### **City of Ashland-Perry Avenue Extension Project**

**Ashland, MO-** On 6/6/2023, the Ashland Board of Aldermen authorized City staff to issue a Notice to Proceed to M&M Landscape and Construction, LLC (MMLC) for the Perry Avenue Extension Project.

MMLC submitted the low bid for this project at \$596,740.40. This project is being funded jointly between the City of Ashland, Missouri Dept. of Transportation, and the U.S. Economic Development Administration.

This project will be completed during the late summer/early fall of 2023 (anticipated September and October). The scope of work includes the following:

- construction of approximately 1,200 linear feet of 32' wide roadway
- installation of approximately 600 linear feet of new water line, and
- construction of approximately 1,200 linear feet of 5' wide sidewalk, and
- removal of existing at-grade intersection of E Liberty Ln and US Hwy 63 (North bound)

It is the goal of the City of Ashland and the contractor to have this project complete by October 31, 2023, in time for the new Ranken Technical College-Central Missouri campus to prepare for their grand opening.

More information regarding the construction schedule and traffic control measures will be released once received from MMLC.

The Ashland Public Works Department is committed to providing the public with safe roads and infrastructure in our city. We would like to thank you for your cooperation in this matter. If you have any questions or concerns, please feel free to contact Ashland Public Works at 573-657-2568.
