2018 ANNUAL REPORT

***Barry County Drain Commissioner
Board of Public Works***

Barry Eaton Intercounty

Cloverdale Lake flooding

Prepared by: Tammy Berdecia, Deputy Drain Commissioner

April 9, 2019

Barry County Board of Commissioners
220 W. State St.
Hastings, MI 49058

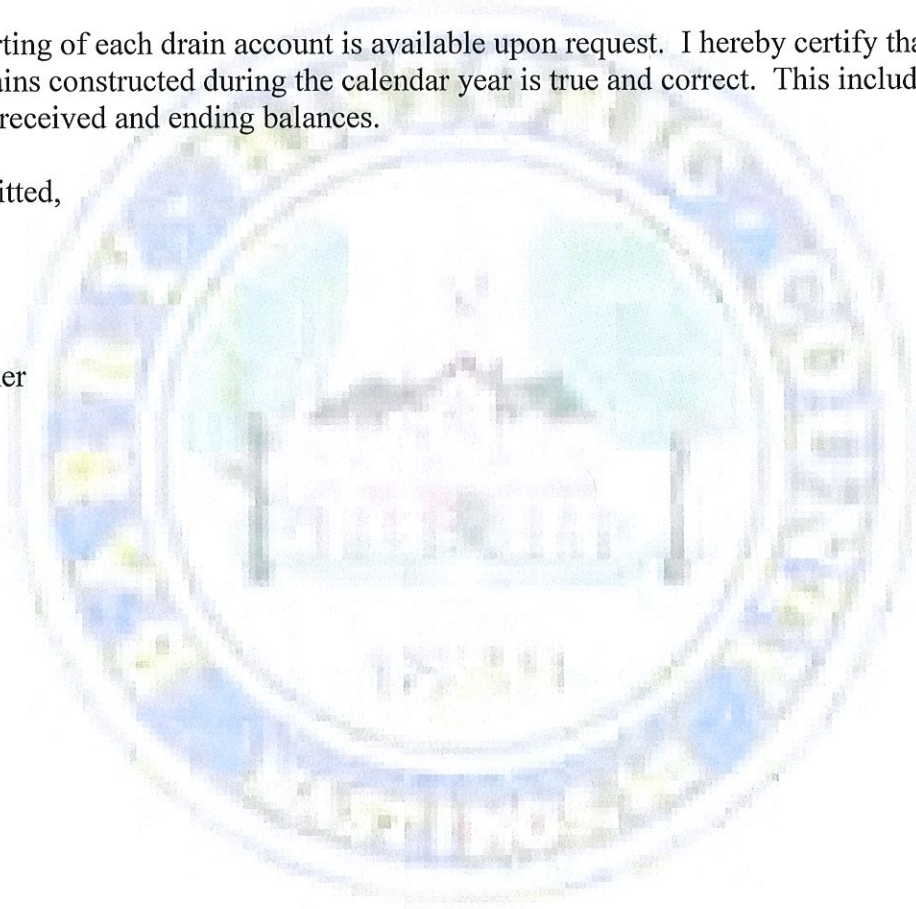

Dear Board of Commissioners:

To follow, please find the Barry County Drain Commission Annual Report, which I respectfully submit, in accordance with Section 31, Chapter 2, of Public Act 40 of 1956, as amended. The report is for calendar year beginning January 1, 2018 and ending December 31, 2018.

The financial reporting of each drain account is available upon request. I hereby certify that the financial statement of all drains constructed during the calendar year is true and correct. This includes the assessments levied, collections received and ending balances.

Respectfully submitted,

Jim Dull
Drain Commissioner

FORWARD

During the past year, the Drain Commission Office has been busy! We have received 4 more petitions that we formed Boards of Determination for.

Nuisance Control

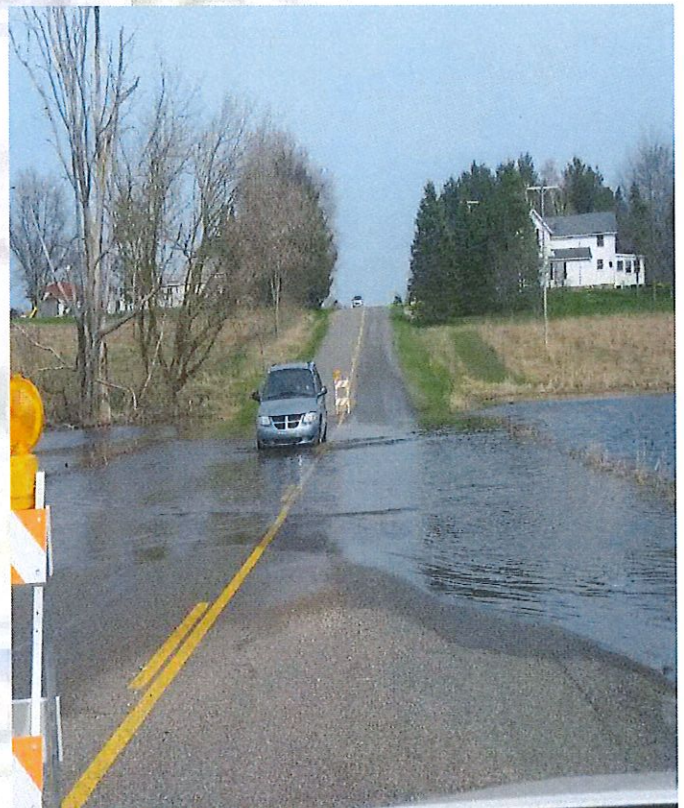

Our trapper has been busy as a beaver (haha), there have been a total of 26 beavers removed from drains.

We have started a discussion with some of the district homeowners about cleaning Thornapple #1 Drain, which is the section of the Thornapple River from the old Nashville Dam to Thornapple Lake!

2017 – 2 of the petitions we formed BOD's for, have moved all the way through the bid stage to be completed between now and early summer.

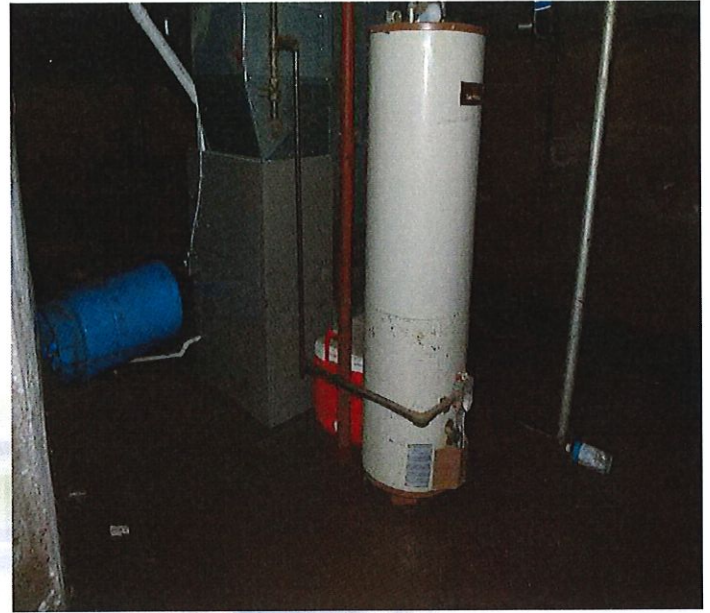

HOLMES DRAIN – EAST STATE RD.
LOOKING NORTH

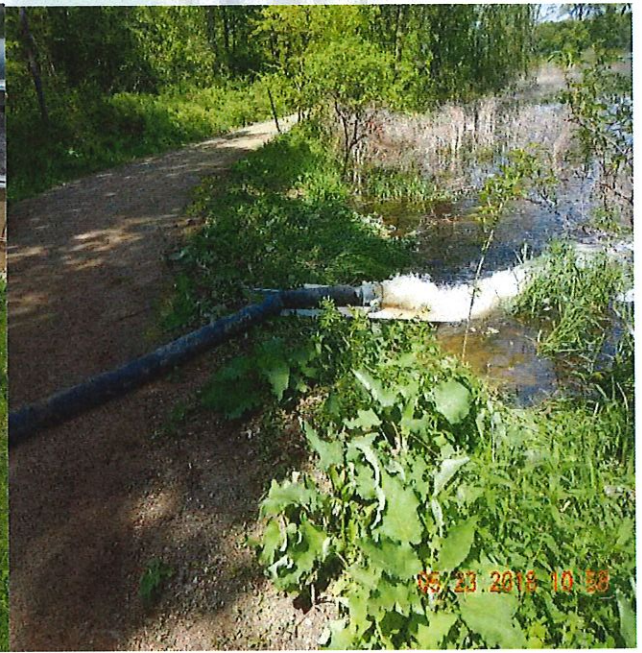

HOLMES DRAIN – EAST STATE RD.
LOOKING EAST

The drain is currently under construction from a petition received from the Road Commission.

Holmes Drain BOD was July 13, 2017; the BCRC petition was signed May 25, 2017; original application was from 1892 and the notice of letting for the original drain was 1892.

Fineview Drain BOD was July 13, 2017; the BCRC petition was signed Dec. 15, 2015; the assessment roll was signed December 13, 2018 and bids on November 27, 2018.

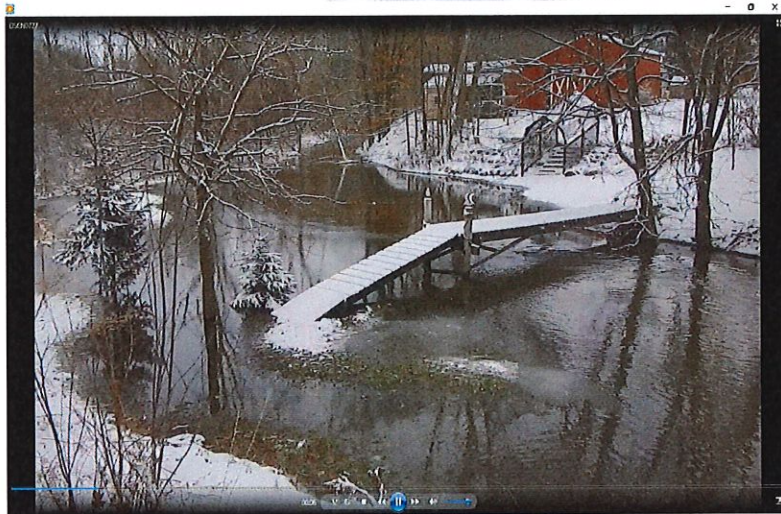

Cloverdale Drain at M43 continues to flood in any temperature outside – winter and summer! Plumbers televised the tile going under Guernsey Lake Rd.; MDOT dammed the road on M43 this past winter; a temporary pumping hose ran across the road to pump down the water on M43; it continues to flood Cloverdale Lake.

Shallow Lake Drain BOD was April 16, 2018; the petition was signed by property owners within the district March 13, 2018; the office continues to move forward with this project.

Clear Lake Drain BOD was September 26, 2017; June 13, 2017 petition was signed by Baltimore Township; plans and construction is still underway.

Messer Brook (Wolford Moore IC) work was done under part 196A of the MI Drain Code and under oversight. Paul Forton from Spicer Group was the consultant. If we pulled a permit the cost would be \$4,000-5,000; because of the drain code section 196A, we were charged \$1,933.50; what an effective way to do things!

How's the mini working out? Great, so great we paid the bill for this year already!

We're doing tile repairs typically at *approximately* \$250 each.

We're doing cleaning of drains at approximately \$0.82 per ft. (sitting on swamp maps).

Barry Eaton was \$1.50 – 5.00 per foot.

Kinne-Summers was \$1.50 – 1.65 b.d.

Little Thornapple River IC Drain Board received the Administrative Consent Order, it has been signed by the board and state; with no fines. The administrative actions have been resolved and the maintenance is 75% complete with our drain office continuing to make the restorations. Also, the bridge at Charlton Park Road is set to receive critical bridge funding through the Road Commission to help flooding.

McClelland Drain was petitioned in 2010 and that is finally completed.

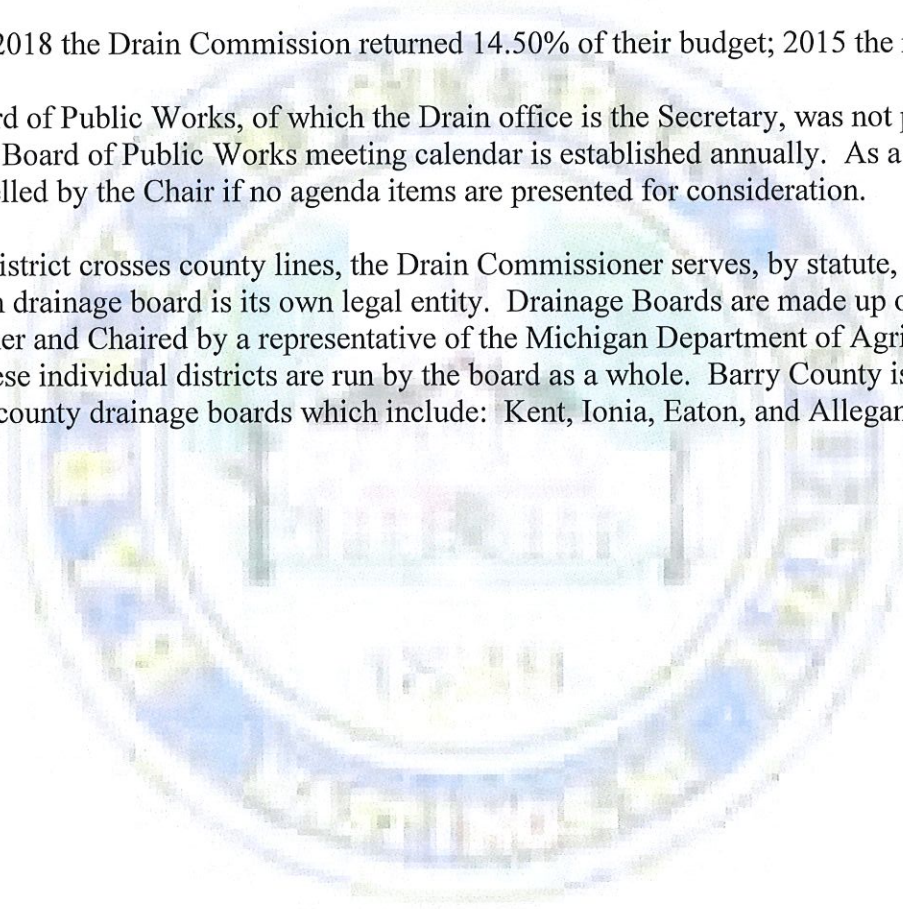

The Drain Commission received kudos for our assistance from the owner of the Irving Dam, Commonwealth Power out of California. The Drain Office extended their support and knowledge for working with the MDEQ, MDNR and FERC (Federal Energy Regulatory Commission) and made professional recommendations for the resources needed such as an engineer and contractor.

The Drain Office continues to review and revise drainage district boundaries in the County to ensure that assessment districts are in line with the watersheds. This process ensures landowners are in the appropriate drainage district. The Drain Commission will continue to do in-house work with the equipment purchased and continue to save the taxpayers money.

The budget – for 2018 the Drain Commission returned 14.50% of their budget; 2015 the return was 4.26%.

Barry County Board of Public Works, of which the Drain office is the Secretary, was not presented with any new projects. The Board of Public Works meeting calendar is established annually. As a cost savings, meetings are cancelled by the Chair if no agenda items are presented for consideration.

When a drainage district crosses county lines, the Drain Commissioner serves, by statute, on an Inter-County Drain Board. Each drainage board is its own legal entity. Drainage Boards are made up of each County's Drain Commissioner and Chaired by a representative of the Michigan Department of Agriculture & Rural Development. These individual districts are run by the board as a whole. Barry County is actively involved in numerous inter-county drainage boards which include: Kent, Ionia, Eaton, and Allegan County.
