

Town of Albion Tree Removal Policy

Removal of any tree on private property and any/all expenses incurred in the process are the sole responsibility of the property owner.

If a tree is in an easement, alley, street lawn, or street, the Town may assist in the removal. To take advantage of this option, the following must occur:

1. Property owner must contact Town Hall in regards to tree removal. The Town will determine whether funds are available and if the tree in question qualifies for the program.
2. Once the Town has deemed the tree eligible for the program the property owner will need to provide the Town with two (2) quotes, including stump removal and clean-up, from unrelated tree services.
3. The property owner is responsible for hiring and paying the tree service to remove the tree. Once the tree has been removed and the Town inspects and accepts the job as complete, the Town will reimburse the property owner for one-half of the lesser of the two quotes.

The Town will not be involved in the hiring of the tree service company.
