible. If you require an in-person appointment, please wear a mask and practice safe distancing. The highway and water department will be by appointment only as well. We are taking these precautions for everyone's safety. Thank you for being understanding during the shutdown. Have a safe summer.

Hartland Town Board
