6. REPORTS FROM STATE AND COUNTY OFFICERS: None.
7. LIMITED PUBLIC COMMENT: (3 minutes per person)
 - Joel Ibbotson expressed his disappointment in not seeing a resolution on the Board agenda. He read a proposed resolution into the record which was drafted by himself and Aaron Gross.
 - Elden Shellenbarger spoke about his disappointment in the reluctance of the Board of Commissioners not taking action with regard to the Health Officer and split of the Barry-Eaton District Health Department.
 - Lynette Dooley is a retired nurse and spoke in support of the Barry-Eaton District Health Department. She is opposed to the threat of withholding funding to vital community service.
 - Gary White spoke in favor of splitting the Barry-Eaton District Health Departments. He reviewed the Health Department strategic plan and found that TOST is to be put back into the plan in 5 – 10 years. He talked about poor communication between the administration and its staff. He also talked about protecting the voters of Barry County. He also referenced Jack Miner's reference to the minority, when in fact he feels he is speaking for the majority that wants action.
 - Charles Hertzler stated he that he is tired of hearing people say trust the science. Science is killing us. Man created science and we need to believe in God, not science and data.
 - Larry Bass stated that everyone has a right to speak. He is disappointed that a resolution is not being presented today, and wants to see action by the board. He is also disappointed to learn that we still have reinstatement of TOST in the Health Department Strategic Plan. He also mentioned that going into closed session at today's meeting means the board does not have to tell the public what is going on. Closed session requires a written legal opinion.

- Pat Hilton stated he is disappointed in no resolution today. The report on the Barry-Eaton website says it contains data for K-12 at Thornapple Kellogg Schools, however, the Superintendent reported 53 cases at the school board meeting at Thornapple Kellogg since the beginning of the year. But if you go to the Barry-Eaton website, it reports 57 cases which also counts 0 – 2 year olds. It is misleading information.
- Darcy Kelly feels her voice has been silenced in response to Commissioner Getty's comments last week. She recently heard a podcast that listed seven items that have been propagandized. She urged the Board to do their due diligence and do their own research.
- Bethany Mathews represents the silent majority. She comes to the Board of Commissioners as her local government to express her concerns. She is disappointed that the resolution did not proceed today, and how Adam Heikkila was handled because everyone should have the right to speak about passionate issues. She asked what is the purpose of the Board of Commissioners, and if the Board of Commissioners cannot help, who can help them initiate a split from the Eaton County Health Department.

One side is killing people, while others are trying to save people. Colette is an "at will" employee and can be fired for no reason by the Health Board. Rather than a resolution, he encouraged the Board of Commissioners to act with regard to the Health Officer, because inaction will not get a solution.
