3. Public Hearing for Interlocal Agreement

Mayor Wallace opened the Public Hearing at 7:43 p.m.

Sam Offen, Energy Programs Director for the Michigan Suburbs Alliance stated that the City of South Lyon is one of the cities interested in participating in the Interlocal Agreement.

Councilman Wedell stated that the contract indicates that the Board will comply with the Open Meetings Act, however it indicates that electronic communications will be used. He stated that before we go any further with this contract, he would like our Counsel to investigate that issue.

Discussion was held on the agreement. Mr. Offen explained that this agreement allows the City an opportunity to apply for grants for either commercial businesses or residents. He stated that the agreement only establishes an entity that gives the City more possibilities at no cost. It gives the Alliance the opportunity to administer these grants. He further discussed the programs including a program that allows cities to provide funding to commercial property owners to install energy efficient devices and repay the City in tax assessment.

Councilman Kramer stated that he has asked for examples of the various grant programs and would like to see more.

Further discussion was held on grant opportunities for commercial properties. Mr. Offen stated that the City of South Lyon is simply presented the possibilities and the City can make all of the decisions to participate or not in those opportunities.

6. Drinking Water Revolving Fund (DWRF)

City Manager Murphy stated that no action is needed. He stated that he simply wanted to inform Council that we have been moved up on the list in the fundable range for the DWRF low interest loan. The reason we got moved up is that Bob Martin applied for and was awarded 100 more points as a result of the Wellhead Protection Plan. The DEQ’s Green Project Reserve has $12 million remaining from the stimulus money that they are distributing through a loan forgiveness of up to 50%. He stated that we will have the final list at the end of this month. The total of our project is $5,200,000 with approximately $2,350,000 to be forgiven.

Councilman Kramer asked if our entire project is considered a "green" project. Mr. Jessee VanDeCreek of Hubbel, Roth & Clark discussed the "green" aspects of the project. He stated that $5.7 million is eligible for up to 50% forgiveness. Discussion was held on the "up to" 50% forgiveness. Mr. VanDeCreek stated that this is the language consistently used. He further stated that everyone who has qualified has received 50%.

Mr. VanDeCreek stated that the list is now final and nothing has changed.

Mr. VanDeCreek gave the estimated time frame.

Councilman Cook stated that he would assume an increased rate structure would be proposed. He further stated that a special assessment district may be more appropriate for the impacted parcels. Discussion was held on the overall benefit to the entire community to replace these 4 inch and 6 inch mains to insure proper distribution to the entire City.

Councilman Kramer asked with the debt forgiveness, would we still be entitled to the 2.5% rate. City Manager Murphy stated that is the program.

Council Member Kozekowski asked if other communities back out, is there more money available. Mr. VanDeCreek stated that it would simply mean that other communities would move up on the list.

Mayor Wallace stated that Sayre Elementary is in the City now, but does not see any fire hydrants on the map. Superintendent Martin stated that there are two hydrants on that site.

7. Purchase of a Server
City Clerk/Treasurer Zemke stated this is a budgeted item. Our current server is approximately 7 years old and with the addition of the DPW through a T1 line we are at capacity. She stated that although she did attempt to get three quotes, after contacting numerous companies, none of those companies chose to bid due to the complexity of the system and their being unfamiliar with our programs and processes. She further stated that she did get information from both Dell and Hewlitt Packard which shows that Tech Resources, who has worked with us for over 15 years still is the low bidder. She is asking that Council approve the bid from Tech Resources in the amount of $6,170.15 plus installation.

Discussion was held on installation. City Clerk/Treasurer Zemke stated that Tech Resources has given us a price of $95 per hour. It was stated that we still anticipate coming in under the budgeted amount.
