Geographical Information Systems (GIS)

The Board met with Public Works Director O'Brien and Building and Planning staff Wiltse and Lorenz to discuss a Geographical Information Systems (GIS) position within the county.

Additionally present was Prosecutor Flyckt and Human Resource Manager Perez.

Prosecutor Flyckt noted the position within the building and planning department will be considered a represented position; in public works, it is considered a non-represented position.

Additionally discussed was the need for a consultant to assess the county's needs in filling a GIS position; and, Voluntary Stewardship Program (VSP) monies that may be utilized for a portion of the salary as the position is related to the building and planning department.

Human Resource Manager Perez was directed, by consensus, to research associated salaries and job descriptions in other counties for a GIS technician position in the building and planning department and recommend her findings to Director Wiltse prior to presenting the same to the Board.

Adjournment @ 11:20 a.m.
