

**Butler County General Health District  
Seasonal Influenza-Associated Hospitalizations Report  
MMWR Week 16  
04/16/2023-04/22/2023**

**Butler County  
General Health District**

**Weekly Influenza-Associated Hospitalizations Activity Summary:  
Butler County (MMWR Week 16, ending on 04/22/2023)**

One influenza-associated hospitalizations was reported in a Butler County resident for the MMWR week ending 04/22/2023. The 3-year average for this time of year is 4.6 influenza-associated hospitalizations. Receiving the influenza vaccine is the best way to reduce the chance of illness and complications, including those resulting in hospitalization and death.

Note: Flu View map updated 1 week late due to delays in data reporting to the CDC

### Sources of Influenza Surveillance Data

**Influenza-associated Hospitalizations (ODRS):** Influenza-associated hospitalizations are reported to local health departments for entry into the Ohio Disease Reporting System (ODRS). Hospitalizations can be used as an indicator of the severity of illness during a particular influenza season. This condition became reportable in 2009.

For further information or questions, please contact:  
Butler County General Health District, 513-863-1770

Data is provisional and subject to change due to delays in reporting. Report reflects the period of 08/07/2022 – 03/25/2023 (MMWR Week 32 to Week 12 of 2023). Data accessed from the Ohio Disease Reporting System (ODRS) on 03/25/2023. \*3 year average does not include the 2020-2021 flu season. \*Southwest Ohio includes hospitalizations from the following counties and their respective jurisdictions: Adams, Brown, Butler, Clermont, Clinton, Hamilton, Highland and Warren.
