

MY WATER ADVISOR 2.0 APP

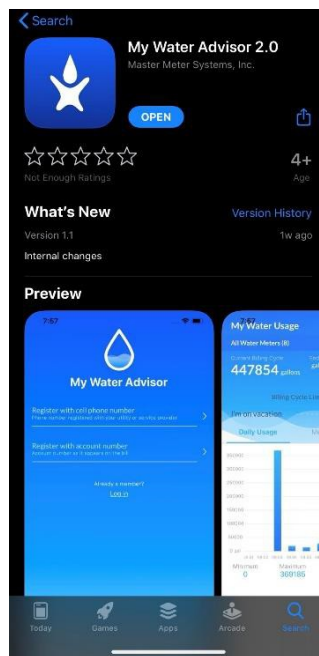

My Water Advisor 2.0 feature set is available as mobile apps for both iOS and Android mobile platforms; the key features include **Consumption details, leak and budget alerts**, as well as **SMS text + Email notifications**. To download this app simply enter **My Water Advisor 2.0** into the search engine for either **Google Play Store** (Android devices) or **App Store** (Apple/iOS devices).

FUNCTIONALITY NOTE: A note about functionality differences between the mobile apps vs. the web portal. Given the limited screen size, the mobile apps do not permit the user to:

- Print Hourly and Daily consumptions charts or tables
- Compare to Previous Year consumption

If you need more details than provided by the app then you can access the web portal at <https://mywateradvisor2.com/>

SETUP NOTE: To set up your account, you will need your account number and your name exactly as it appears on your water bill. For example, if the bill includes your middle name then you will need to input your middle name or if it is in all caps then you will need to input your name in all caps.

For questions or service, please contact the City of Andrews at 432-523-4820.

Enjoy Saving Water!
