4. Manager’s Performance and Contract Review

City Manager Murphy presented a memo outlining his accomplishments since his last review in 2009. Mayor Wallace stated that he would have preferred to have had the information prior to the meeting. City Manager Murphy stated that Council never provided the criteria for which his performance was evaluated.

Mayor Wallace stated that the Charter calls for the City Manager to move to the City within a year’s time and asked if it was agreed that he would move to the City within a certain length of time. City Manager Murphy stated that when he was interviewed he informed Council that he owned two homes and could not commit to moving to the City. Mayor Wallace asked his thoughts about possibly listing his house at this time. City Manager Murphy stated that he has no problem with listing, however the reality is that his home is not going to sell for what he wants. Further discussion was held on residency of the City Manager. Attorney Lee discussed an act passed by the Michigan Legislature indicating that you cannot require an employee to move closer than a 20 mile radius. We are barred from even negotiating this with unions. Discussion was held on Charter requirements. Attorney Lee stated that he does not believe that it is part of our Charter. If required by our Charter, it would be invalidated by the State Legislature.

Mayor Wallace stated that he has concern that when the City Manager is asked a question, the response is “I don’t know”. It looks weak and he would prefer a different answer. Mayor Wallace stated that he has heard concern from the merchants that the Manager is not getting out into the community.

Mayor Wallace stated that the Manager’s voice mail is professional and he dresses professionally. He further stated that the MDOT issue was a fiasco and Council should have been notified. At that time, he heard that we have another $90,000 coming to the City yet he has not heard anything further. City Manager Murphy stated that he is still working with MDOT to see how we can use it.

Mayor Wallace stated that in the near future you should look at combining departments. There are some things that are being delegated that should be done by the Manager. He is pushing off to other department heads such as grants when he should be pursuing those more often. Mayor Wallace likes the willingness to look into services and re-bidding services such as engineering, etc.

Mayor Wallace has concern over future monies and discussed taxes and expressed his hopes that the Manager is on top of things. He discussed the Bonner situation. We made some promises and would hope that we could follow through on some of them. City Manager Murphy discussed the driveway issue for Mr. Bonner. He stated that what he can find thus far is that he was treated like everyone else. Mayor Wallace stated that we would like to appease him.

Councilman Kramer stated that what he is looking for is more visibility. He complimented the City Manager on the multiple year budget. He stated that he would like more interaction with the boards and commissions. Councilman Kramer discussed future hirings. He stated that he would like to know in advance before any hiring is done. He stated that he would like to see the council meetings online through streaming video on our website.

Councilman Selden stated that there are a lot of positives, but room for improvements. He stated that he would like to see a newsletter twice per year to keep people informed. City Manager Murphy stated that we have talked about putting a newsletter out, possibly at the same time as tax bills.

Councilman Selden stated that the Manager has done a good job on budgeting, energy savings, the water well, etc. doing an overall a good job.

Councilman Kivell stated the idea of residency was addressed by Council during the interview process. We cannot hold it against him.
Councilman Kivell stated that he is very happy with the last couple of budgets and the maintenance of fund balance. Overall the budgets have been managed quite well with very little impact on the services to our residents, which speaks well of the City Manager and the department heads. He further stated that he appreciates the very managed and calm approach that he takes and applauds the relationship with Planning, DDA and Chamber. City Manager Murphy stated that he has great department heads and Mr. Cook has left the City in good financial condition. Councilman Kivell stated that even when things get crazy, he has created a very even view of how we can come to the best conclusion.

Councilman Kivell stated that the “I don’t know” happened more at the beginning. Now, the more typical answer is he will research the issue. The housing commission issue has no impact on us, it was their issue, not ours. Councilman Kramer stated that he takes issue because they have not had a meeting for a year and a half. He would like meetings more than every two years. Councilman Kivell stated that nobody lost service or anything as a product of that. Councilman Kivell stated that things have been going well and he staff has a respect for the Manager.

Discussion was held on better communication with the public. City Manager Murphy stated that we have done some good things with Channel 19 and we will be working to get a newsletter out.

Councilman Morelli stated that for the most part, he is doing a good job especially with the financial end. A few things moving forward he would like the Manager to keep Council informed on where we can make some cuts, etc.

Councilman Morelli stated that he is happy to see us shopping around with our engineering consultants, and we need to look at others such as planners, and anything that the City does with outside people. We need to keep an eye on the dollar.

Councilman Wedell stated that he pulled the goals from the last time and compared to the list of accomplishments. Our fund balance is intact, and the willingness of our staff and unions to recognize the issues and financial hardships should be commended. We have a two-year budget, which was part of his goals. We continue to see progress in our economic development program. All of these things are looking to the future. We have had some success with some of our dilapidated buildings downtown and we continue to see progress. Councilman Wedell discussed the quarterly reports of revenue and expenditures.

Councilman Wedell stated that he likes the willingness to work with the DDA. We have had a couple of crisis, but the response has been reasonable and well supported.

Council Member Kopkowski stated that she feels that the Manager relies too much on the department heads. She feels more comfortable recommending someone to talk with a department head over the Manager. She stated that she would like to see some of the community come to him first.

Councilman Selden commented on the smooth transition from manager to manager.

City Manager thanked Council for their comments and critique and stated that he will take them to heart.

**MANAGER’S REPORT:**

City Manager Murphy stated that the RCOC meeting will be May 15th. He requested Council fill out a survey provided by the Road Commission.

City Manager Murphy stated that he received a resolution from East Pointe asking the legislature and governor to look at the current tax structure. They are asking for other communities’ support.

**COUNCIL COMMENTS:**
Councilman Kramer stated that he attended the Easter egg hunt and stated that it was a wonderful event and thanked everyone involved.

Councilman Morelli asked when the pump will be turned on. Superintendent Martin gave a brief update of the well and stated that it will be on line by mid May. He stated that he we will bring 2-3 options on how to enclose the well.

Mayor Wallace stated that the annual townie award will be at the next meeting. This will be the 4th Townie Award given.

Mayor Wallace stated that the egg hunt was a success. The Kiwanis did a great job.

AGENDA TOPIC: Resolution from the City of East Pointe

EXPLANATION OF TOPIC: The City of East Pointe adopted a resolution urging the Governor and the State Legislature to reevaluate the tax structure for local units of government. The City of East Pointe is asking other local units of government to join them in adopting this resolution.

MATERIALS ATTACHED AS SUPPORTING DOCUMENTS: Letter from the East Pointe City Council and City of East Pointe’s Resolution No.1658

POSSIBLE COURSES OF ACTION: Adopt/do not adopt this resolution or adopt a simple resolution endorsing Resolution No.1658

RECOMMENDATION: Adopt a simple resolution endorsing the City of East Pointe’s Resolution No. 1658

SUGGESTED MOTION: Motion by ______________________, supported by ______________________ to endorse the City of East Pointe’s Resolution No. 1658 which asks the Governor and the State Legislature to reevaluate the tax structure for local units of government.
April 12, 2011

Mayor & City Council
Township & Village Board

The Eastpointe City Council recently adopted Resolution No. 1658, which urges the Governor and the State Legislature to reevaluate the tax structure for local units of government. The Resolution was written vaguely since we do not feel that we should be telling the Governor or State Legislature how to address the faulty set up of our tax structure.

We believe that the reason the business tax structure is routinely debated and the structure for local units of government is not, is that the business tax structure is created in law and the structure for local units of government is constitutional in nature. We also believe the reason it is flawed is because it was created over time and some of the safeguards in the Headlee Amendment became null and void when Proposal A passed.

This resolution is non-partisan. We have not seen either party attempt to address this situation. There is a lot of discussion in Lansing about how to address the fact that so many local units of government are facing a financial crisis, but we hear very little about the root cause of the issue.

We are asking other local units of government (cities, townships, villages, etc.) to join us in adopting this Resolution. It is our intent to generate some attention regarding this issue. If we can get the media interested, we may be able to get the Legislature interested. We hope you will consider putting Eastpointe Resolution No. 1658 on your agenda for your next meeting. Another option is to adopt a simple resolution endorsing Resolution No. 1658.

If your local Council or Board decides to adopt this resolution, please contact our City Manager’s office at 586-445-5016 ext. 3 to speak with the City Manager’s Executive Assistant, Linda Lince, or e-mail her at llince@eastpointecity.org. This will allow us to keep track of all the Councils and Boards that are passing the resolution. Thank you for your consideration!

Sincerely,

Eastpointe City Council
RESOLUTION NO. 1658

A RESOLUTION OF THE CITY COUNCIL
OF THE CITY OF EASTPOINTE, MICHIGAN

A RESOLUTION TO URGE THE MICHIGAN LEGISLATURE AND THE GOVERNOR
TO REEVALUATE AND MODIFY THE CURRENT TAX STRUCTURE
TO PROVIDE FOR LONG-TERM STABILITY OF LOCAL GOVERNMENTS

RECITALS

WHEREAS, in 1978 the Headlee Amendment to the Constitution of the State of Michigan of 1963 was passed which required, among other provisions, a local government to reduce its millage when annual growth on existing property is greater than the rate of inflation;

WHEREAS, prior to 1994, local governments were allowed to "roll up" their millage rates when growth on existing property was less than inflation, however, with the passage of Proposal A in 1994, such "roll ups" are prohibited with local governments thus being precluded from being able to share the benefits of any substantial market growth in existing property values;

WHEREAS, over the past several years local governments throughout the State of Michigan have been faced with serious financial challenges and steadily declining property values which have had an increasingly negative impact on the ability to provide municipal services as the result of a recession which has affected the entire nation;

WHEREAS, in response to falling revenues, local governments have been forced to make tough decisions and respond to growing financial challenges by considering and/or implementing the closing of parks, senior centers and community centers, laying off police officers and firefighters, and cancelling parades and community events, among others measures;

WHEREAS, it is further believed that the continuing decline in revenues in our State will also negatively affect libraries, trash removal, snow plowing, and other vital municipal services while the rest of the nation eventually recovers from the recession;

WHEREAS, it is feared that as the rest of the nation does slowly recover from these harsh economic times, local governments in our State will not be allowed to recover due to the current language of the Headlee Amendment and Michigan's tax structure making it increasingly difficult to attract and retain an educated workforce and businesses in the State of Michigan;

WHEREAS, the stability of local governments is vital to attracting residents and businesses to the State of Michigan and retaining existing residents and businesses;

WHEREAS, the City of Eastpointe believes it is in the public interest to reevaluate and modify the current tax structure to provide for long-term stability of local governments;

WHEREAS, the City of Eastpointe further urges all local governments in our State to adopt this Resolution and join together in requesting that the Michigan Legislature and Governor Snyder respond to this request.
NOW, THEREFORE IT IS RESOLVED that the City of Eastpointe, by a majority vote of the City Council, respectfully requests the Michigan Legislature and Governor Snyder to reevaluate and modify the current tax structure and, further, strongly urges all local governments to join together in adopting this Resolution for the betterment of the people of the State of Michigan.

The one year agreement is coming to an end and both parties would like to enter into a new agreement.
