VI. Items from Administrative Staff

a. Items from the Interim Nursing Director

Mrs. Waldeck presented the Nursing Department report. During the month of February,

nursing staff has continued partnership with the Butler County Educational Services Center to host COVID vaccine clinics at their facility two times per week. All vaccines have been available at these clinics: Moderna, Pfizer, Janssen, and Pediatric Pfizer (5-11 years) and first, second, and booster doses have been administered. Clinics have accommodated both scheduled appointments and walk-in visits. There has been a significant decrease in the amount of clients attending vaccine clinics. In addition to booster doses and 5-11 years doses, there was a small amount of those seeking first and second doses. Data was not yet submitted to the FDA in order to seek EUA approval for vaccine for those 6 months through 4 years of age and that age group was not eligible for vaccination.

The overall estimated total of vaccines administered by BCGHD from December 2020 through February 2022 is 42,232. BCGHD has administered approximately 120 vaccinations during the month of February. Of that total, approximately 27 of those vaccines were for 5-11 year old children.

There were 8 clinics held at the Butler County Educational Services Center in the month of February. The total number of vaccines given at the February were approximately 72. Of that total, 17 of the doses were for 5-11 year old children. The clinic that was scheduled for February 4th was cancelled due to inclement weather.

There was one school clinic held in the month of February on Sunday, February 6, 2022 at Ross High School. A total of 48 vaccines were given. Of those, 10 were pediatric doses and 38 were 12+/adult doses.

Nursing staff have continued to vaccinate homebound residents as well as hard to reach and high-risk populations with various mobility/medical issues. Requests for homebound visits significantly declined for the month of February. This decline is most likely due to those who are eligible for a booster dose had already received it.

Due to COVID response, the clinic remains closed for children vaccines and walk-in TB testing.

Nursing staff is currently following 5 active TB cases. Four of the cases are no longer contagious but are in the continuation of treatment phase and the other remains infectious. During February, nine individuals were being investigated to determine their TB status. Four of those were found to have latent TB and referred to their PCP for follow-up treatment. The remaining five individuals are awaiting results to determine if they have latent TB or are not a case.

Nursing staff is currently following seven perinatal Hepatitis B cases. Five cases are in the process of completing the Hepatitis B vaccination series. Two will have post vaccine serology testing later this year.

b. Items from the Health Promotion Director

Mr. Balster presented the Health Promotion Report. He began by briefly discussing the Ohio Equity Institute (OEI) grant. A Health Equity Coordinator, which is a new position to the

BCGHD, started on March 10, 2022. A charter has also been completed to begin forming a Health Equity core team that will focus on building internal capacity to address health disparities in the community.

Mr. Balster briefly discussed the Cribs for Kids program. The program has collaborated with The Whole Woman Project campaign, which continues until May 31st, 2022.

The Child Fatality Review Board meeting which reviews all child deaths of Butler County residents was held on March 3, 2022.

c. Items by the Chief Plumbing Inspector

Mr. Frederick presented the February plumbing report that was sent out in the board packet.

There are no plumbing action items for the board.

d. Items by the Environmental Health Director

Mr. Balster presented the Environmental Health Division Board Report.

WPCLF: The Ohio EPA has granted BCGHD an extension on the 2020 WPCLF so that work can be finished up on the Hamilton Trenton Road job under the 2020 grant cycle. As soon as the job is completed, BCGHD will move on to the 2021 grant cycle.

The Board orders that were issued in January were repaired and did not need to go to the prosecutor's office.

There were no food service pre-administrative hearings conducted for the month of January.

Food Service staff is currently working on second notices for facilities that failed to renew their food licenses by March 1, 2022.

The Retail Food Establishment Program will be surveyed by the Ohio Department of Agriculture beginning the week of April 4th. At this time, only four staff members in the food department will be eligible for the survey. The other staff members will either be out on extended sick leave or have not finished their training in the Retail Food Establishment Program. Staff members that will not be surveyed are scheduled to have individual training with the Ohio Department of Agriculture on April 28th. This training was set up in early January for all staff hired since June of 2021.

e. Items by the Chief Fiscal Officer

Mrs. Geisler reviewed the February Financial Report that had been sent in the Board packet.

Mrs. Geisler began by giving a grant update to the board. The large COVID-19 Response and COVID-19 Contact Tracing grants ended on 12/30/2021. BCGHD still has COVID-19 Enhanced Operations, COVID-19 Vaccinations and the Public Health Workforce grant funding for COVID-19 response activities and related personnel

development through the Ohio Department of Health.

Fiscal staff are currently working on the Annual Financial Report and leadership staff are working on the Quality Indicators for the Ohio Department of Health which is due on April 1st. The state Subsidy Application form needs to be signed by the Board of Health and submitted by April 1st with the Annual Financial Report and Quality Indicators.

Mrs. Geisler presented to the board a BCGHD Gift Card Policy has been created and approved by the Health Commissioner and BCGHD Leadership staff. This policy spells out procedures for purchasing, storing and issuing client incentive gift cards. Since the policy is fiscal-related, it needs a motion for approval from the board.

2022-03-007 Dr. Burley made a motion to approve the BCGHD Gift Card Policy. Dr. Emmert seconded the motion. The motion passed unanimously.

The Fiscal Department continue a Performance Management project in Clear Impact to help ensure fiscal sustainability in the general fund throughout the year. For this project, staff will monitor the General Fund cash balance (not including grant funds) for year-to-date revenue received being equal to or greater than the year-to-date expenditures each month with continuing a goal of 5% revenue over expenditures by the end of 2022. For the month of February, the general fund YTD revenue over expenditures is at -21.11%. The advance to the HSTS fund was removed since this is not an actual expenditure, but will be repaid later in the year.

Mrs. Geisler gave the board a vehicle update from the February board meeting. The 2005 Ford F250 Pick-up Truck was transferred to the Butler County Engineer's Office on February 25, 2022 and payment of \$200 was received.

Mrs. Geisler researched into the 2013 Salem Travel Trailer purchase. This trailer was purchased in November, 2012 from Couch's Campers for \$17,551.50 from District Health Fund 7000. BCGHD received \$15,745.16 in February 2012 from the insurance company for the 2005 Ameri-Camp Travel Trailer that was stolen in November 2011. Mrs. Geisler has been unable to locate a vehicle file for the original 2005 travel trailer. Invoices and payment records for that time period were disposed of through the records retention policy and no longer available. Available grant financial records and grant inventory lists dating back to 2009 do not list the 2005 travel trailer as grant inventory. The 2013 Salem Travel Trailer is not listed on any grant inventories on file. Therefore, Mrs. Geisler and Mr. Balster, Health Commissioner, feel that the 2013 Salem Travel trailer should be able to be disposed of without issue.

2022-03-008 Dr. Burley made a motion for the approval to dispose of the 2013 Salem Travel Trailer. Mr. Urban seconded the motion. The motion passed unanimously.

Personnel changes since the last meeting includes the hiring of Chinonyerem "Chi-Chi" Ewulonu, full-time, non-exempt Health Equity Coordinator, 100% grant-funded

This will affect any employee that is still within their probationary period at the time of the policy change.

Revisions in the policy regarding personal days are in Section 6.2 (m). New hires must complete 30 days before being granted paid personal days in lieu of being granted personal days at the time of hire. This will affect any employee that their date of hire is after March 17, 2022.

Policy regarding the Vacation and Personal Day sections. Dr. Emmert seconded the motion. The motion passed unanimously.

Mr. Balster stated that on March 10th, 2022, the Ohio Department of Health rescinded the Public Health Order of September 2020 requiring certain aspects of disease reporting and tracking in reference to COVID-19 cases. The following actions are no longer required to be completed by the school.

- Maintain a COVID-19 reporting system for parents to report.
- Designating a COVID-19 coordinator for the school district.
- Notifying parents or guardians of positive COVID-19 cases among staff, students, or coaches.
