5. WWTP – Purchase of Work Baroe

Superintendent Martin stated that we have many things that we address at the plant. One of the main things is the maintenance of air lines of the 1.8 million gallon aerated basin, which is 16 foot deep. The diffusers need to be maintained and cleaned on a regular basis. During a recent inspection with the safety officer
from MML Worker’s Comp it was discussed that we should look at a safer method than we currently use, which is using a 16’ flat bottom boat, where we have to lean over the side for the repairs. We found a custom made, flat-bottom boat called Bio-Barge which floats above the diffusers and lifts it to a level surface where it can be maintained at a safe level. We found a local manufacturer who will construct a similar work-barge with the help of the tube mill at a cost of $8,670 as opposed to the Bio-Barge including shipping would be $10,940. He further discussed having repairs done by an outside company, which would cost over $6,000 per visit.

Councilman Kramer asked if we went to the manufacturer would we get a warrantv. Superintendent Martin stated that it would not. Superintendent Martin stated that he would look into the issue,

Superintendent Martin stated that this seemed like a good fit.

Councilman Kivell asked if we looked at MMRMA for financial assistance. City Manager Murphy stated that they will not cover Worker’s Comp issues.

6. **WWTP – Purchase of a Sewer Camera**

Superintendent Martin stated that one of the many things that DPW does is maintenance and cleaning of sewer lines within the City, not only vactoring them or jetting them. The camera helps us a lot. The last camera we purchased was approximately 14 years ago. We budgeted this unit, and it is now a DVD. We received 3 bids with the low bid from Jack Doheny Supplies in the amount of $9,000. However we have received a grant from MMRMA for 50% of the cost. With the grant, our cost will be $4,500 yet we budgeted $11,000. He is recommending Council accept the bid from Jack Doheny.
