City of Ashland-South Main Street Project

Ashland, MO- On 6/6/2023, the Ashland Board of Aldermen authorized City staff to issue a Notice to Proceed to M&M Landscape and Construction, LLC (MMLC) for the South Main Street Waterline and Resurfacing Project.

MMLC submitted the low bid for this project at \$679,444.40. This project is being funded by the City of Ashland and is partially utilizing American Restoration Plan Act (ARPA) funds.

This project will be completed during the summer months of 2023 (anticipated July and August). The scope of work includes the following:

- replacement of approximately 2,400 linear feet of water line
- installation of approximately 600 linear feet of new water line, and
- street resurfacing (asphalt mill and overlay) of S Main St (S Henry Clay Blvd-Broadway)

In efforts to allow MMLC to complete this project as expeditiously as possible, the City anticipates S Main St being closed to through traffic once the project begins. Only local traffic (residents, businesses, and their patrons) will be permitted in the area. It is the goal of the City of Ashland and the contractor to have this project complete before the Southern Boone 2023-2024 school year begins on August 29, 2023.

More information regarding the construction schedule and road closures will be released once received from MMLC.

The Ashland Public Works Department is committed to providing the public with safe roads and infrastructure in our city. We would like to thank you for your cooperation in this matter. If you have any questions or concerns, please feel free to contact Ashland Public Works at 573-657-2568.
