

Curbside Yard Waste Collection

The City of Shelton is now offering Curbside Yard Waste collection for **\$5.50 per month**. This service is provided twice each month on alternating **Wednesdays**. When you order your container it will be delivered to your address. The yard waste collection week is the same as your recycle pick up. For questions please call the Billing Department: **426-4491** or the Environmental Desk: **432-5126**.

"Building A Stronger Community
TOGETHER"

Curbside Yard Waste Collection

Save money by using the NEW Shelton Curbside Yard Waste Service! For

only \$5.50 per month you can divert up to 190 gallons of organic material from the waste stream every month. Compare that to the charge for garbage: \$22.54 per month for the same volume.

Additionally, you will be recycling organic material into another product, COMPOST. This helps to reduce carbon emissions into the atmosphere. Some people already compost at home and make their own organic product, but for those of you who may not have the time or the desire to do your own composting, you can still reduce what we put into the landfill and contribute your organic material for an environmentally responsible alternative.

Acceptable materials

- Grass Clippings
- Leaves
- Garden trimmings
- Prunings
