2. DWRF Tentative Contract Approval

City Manager Murphy stated that this is the next step in the Milestone Schedule. Bids for construction were solicited and received July 16, 2012. This step requires Council to adopt a resolution of tentative contract award. Again this is tentative and does not tie us to anything yet and is still contingent upon successful financial arrangements with the DWRF. We will be coming back to Council at the next meeting with the Bond Resolution.

Councilman Kramer asked that if at the next meeting in August will that be the final decision. City Manager Murphy stated that it would.

Mr. Tom Colis, representing the Bond Attorney stated that we will come back to the Council with the Bond Resolution with that Resolution Council will be adopting an ordinance authorizing the issuance of the bonds.

Councilman Wedell stated that interest rates are going down and asked if the 2.5% is still the best rate. Mr. Collis stated that for this 20 year term, 2.5% is still the best rate.
Councilman Kramer asked if the water rate increases proposed for the full amount or are we basing it on the 50% forgiveness. Discussion was held on the rate increase expected. City Manager Murphy further discussed the water debt that will be coming off in 2016.

Mayor Wallace asked Mr. VanDeCreek if he has experience with the trenchless drilling. Mr. VanDeCreek explained his experience with trenchless drilling with other communities.

Mayor Wallace asked if you anticipate people being shut down for long periods of time. Mr. VanDeCreek stated that there will be some periods of outages.

Mayor Wallace asked if the bursting would cause calcium, etc. to be broke loose. Mr. VanDeCreek explained the process and stated that there should be minimal disturbance to individual systems.

Mayor Wallace stated that he is concerned that in some of the houses, their lines are just as bad as what we are replacing. Mayor Wallace asked the cost to the homeowner. Discussion was held on coordinating with the contractor for residence who need additional work completed.

Discussion was held on the cost increase for an average family of four.

Councilman Kramer asked the life span of this project. Mr. VanDeCreek stated that we are looking at 100 year time life and maybe beyond that. He further discussed the corrosive resistant product.

Discussion was held on the repair to sod, lawns, etc.

Discussion was held on temporary water service if needed.

Discussion was held on the rate comparison. Discussion was held on the Detroit water rates.

Discussion was held on the flow rates. Mr. VanDeCreek stated that the pressure rate and flow rate would be greatly improved.

Councilman Kivell stated that it would be a good idea to have an information chain so that a contractor can make any repairs at the same time as the work is being done. City Manager Murphy stated that these contractors are not going to go into someone's home and replace the plumbing. Further discussion was held on possible repairs to lines that the homeowner may be responsible for.

Discussion was held on the contractor providing the low bid. The question was asked of Mr. VanDeCreek if he has had experience with them. Mr. VanDeCreek stated that he has not personally, but his firm has. He stated that they are a municipal contractor and have worked with many different communities.

CM 7-6-12 – APPROVAL RESOLUTION

Motion by Kivell, supported by Wedell

Whereas, the City of South Lyon wishes to construct improvements to its existing water treatment and distribution system; and

Now, Therefore, be it resolved, that the City of South Lyon tentatively awards the contract for construction of the proposed water system improvements project to Bricco Excavating Co., LLC contingent upon successful financial arrangements with the DWRF.

VOTE: MOTION CARRIED (5 yea/2 nay)

3. Planning Services Agreement

City Manager Murphy stated that the RFP committee met with Carmine Avantini and Brad Strader from LSL after the last Council meeting where Council expressed concerns about an agreement between CIB and LSL to utilize LSL’s resources. City Manager Murphy further stated that the former City Attorney had expressed his opinion that the contract for planning services with LSL is valid and in place, even though it was not signed, therefore he is asking Council to terminate that agreement except for the Master Plan work.

Attorney Wilhelm stated that he has reviewed the agreement between CIB and LSL for day-to-day assistance of LSL Planning and technical support. There have been changes to the agreement between CIB and the City that references that document between CIB and LSL and the types of services that they will provide. It further provides that the City is to receive notice in the event that the agreement between CIB and LSL is terminated. He further stated that we are satisfied that the arrangements allows the City an opportunity to get out of the agreement with 30 day notice if the arrangement between CIB and LSL is terminated.

Discussion was held on the billing. City Manager Murphy stated that LSL will be billing us for the Master Plan, but the daily functions will be billed by CIB.

Discussion was held on the Master Plan. City Manager Murphy stated that LSL will be doing the Master Plan work with the assistance of Mr. Avantini, however we do have an agreement with LSL.

Re: City of South Lyon Drinking Water Revolving Fund Project
Water and Sewer System Junior Lien Revenue Bonds, Series 2012

Dear David:

As we discussed, I have enclosed an Ordinance authorizing the issuance of the above-captioned Series 2012 Bonds to be considered for approval by the City Council at its meeting on Monday, August 13th. The Bonds are to be sold through the Michigan Finance Authority’s (“MFA”) 4th Quarter Drinking Water Revolving Fund Program scheduled to close on September 18th. The Ordinance authorizes the issuance of the Bonds in an amount not to exceed $5,300,000 and has been prepared based on the bond specifications from Robert W. Baird & Co., Incorporated, the City’s financial advisors.

The Ordinance authorizes the issuance of the Bonds, which are payable from the Net Revenues of the City’s Water and Sewer System. The Bonds will be sold to the MFA and payable in 20 annual principal installments at an interest rate of 2.50%. MDBEQ has indicated the City will receive 50% principal forgiveness on the debt, so the actual amount which will be repaid will be $2,650,000 plus interest at 2.5%.

The Ordinance also authorizes various City officials to take the necessary actions to execute and deliver the Bonds and all related documents, approve the final size of the Bonds and contains the necessary items required by the Revenue Bond Act, Act 94 of 1933.

It is hereby determined to be a necessary public purpose of the City to acquire and construct the Project in accordance with the plans and specifications prepared by the Engineers, which plans and specifications are hereby approved. The Project qualifies for the Drinking Water Revolving Fund financing program being administered by the DEQ and the Authority, whereby bonds of the City are sold to the Authority and bear interest at a fixed rate of two and one-half percent (2.50%) per annum.

Section 3. Costs; Useful Life. The cost of the Project is estimated to be Five Million Three Hundred Thousand Dollars ($5,300,000), including the payment of incidental expenses as specified in Section 4 of this Ordinance, which estimate of cost is hereby approved and confirmed. Section 4. Payment of Cost; Bonds Authorized. To pay part of the cost of acquiring the Project, legal, engineering, financial and other expenses incident thereto and incident to the issuance and sale of the Series 202 Bond, the City shall borrow the sum of not to exceed Five Million Three Hundred Thousand Dollars ($5,300,000), and issue the Series 2012 Bond therefor pursuant to the provisions of Act 94. The remaining cost of the Project, if any, shall be defrayed from City funds on hand and legally available for such use.

Section 5. Issuance of Series 2012 Bond; Details. The Series 2012 Bond of the City, to be designated WATER AND SEWER SYSTEM JUNIOR LIEN REVENUE BOND, SERIES 2012 is authorized to be issued in the aggregate principal sum of not to exceed Five Million Three Hundred Thousand Dollars ($5,300,000) or such lesser amount as finally determined by order of the DEQ for the purpose of paying part of the cost of the Project, including the costs incidental to the issuance, sale and delivery of the Series 2012 Bond. Interest on the Series 2012 Bond shall be payable on April 1 and October 1 of each year, commencing April 1, 2013 or on such other interest payment dates as hereinafter provided. Final determination of the principal amount of and interest on the Series 2012 Bond and the payment dates and amounts of principal installments of the Series 2012 Bond shall be evidenced by execution of the Purchase Contract and each of the Authorized Officers is authorized and directed to
Bonds being redeemed in part. The City shall give the transfer agent notice of call for redemption at least 20 days prior to the date notice of redemption is to be given.

The transfer agent shall keep or cause to be kept at its principal office sufficient books for the registration and transfer of the Bonds or Junior Lien Bond, which shall at all times be open to inspection by the City; and upon presentation for such purpose the transfer agent shall under such reasonable regulations as it may prescribe transfer or cause to be transferred on said books Bonds or Junior Lien Bond as hereinbefore provided.

If any Bond or Junior Lien Bond shall become mutilated, the City, at the expense of the holder of the Bond, shall execute, and the transfer agent shall authenticate and deliver, a new Bond or Junior Lien Bond of like tenor in exchange and substitution for the mutilated Bond or Junior Lien Bond, upon surrender to the transfer agent of the mutilated Bond or Junior Lien Bond. If any Bond or Junior Lien Bond issued under this Ordinance shall be lost, destroyed or stolen, evidence of the loss, destruction or theft may be submitted to the transfer agent and, if this evidence is satisfactory to both and indemnity satisfactory to the transfer agent shall be given, and if all requirements of any applicable law including Act 354, Public Acts of Michigan, 1972, as amended ("Act 354"), being sections 129.131 to 129.135, inclusive, of the Michigan Compiled Laws have been met, the City, at the expense of the owner, shall execute, and the transfer agent shall thereupon authenticate and deliver, a new Bond or Junior Lien Bond of like tenor and bearing the statement required by Act 354, or any applicable law hereafter enacted, in lieu of and in substitution for the Bond or Junior Lien Bond so lost, destroyed or stolen. If any such Bond or Junior Lien Bond shall have matured or shall be about to mature, instead of issuing a substitute Bond or Junior Lien Bond the transfer agent may pay the same without surrender thereof.

Section 8. Payment of Series 2012 Bond; Security; Priority of Lien. Any Bonds hereafter issued and the interest thereon shall be payable solely from the Net Revenues, and to secure such payment, there is hereby created a statutory lien upon the whole of the Net Revenues which shall be a first lien to continue until payment in full of the principal of and interest on all Bonds payable from the Net Revenues, or, until sufficient cash or Sufficient Government Obligations have been deposited in trust for payment in full of all Bonds of a series then outstanding, principal and interest on such Bonds to maturity, or, if called for redemption, to the date fixed for redemption together with the amount of the redemption premium, if any.

Any Junior Lien Bonds issued hereunder, including the Series 2012 Bond, and the interest thereon shall be payable from the Net Revenues, and to secure such payment, there is hereby created a statutory lien upon the whole of the Net Revenues which shall be a second lien, subject only to the statutory first lien established with respect to the Bonds, to continue until payment in full of the principal of and interest on all Junior Lien Bonds payable from the Net Revenues, or, until sufficient cash or Sufficient Government Obligations have been deposited in trust for payment in full of all Junior Lien Bonds of a series then outstanding, principal and interest on such Junior Lien Bonds to maturity, or, if called for redemption, to the date fixed for redemption together with the amount of the redemption premium, if any. The statutory lien on the Net Revenues created with respect to the Junior Lien Bonds (including the Series 2012 Bond) shall at all times be and remain subordinate and inferior to the pledge of Net Revenues and the statutory first lien thereon authorized to be granted to secure any Bonds hereafter issued.
Ordinance. In addition, it is agreed that the rates shall be set from time to time so that there shall be produced each fiscal year Net Revenues in an amount not less than 110% of the principal of and interest on all Bonds coming due in each fiscal year and net less than 100% of the principal of and interest on all Junior Lien Bonds coming due in each fiscal year. The rates shall be fixed and revised from time to time as may be necessary to produce these amounts, and it is hereby covenanted and agreed to fix and maintain rates for services furnished by the System at all times sufficient to provide for the foregoing.

Section 14. Funds and Accounts; Flow of Funds. Commencing on September 1, 2012, all funds belonging to the System shall be transferred as herein indicated and all Revenues of the System shall be set aside as collected and credited to a fund to be designated WATER SUPPLY SYSTEM RECEIVING FUND (the “Receiving Fund”). In addition, on September 1, 2012, all Revenues in any accounts of the System shall be transferred to the Receiving Fund and credited to the funds and accounts as provided in this section. The Revenues credited to the Receiving Fund are pledged for the purpose of the following funds and shall be transferred or debited from the Receiving Fund periodically in the manner and at the times and in the order of priority hereinafter specified:

A. OPERATION AND MAINTENANCE FUND:

Out of the Revenues credited to the Receiving Fund there shall be first set aside, or credited to, a fund designated OPERATION AND MAINTENANCE FUND (the “Operation and Maintenance Fund”), monthly a sum sufficient to provide for the payment of the next month’s expenses of administration and operation of the System and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order.

A budget, showing in detail the estimated costs of administration, operation and maintenance of the System for the next ensuing operating year, shall be prepared by the City at least 30 days prior to the commencement of each ensuing operating year. No payments shall be made to the City from moneys credited to the Operation and Maintenance Fund except for services directly rendered to the System by the City or its personnel.

B. BOND AND INTEREST REDEMPTION FUND:

There shall be established and maintained a separate depository fund designated BOND AND INTEREST REDEMPTION FUND (the “Redemption Fund”), the moneys on deposit therein from time to time to be used solely for the purpose of paying the principal of, redemption premiums (if any) and interest on the Bonds. The moneys in the Redemption Fund shall be kept on deposit with the bank or trust company where the principal of and interest on the Bonds, or any series thereof, are payable.

Out of the Revenues remaining in the Receiving Fund, after provision for the Operation and Maintenance Fund, there shall be set aside in the Redemption Fund each month, commencing with the date of issue of a series of Bonds, a sum proportionately sufficient to provide for the payment when due of the then current principal of and interest on the Bonds, less any amount in the Redemption Fund representing accrued interest on the Bonds or investment income on amounts on deposit in the Redemption Fund. Commencing with the date of issue of a series of Bonds, the amount set aside each month for interest on the Bonds shall be the fractional amount of the total amount of interest on the Bonds next coming due derived from the number of months from the date of issue of the Bonds to the first interest payment date. Commencing with
No further payments need be made into the Junior Lien Redemption Fund after enough of the principal installments of the Junior Lien Bonds have been retired so that the amount then held in the Junior Lien Redemption Fund (including a bond reserve account, if any), is equal to the entire amount of principal and interest which will be payable at the time of maturity of all the principal installments of the Bond then remaining outstanding.

D. REPAIR, REPLACEMENT AND IMPROVEMENT FUND:

There shall next be established and maintained a fund, separate depositary account, designated WATER SUPPLY SYSTEM RRI FUND or such other designation determined by the Treasurer (the “Replacement Fund”), the money credited thereto to be used solely for the purpose of making repairs and replacements to the System. Out of the Revenues and moneys of the System remaining in the Receiving Fund each month after provision has been made for the deposit of moneys in the Operation and Maintenance Fund, the Redemption Fund and the Junior Lien Redemption Fund, there may be deposited in the Replacement Fund such additional funds as the City may deem advisable. If at any time it shall be necessary to use moneys in the Replacement Fund for the purpose for which the Replacement Fund was established, the moneys so used shall be replaced from any moneys in the Receiving Fund which are not required by this Ordinance to be used for the Operation and Maintenance Fund, the Redemption Fund, or the Junior Lien Redemption Fund.

E. GENERAL OBLIGATION DEBT FUND:

Out of the remaining Revenues in the Receiving Fund, there may be next set aside in or credited to monthly after meeting the requirements of the foregoing Account, to an account designated General Obligation Debt Fund (the “G.O. Fund”), or from other available moneys such sums as shall be necessary to pay debt service on presently existing or future general obligation bond issues of the City or general obligations or contractual obligations of the City incurred or to be incurred for System purposes.

F. SURPLUS MONEYS:

Thereafter, any Revenues in the Receiving Fund after satisfying all the foregoing requirements of this Section may, at the discretion of the City, be used for any of the following purposes:

1. Transferred to the Replacement Fund.

2. Transferred to the Redemption Fund and used for the purchase of Bonds on the open market at not more than the fair market value thereof or used to redeem Bonds prior to maturity pursuant to this Ordinance.

3. Any other use permitted by law.

Section 15. Priority of Funds. In the event the moneys in the Receiving Fund are insufficient to provide for the current requirements of the Operation and Maintenance Fund, the Redemption Fund, or the Junior Lien Redemption Fund, any moneys or securities in other funds of the System, except the
Any unexpended balance of the proceeds of sale of the Series 2012 Bond remaining after completion of the Project in the Construction Fund may, at the discretion of the City, be used for further improvements, enlargements and extension to the System, if, at the time of such expenditures, such use is approved by the Michigan Department of Treasury, if such permission is then required by law. Any remaining balance after such expenditure shall be paid to the Redemption Fund and may be used for the purpose of purchasing the Series 2012 Bond on the open market at not more than the fair market value thereof, but not more than the price at which the Series 2012 Bond may next be called for redemption, or used for the purpose of paying principal of the Series 2012 Bond upon maturity or calling the Series 2012 Bond for redemption.

Section 18. Bond Form. The Series 2012 Bond shall be in substantially the following form with such changes or completion as necessary or appropriate to give effect to the intent of this Ordinance:
Notwithstanding any other provision of this bond, so long as the Authority is the owner of this bond, (a) this bond is payable as to principal, premium, if any, and interest at The Bank of New York Mellon Trust Company, N.A. or at such other place as shall be designated in writing to the City by the Authority (the "Authority's Depository"); (b) the City agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this bond in immediately available funds by 12:00 noon at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority's Depository has not received the City's deposit by 12:00 noon on the scheduled day, the City shall immediately pay to the Authority as invoiced by the Authority an amount to recover the Authority's administrative costs and lost investment earnings attributable to that late payment; and (c) written notice of any redemption of this bond shall be given by the City and received by the Authority's Depository at least 40 days prior to the date on which such redemption is to be made.

Additional Interest

In the event of a default in the payment of principal or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this bond but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the City's default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the City shall and hereby agrees to pay on demand only the City’s pro rata share (as determined by the Authority) of such deficiency as additional interest on this bond.

For prompt payment of principal and interest on this bond, the City has irrevocably pledged the revenues of the water supply system of the Water and Sewer System of the City, including all appurtenances, extensions and improvements thereto (the “System”), after provision has been made for reasonable and necessary expenses of operation, maintenance and administration (the “Net Revenues”), and a statutory second lien thereon is hereby recognized and created, subject to the senior lien of any additional Bonds of the City hereafter issued by the City, as set forth in the Ordinance (hereinafter defined). The City has reserved the right to issue such additional Bonds which shall be superior and senior in all respects to the bonds of this issue as to the Net Revenues.

Purchasers of the bonds of this issue, by their acceptance of the bonds of this issue or a beneficial ownership interest therein, shall be deemed to have consented to the subordination of their interest in and lien upon the Net Revenues upon the issuance of Bonds subsequent to the delivery of the bonds of this issue.
IN WITNESS WHEREOF, the City of South Lyon, County of Oakland, State of Michigan, by its City Council has caused this bond to be executed with the manual or facsimile signatures of its Mayor and its City Clerk and the corporate seal of the City to be impressed or imprinted hereon, all as of the Date of Original Issue.

Section 19. General Covenants. The City covenants and agrees with the holders of the Bonds that so long as any of the Bonds remain outstanding and unpaid as to either principal or interest:

(a) The City will maintain the System in good repair and working order and will operate the same efficiently and will faithfully and punctually perform all duties with reference to the System required by the Constitution and laws of the State of Michigan, the City’s Charter and this Ordinance.

(b) The City will keep proper books of record and account separate from all other records and accounts of the City, in which shall be made full and correct entries of all transactions relating to the System. The City shall have an annual audit of the books of record and account of the System for the preceding operating year made each year by an independent certified public accountant. The auditor shall comment on the manner in which the City is complying with the requirements of the Ordinance with respect to setting aside and investing moneys and meeting the requirements for acquiring and maintaining insurance. The audit shall be completed and so made available not later than six (6) months after the close of each operating year except as such period may be extended in conformance with the rules of the Michigan Department of Treasury.

(c) The City will maintain and carry, for the benefit of the holders of the Bonds, insurance on all physical properties of the System and liability insurance, of the kinds and in the amounts normally carried by municipalities engaged in the operation of water supply and sewage disposal system, including self-insurance. All moneys received for losses under any such insurance policies shall be applied solely to the replacement and restoration of the property damaged or destroyed, and to the extent not so used, shall be used for the purpose of redeeming or purchasing Bonds.

(d) The City will not sell, lease or dispose of the System, or any substantial part, until all of the Bonds and Junior Lien Bonds have been paid in full, both as to principal and interest or provision made thereof as herein provided. The City will operate the System as economically as possible, will make all repairs and replacements necessary to keep the System in good repair and working order, and will not do or suffer to be done any act which would affect the System in such a way as to have a material adverse effect on the security for the Bonds and the Junior Lien Bonds.

(e) The City will not grant any franchise or other rights to any person, firm or corporation to operate a System that will compete with the System and the City will not operate a system that will compete with the System.

(f) The City will cause the Project to be acquired and constructed promptly and in accordance with the plans and specification therefor.

Section 20. Additional Bonds. Except as hereinafter provided, the City shall not issue additional Bonds of equal or prior standing with any initial series of Bonds issued hereunder.

-17-
Section 21. Negotiated Sale; Application to DEQ and Authority; Execution of Documents. Prior to the delivery of the Series 2012 Bond to the Authority, any Authorized Officer is hereby authorized to make such changes to the form of the Series 2012 Bond contained in Section 18 of this Ordinance as may be necessary to conform to the requirements of Act 227, Public Acts of Michigan 1985, as amended (“Act 227”), including, but not limited to changes in the principal maturity and interest payment dates and references to additional security required by Act 227.

Section 22. Covenant Regarding Tax Exempt Status of the Bonds. The City shall, to the extent permitted by law, take all actions within its control necessary to maintain the exemption of the interest on the Series 2012 Bond from general federal income taxation (as opposed to any alternative minimum or other indirect taxation) under the Internal Revenue Code of 1986, as amended (the “Code”), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Series 2012 Bond proceeds and moneys deemed to be Bond proceeds.

Section 23. Approval of Bond Counsel. The representation of the City by Miller, Canfield, Paddock and Stone, P.L.C. (“Miller Canfield”), as bond counsel is hereby approved, notwithstanding the representation by Miller Canfield of the Authority in connection with its financing programs and borrowings.

The Authorized Officers are each hereby authorized to adjust the final bond details set forth herein to the extent necessary or convenient to complete the transaction authorized herein, and in pursuance of the foregoing is authorized to exercise the authority and make the determinations authorized pursuant to Section 7a(1)(c) of Act 94, including but not limited to determinations regarding interest rates, prices, discounts, maturities, principal amounts, denominations, dates of issuance, interest payment dates, redemption rights, the place of delivery and payment, and other matters, provided that the principal amount of Series 2012 Bond issued shall not exceed the principal amount authorized in this Ordinance, the interest rate per annum on the Series 2012 Bond shall not exceed two and one-half percent (2.50%) per annum, and the Series 2012 Bond shall mature in not more than twenty (20) annual installments.

Section 25. Savings Clause. All ordinances, resolutions or orders, or part thereof, in conflict with the provisions of this Ordinance are, to the extent of such conflict, repealed.

Section 26. Severability; Paragraph Headings; and Conflict. PERSON PLACING ITEM ON AGENDA: Robert J. Martin, Department of Public Works

AGENDA TOPIC: 2012 Street Improvement Project

EXPLANATION OF TOPIC: As you may recall at the July 11, 2012 Council Meeting we presented a list of proposed streets for rehabilitation. The list compiled was for partial fixes and not full blown reconstruction. The following was the list of streets proposed:

E. Liberty from Reese to Reynolds Sweet
Reese Extension from E. Liberty to Terminus
Hagadorn from 10 Mile Road to 110’ north
Chester from Hagadorn to 60’ west
Warren from Whipple Blvd. to 2nd Street
Stanford at Vassar Intersection

We received five (5) bids for this work with the lowest bid being T&M Asphalt Paving, Inc. The price of doing this job for the construction portion will be $106,836.00. The observation engineering cost will be $37,000.00 for a total cost of $143,836.00.

MATERIALS ATTACHED AS SUPPORTING DOCUMENTS: Bid tabulation of the five (5) bids.

POSSIBLE COURSES OF ACTION: Approve/deny the 2012 Street Repair project.

RECOMMENDATION: Approve the 2012 Street repair project with the low bid from T&M Asphalt Paving, Inc. for $106,836.00.

SUGGESTED MOTION: Motion by __________________, supported by __________________ to approve the 2012 Street Repair Project with the low bid of $106,836 to T&M Asphalt Paving, Inc.

AGENDA TOPIC: Whipple Street Parking Lot Project

EXPLANATION OF TOPIC: As you may recall the City has been saving the 2010, 2011 and 2012 CDBG (Community Development Block Grant) money to repave the City owned parking lot on Whipple Street. The 2012 CDBG funding has been approved by the Federal Government and we can now obligate and expend these funds. The total amount of CDBG funds that can be used towards this project is $82,464, the Engineer’s estimate for this project is $128,801.00 and the remaining $46,337 will come from the Capital Improvement Fund.

MATERIALS ATTACHED AS SUPPORTING DOCUMENTS: Cost estimate from HRC for the design and construction of the parking lot and aerial view of the lot.

POSSIBLE COURSES OF ACTION: Approve/deny the design services in the amount of $13,600.00 for the Whipple Street Parking Lot Project.

RECOMMENDATION: Approve the design services from HRC in the amount of $13,600.00 for the Whipple Street Parking Lot Project.

SUGGESTED MOTION: Motion by ________________, supported by ________________, to approve the design services from HRC in the amount of $13,600.00 for the Whipple Street Parking Lot Project.

Attention: Mr. David M. Murphy, City Manager

Re: 2012 CDBG Project – Whipple Parking Lot
Proposal for Professional Engineering Services

Dear Mr. Murphy:

At your request, we have reviewed the limits of the proposed 2012 CDBG Project – Whipple Parking Lot. The attached Figure No.1 graphically illustrates the parking lot slated for improvements.

We understand that the City wishes to upgrade the parking lot cross-section in an effort to meet the minimum criteria that are outlined in the City of South Lyon Standard Engineering Specifications. Note that this estimate does not include any sanitary sewer or water main related utility work.

We have prepared a preliminary construction cost and total project cost estimate that includes the following major items of work:

1. Pulverize the existing pavement from edge to edge and re-shape the parking lot using the pulverized material to provide the minimum cross-slope per the City’s Paving Design Standards.

2. Installation of a storm sewer system which connects into the existing storm sewer on Whipple Blvd. to improve parking lot drainage.

3. Overlay the re-shaped parking lot with a bituminous overlay which meets Standard Engineering Specifications.

4. Stripe the new bituminous pavement to match the existing parking layout.

5. Salvage and re-use existing parking blocks (if possible).

6. In order to make necessary base and drainage improvements a cost has been budgeted for the removal and replacement of a portion of the existing pavement sub base section with undercutting. Final quantities will be determined during the design phase.
Based upon our preliminary project cost estimates, the following Table 1 is a summary that reflects the preliminary apportionment of costs that will be incurred to each of the City budgets for streets, water and sewer improvements, respectively.

Attached herewith, please find the itemized preliminary apportionment and project cost estimates for construction of the improvements as illustrated herein.

Our fees for this project would be based on providing preliminary engineering, design, bidding and construction engineering services, as well construction observation. Our tasks can be summarized as follows:

- Develop preliminary engineering evaluation of the most cost-effective method of construction.
- Collect field data of the existing street, sewer, water main, sidewalk, and adjacent topographic information necessary to prepare construction drawings.
- Prepare construction drawings and specifications.
- Prepare a final estimate of construction cost for the Owner’s review.
- Prepare applications for necessary Oakland County Soil Erosion Control permit.
- Distribute plans for bidding, review bids, and make recommendation of award to the City.
- Provide field layout including street grade stakes and cut sheets.
- Provide construction engineering services including review of contractor pay estimate requests, change orders, interpreting the construction documents for the contractor, and keeping the City informed of the progress of the work.
- Provide materials testing services for quality control including compaction testing for road subbase and subgrade, utility bedding, bituminous density and extraction testing and reports, concrete curb and gutter compressive strength and mix design verification.
- Provide a field observer to observe the construction of the work and to report to the City on the progress of the work.
Fees for these services would be as follows:

<table>
<thead>
<tr>

<th>Cost</th>

</thead>
<tbody>
<tr>
<td>Preliminary Engineering</td>
<td>$1,800.00</td>
</tr>
<tr>
<td>Topographic Survey</td>

</tr>
<tr>
<td>Construction Layout</td>
<td>$3,600.00</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$25,800.00</strong></td>
</tr>
</tbody>
</table>

The cost for Resident Representation is based on an estimated 12 days for a construction observer to be on the site. We will include in the construction bid an item for “Field Observation Crew Days.” This item will make the contractor subject to additional resident representative costs incurred due to delays caused by the contractor. The fees for as-built construction drawings are not included since the scope of this project is currently limited to roadway surface improvements.

Fees will be invoiced monthly and based on our contract with the city. The total fee for the design and construction engineering services as described herein is $25,800 and will not exceed that amount without your prior authorization. In order to commence with the Preliminary Engineering, Topographic Survey and complete the Design Services it is recommended that the City authorize $13,600.00 to commence with the design engineering as soon as practicable. This will allow for the design and bid letting to be performed now in this Fiscal Year (FY) 2012/2013, with construction to follow in FY 2013/2014, or as funding from the Community Development Block Grant and season conditions allow.

If this proposal is deemed acceptable to the City, please sign and return one copy to this office and retain one for your files. Thank you for the opportunity to serve the City on this project.

If you have any questions or require any additional information, please feel free to contact our office at (586) 569-5000.

Very truly yours,

Subject: a BIG thank you from the Salem-South Lyon District Library

David,

I cannot express appreciation enough for the wonderful bike trail extension to the library. What a tremendous gift to the community. It is getting used A LOT!

Also, thank you to the City of South Lyon Department of Public Works who have been meticulously maintaining the area on each side of the trail. I have seen them pick up the garbage, move Salem Twp. Trustee candidate signs, mow it, and then put all of the Salem Twp. Trustee signs back!!!!

I have seen them water the new grass, they put in a stop sign by the library driveway to alert bikers to NOT drift into the driveway into incoming traffic. Addition of the Stop sign was a request from the Salem-South Lyon District Library Board.

Wow--can't say enough about the fine example that is set. Class Act ALL the way.

Sincerely,

Doreen Hannon
