Norwood Public School Closure Extended Through Month of April

Gov. Baker Announced Extended Statewide Closure of Schools Until May 4

NORWOOD -- Superintendent David Thomson announces that, in accordance with an order from Governor Charlie Baker, Norwood Public Schools will remain closed through the end of April as a precaution against the COVID-19 pandemic.

The statewide closure of schools, originally set to end on April 7, has been extended to end Monday, May 4.

The closure of schools is an unprecedented step by the state that is seen as vital to limit the potential spread of COVID-19 and to continue the practice of social distancing

as more positive cases and deaths are announced in the state each day.

COVID-19, the illness caused by the novel coronavirus, has moved the World Health Organization (WHO) to declare a global pandemic. President Donald Trump has declared a national emergency and Governor Charlie Baker earlier this month declared a state of emergency in Massachusetts.

Students will continue remote learning activities with the guidance of their teachers and school leaders. Teachers will also continue to reach out to students and families on a regular basis.

All athletics programs, events and after school activities will also remain suspended.

While schools remain closed, the district's food pick-up service for students and families will continue. For more information about these services visit the school website: www.norwood.k12.ma.us.

As a reminder, custodians and maintenance staff have completed a comprehensive and thorough disinfecting and sanitizing of all school and administrative buildings to ensure a healthy environment once classes resume.

Superintendent Thomson and district leaders will continue to monitor the guidance and regulations of local, state and federal health experts as the situation evolves. The health and safety of students, parents, teachers and staff is the district's number one priority.

Social Distancing

Due to the evolving spread of COVID-19 in Massachusetts, Gov. Baker issued a stay-at-home advisory. This means all residents are advised to stay home during this time in order to curb the spread of this virus, with the exception of going grocery shopping or picking up medication.

Please continue to practice social distancing - maintaining a distance of approximately 6 feet from other people — and appropriate personal hygiene - with your children and explain to them the importance of doing so.

Social distancing will help to minimize exposure among people, especially given that COVID-19 is highly contagious and people may be contagious prior to exhibiting

symptoms.

Children and COVID-19

Proper hygiene and prevention methods and social distancing efforts should continue until further guidelines are provided by state officials about the status of the virus.

Parents should not hold “play dates.” Clean and sanitize toys, video game controllers and all touch surfaces regularly.

As the weather continues to improve, outdoor gatherings are viewed by public health officials as safer than gathering indoors with others, but social distancing techniques should still be followed.

Organized activities like basketball and tennis are prohibited. Teens are included in this group, and activities like bike riding and hiking/walking are viewed as safer alternatives to gathering indoors.

Prevention Tips

Local, state and federal health officials are encouraging residents to take the following precautions to prevent infectious diseases, such as the flu and COVID-19, from spreading:

- For a minimum of 20 seconds, wash your hands frequently with soap and hot water
- Avoid touching your eyes, nose or mouth with unwashed hands
- Avoid close contact with those who are sick
- Use a tissue to cover your nose and mouth when coughing or sneezing, then throw the tissue away and wash your hands.
- Clean and disinfect objects and surfaces
- If you are an essential employee who is continuing to go into work, stay home if you have a fever or are ill

COVID-19 Information Resources

Residents are encouraged to stay informed regarding COVID-19. The following websites are recommended for the most updated information:

- Town of Norwood Official Website: www.norwoodma.gov.

- Massachusetts Department of Public Health: www.mass.gov/covid-19
- Massachusetts 2-1-1 general COVID-19 information: [Click here](#) or dial 2-1-1 (24/7)
- Sign up for the Massachusetts COVID-19 Text Message Notification System to receive important updates: text "COVIDMA" to 888-777
- United States Centers for Disease Control and Prevention: www.cdc.gov

Additional updates will be provided as information becomes available.

###

**Know the facts.
Protect yourself.
Stay well.**

COVID-19 Prevention

Wash hands with
soap and water for
20 seconds

Use hand
sanitizer

Avoid touching
eyes, nose and
mouth

How COVID-19 Spreads

Respiratory
droplets

Contaminated
surfaces

People in close
contact (6 feet)

People are thought to be at their most contagious when they are at their most symptomatic. Some spread might be possible before people show symptoms, but this is not thought to be the main way the virus is spread.

**If you come into close contact with someone
with COVID-19 for a prolonged period:**

- Monitor your health. If you develop symptoms call ahead to your doctor.
- Call your local health department for further instructions.

Norwold Health Department: 781-762-1240

COVID-19 Symptoms

Fever

Cough

Shortness of
breath

Symptoms may appear 2-14 days after exposure.

If you develop COVID-19 Symptoms

- Self-quarantine
- Call ahead to your doctor
- Cover your cough and sneeze
- Notify your local health department
- Wear a facemask
- Avoid others
- Avoid contact with those in your home including pets
