

Osage County Health Department 2020 Flu Clinic Schedule

Public Health
Prevent. Promote. Protect.

Osage County Health Department is pleased to announce the flu clinic schedule for the schools and general public for this flu season. Flu shots including the High Dose for seniors are available. Flu shots are recommended starting at 6 months of age and up. Flu mist will be available this year in limited amounts. Most insurance plans cover the cost of vaccines, but it is always best to check with your plan. Bring your insurance card with you or have a copy of it for us. Both types of pneumonia shots are available as will be other adult vaccines such as Tdap (Tetanus and whooping cough) **as well as the Shingrix shots for people ages 50 and over.** Due to Covid-19 concerns, we are discouraging walk-ins for flu shots this year. We ask that you attend one of the **drive through clinics** that will be held throughout the county. The form will be available on the OCHD website if you'd like to print it out and complete it to save time in line. The Vaccine Information Sheet for influenza will also be available on the website. The website address is: <http://www.osagecountyhd.org/>. Bring a copy of your insurance card with you which will also save time. **No one will be turned away for inability to pay.** Parents, if your child is due for other shots at the time we are at your child's school, we will come back out to provide those at a later date. Please let the school know what your child would need and they will get a separate form to you and save you a trip to the doctor and a co-pay!

ALL CLINICS ARE PLANNED TO BE HELD OUTSIDE DEPENDENT UPON THE WEATHER TO MINIMIZE EXPOSURE TO COMMUNICABLE DISEASES. PLEASE NOTE THAT THERE ARE CHANGES IN SOME OF THE SITES THIS YEAR.
