INDEPENDENT AUDITORS' REPORT

June 17, 2015

Board of Commissioners
County of Barry
Hastings, Michigan**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *County of Barry, Michigan* (the "County"), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Barry County Road Commission, the Barry County Medical Care Facility (Thornapple Manor), or the Barry County Transit. The Barry County Road Commission represents 71%, 82%, and 83% of the total assets, net position, and revenues, respectively, of the discretely presented component units. Thornapple Manor is presented as a major enterprise fund, and is therefore a separate opinion unit. The Barry County Transit represents 70%, 70%, and 74% of the total assets, net position, and revenues, respectively, of the nonmajor enterprise funds. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Barry County Road Commission, Thornapple Manor, and the Barry County Transit, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Barry County Road Commission and the Barry County Medical Care Facility (Thornapple Manor) were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Barry, Michigan as of December 31, 2014, and the respective changes in financial position and cash flows, where applicable, thereof, and the respective budgetary comparisons for the general fund and each major special revenue fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Restatement of Beginning Fund Balance of the E-911 Fund and Net Position of Governmental Activities

As discussed in Note 17 to the financial statements, beginning fund balance of the E-911 special revenue fund and beginning net position of governmental activities were restated to correct an error in prior year receivables. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of funding progress and employer contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2015 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

COUNTY OF BARRY, MICHIGAN

Management's Discussion and Analysis

As management of Barry County, we offer readers of the *County of Barry, Michigan's* (the "County") financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here in conjunction with additional information that is furnished in the financial statements and notes to the financial statements.

Financial Highlights

Key metrics and financial highlights of the County for the year ended December 31, 2014 are as follows:

Total net position	\$55,139,269
Unrestricted net position	18,927,316
Change in net position	1,974,402
Fund balances, governmental funds	11,592,862
Change in fund balances, governmental funds	(344,232)
Fund balance, general fund	4,453,515
(as percentage of general fund expenditures and transfers out)	29%
Unassigned fund balance, general fund	2,181,422
(as percentage of general fund expenditures and transfers out)	14%

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the residual reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Barry County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government administration, public safety, public works, health and welfare, recreation and cultural, and community and economic development activities. The business-type activities of the County include delinquent tax administration, operation of a medical care facility, and operation of a transit system.

COUNTY OF BARRY, MICHIGAN

Management's Discussion and Analysis

The government-wide financial statements include not only Barry County itself (known as the *primary government*), but also the legally separate Barry County Road Commission, Drainage Districts, Board of Public Works, Economic Development Board, and Airport Commission, for which the County is financially accountable. Financial information for these *component units* is reported separately from the financial information presented for the primary government itself.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Barry County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains numerous governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, central dispatch special revenue fund, charlton park special revenue fund, commission on aging special revenue fund, and the building authority Thornapple Manor debt service fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its general and special revenue funds. Budgetary comparison statements or schedules have been provided herein to demonstrate compliance with those budgets.

Proprietary funds. The County maintains two types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. Barry County uses enterprise funds to account for its delinquent tax collection and administration, Thornapple Manor medical care facility, jail commissary, and Transit system. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions.

The County uses internal service funds to account for its data processing, telephone systems, fleet of vehicles, insurance, and fringe benefits. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the delinquent tax umbrella fund, 2013 delinquent tax fund, 2014 delinquent tax fund, and Thornapple Manor fund, all of which are considered to be major funds of the County.

COUNTY OF BARRY, MICHIGAN

Management's Discussion and Analysis

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This is limited to this management's discussion and analysis and the schedules of funding progress and employer contributions for the County pension and other postemployment benefits plans.

The combining statements and schedules referred to earlier in connection with nonmajor funds are presented following the required supplementary information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Summary information on the County assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position is as follows:

	Net Position					
	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013

COUNTY OF BARRY, MICHIGAN

Management's Discussion and Analysis

A portion of the County's net position is unrestricted and available for future operations, while a significant portion of net position relates to its investment in capital assets (e.g., land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net position of the County increased by \$1,974,402. The governmental activities increased by \$2,121,713 which is primarily due to increases in property tax revenues and decreasing costs. The business-type activities decrease of \$147,311 is due to an increase in operating and depreciation expense for Thornapple Manor.

	Change in Net Position					
	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
Revenues

COUNTY OF BARRY, MICHIGAN

Management's Discussion and Analysis

Governmental Activities

During the year, the County invested \$7,772,229 or 37% of governmental activities expenses to general government activities. Health and welfare expenses totaled \$3,801,263 or 18% of governmental activities. Public safety expenditures totaled \$7,837,327 or 37% of governmental activities expenses. Public works, recreation and cultural, community and economic development, and interest on long-term debt made up the remaining 8% of governmental activities expenses.

Business-type activities. Business-type activities decreased the County's net position by \$147,311. This is primarily the result of the Thornapple Manor operating loss of \$277,998 and non-operating loss of \$220,724. These losses are due to increases in wages, benefits, depreciation and interest expense and were offset, in part, by positive results in the delinquent tax revolving funds.

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$11,592,862, a decrease of \$344,232 in comparison with the prior year. Approximately 19% of this total amount constitutes *unassigned fund balance*. The remainder of fund balance is *restricted*, *committed* or *assigned* to indicate that it cannot be used at the County's discretion, or it is *nonspendable* because it has already been committed, in this case, for cemetery perpetual care.

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the general fund was \$2,181,422. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unassigned fund balance represents 14% of total general fund expenditures and transfers out.

As in previous years, the surplus in the County's traditional general fund (fund 101) was transferred to other funds of the government, as approved by Board Resolution.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Net position of the enterprise funds decreased \$147,311. Key elements of this changed have been addressed elsewhere in this analysis.

COUNTY OF BARRY, MICHIGAN

Management's Discussion and Analysis

General Fund Budgetary Highlights

- State grant revenue exceeded budget by approximately \$171,000, primarily due to a change in accounting for this revenue, resulting in an additional quarterly payment in the current year. Since the amount was not material to the financial statements, the County has elected to pass on a restatement of beginning fund balance. Since the County provides 50% of this State revenue source to the local substance abuse agency, a corresponding budget overage of approximately \$43,000 was presented in the health and welfare function.
- Interest revenue on the County's deposits and investments was more than budgeted amounts by approximately \$144,000 due to positive trends in the investment market.
- Expenditures for the Trial Court came in under budget by approximately \$159,135. This was the result of prudent financial management by the Trial Court at all levels of the organization through flexibility and granting time for parties to resolve cases rather than have expensive contested matters; improving technology to operate more efficiently, reducing the cost of maintaining outdated technology and/or software; training staff, which benefit our constituents to more effectively navigate through the judicial system, resolve conflicts, and protect the public; and by cross-training staff to manage workflow.
- Other expenditures came in under budget. This was due primarily to contingency that was budgeted for unforeseen expenses, not being utilized.
- Operating transfers out exceeded the original and amended budget due to a board resolution to transfer the entire year-end surplus to designated funds.

Capital Asset and Debt Administration

Capital assets. The County's investment in capital assets for its governmental and business-type activities as of December 31, 2014, amounted to \$39,152,255 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and systems, improvements, and machinery and equipment.

Major capital asset events during the current fiscal year included the purchase of central dispatch equipment and various improvements to County buildings such as the library, courthouse, jail, and animal shelter. The vehicle fund purchased seven vehicles for various uses and the data processing fund purchased five new photocopiers.

	Capital Assets (Net of Depreciation)

COUNTY OF BARRY, MICHIGAN

Management's Discussion and Analysis

Long-term debt. At the end of the current fiscal year, the County had total debt outstanding of \$21,964,747. Of this amount, \$15,932,453 was debt of governmental activities and \$6,032,294 was debt of business-type activities.

	Long-term Debt					
	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
General obligation bonds	\$15,316,701	\$16,306,989	\$ -	\$ -	\$15,316,701	\$16,306,989
Capital lease payable	-	-	5,650,000	5,825,000	5,650,000	5,825,000
Other installment debt	4,800	9,600	-	-	4,800	9,600
Compensated absences	610,952	613,856	382,294	331,501	993,246	945,357
Total	\$15,932,453	\$16,930,445	\$ 6,032,294	\$ 6,156,501	\$21,964,747	\$23,086,946

Additional information on the County's long-term debt can be found in Note 8 of this report.

Economic Factors and Next Year's Budgets and Rates

The following factors were considered in preparing the County's budget for 2015:

In order to maintain long term financial stability, the budgeting practice in Barry County continues to be grounded in adopting balanced budgets for all funds and to budget in a manner such that actual expenses do not exceed actual revenues in any given year. This practice has allowed Barry County to be structurally prepared for difficult economic times without resorting to crisis-management.

As a result of declining housing values and the economy, in 2010 the Barry County Board of Commissioners commissioned Michigan State University's State and Local Government Program to prepare a Financial Analysis and Forecast Report. The purpose of the report was to provide Barry County's decision makers with an overview of the County's general fund finances for the five year period prior (2005-2009) and a prospective view, or forecast, for the five years looking forward (2011-2015), to serve as a guideline for future planning.

In March of 2014, the Board of Commissioners commissioned an update to the Financial Analysis and Forecast Report to provide a continuation of the forecasting for 2014-2018. Based on the results of the 2010 study, the County planned for a 2.0% decline in property tax revenue for 2015. The 2014-2018 forecast report anticipates that revenue will increase between 0.86% and 2.00% annually. The County continues to adopt multi-year budgets using the MSU study as a primary source for forecasting revenue.

Requests for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information may be addressed to the Barry County Administrator, 220 W. State St., Hastings, MI, 49058, 269.945.1284.

Fund Balances for Governmental Funds
to Net Position of Governmental Activities
December 31, 2014

Fund balances - total governmental funds \$ 11,592,862

Amounts reported for *governmental activities* in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources, and therefore not reported in the funds.

Capital assets not being depreciated	3,174,465
Capital assets being depreciated, net	10,055,519
Less amounts accounted for in governmental internal service funds	(683,949)

Prepaid costs related to self-insurance programs and pension and other postemployment benefits plans do not represent current period costs and therefore are not reported in the fund financial statements.

Net pension asset	1,674,363
Net other postemployment benefits (OPEB) asset	815,529
Prepaid self-insured retention balance	459,937

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position.

Net position of governmental activities accounted for in internal service funds	4,839,478
---	-----------

Certain liabilities, such as bonds payable, are not due and payable in the current period, and therefore are not reported in the funds.

Bonds and installment purchase agreements payable	(14,139,800)
Compensated absences	(610,952)
Premium/discount on bonds payable, net	(1,181,701)
Deferred loss on advance refunding	753,051
Accrued interest on long-term liabilities	(122,250)
Liability for incurred-but-not-reported self-insurance claims	(1,009)

Net position of governmental activities	<u>\$ 16,625,543</u>

Net Changes in Fund Balances of Governmental Funds
to Change in Net Position of Governmental Activities
For the Year Ended December 31, 2014

Net change in fund balances - total governmental funds \$ (344,232)

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Acquisition/construction of capital assets	1,356,414
U.S. Department of Homeland Security non-cash grant assistance	99,882
Donated equipment under capital asset threshold	(87,340)
Less acquisition/construction of capital assets accounted for in governmental internal service funds	(235,915)
Gain (loss) on disposal of capital assets	7,000
Proceeds from sale of capital assets	(7,000)
Depreciation expense	(813,456)
Less depreciation expense accounted for in governmental internal service funds	188,549

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Change in net other postemployment benefits (OPEB) asset	(22,880)
Change in net pension asset	483,713

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long term-liabilities.

Principal payments on long-term liabilities	879,800
---	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Change in accrued interest on bonds payable	8,875
Amortization of deferred loss on advance refunding	(73,469)
Amortization of bond premiums and discounts	115,288
Change in the accrual of compensated absences	2,904
Net change in estimate for incurred-but-not-reported self-insurance claims and deposits with third party provider to fund such claims	271,305

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The net revenue (expense) of internal service funds is reported with governmental activities:

Net operating loss from governmental activities accounted for in internal service funds	(880,871)
Interest revenue from governmental internal service funds	70,046
Net transfers in governmental internal service funds	1,103,100

Change in net position of governmental activities \$ 2,121,713

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The *County of Barry, Michigan* (the "County" or "government") was organized in 1839 and covers an area of approximately 576 square miles. The County operates under a seven member elected Board of Commissioners.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

Reporting Entity

As required by generally accepted accounting principles, these financial statements present the government and its component units, entities for which the County is financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the government.

The financial statements for the Barry County Transit, a nonmajor enterprise fund, are presented for the fiscal year ending September 30, 2014. This fund is audited individually. Complete financial statements are issued under separate cover and can be obtained from Barry County Transit's administrative office.

Blended Component Units:

The Barry County Department of Human Services is governed by a three-member board, two of which are appointed by the County Board of Commissioners. The Board is responsible for establishing policies and the operational oversight of the local administration of the State of Michigan Social Welfare program and the long-term Medical Care Facility. Although the employees of the Barry County Department of Human Services are employed by the State of Michigan and substantially all programs are financed by the State, State law requires the local activities to be "blended" with the local primary government. This activity is reported in the Social Welfare special revenue fund.

The Building Authority is governed by a three-member board appointed by the County Board of Commissioners. Its sole purpose is to finance and construct the County's public buildings. It is reported as an enterprise fund and has a December 31 year-end. A separate report is not prepared for the Building Authority.

The Thornapple Manor Medical Care Facility (Thornapple Manor Fund) is included in these financial statements as a blended component unit for the year ended December 31, 2014. This component unit is also audited individually. Complete financial statements are issued under separate cover and may be obtained from Thornapple Manor's administrative office. The Thornapple Manor Medical Care Facility is a 138-bed, long-term medical care unit owned and operated by Barry County. It is governed by the Barry County Department of Human Services Board. This Board consists of three members, two of which are appointed by the Barry County Board of Commissioners. Therefore, the County is deemed to have the ability to impose its will on the Thornapple Manor Fund.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Discretely Presented Component Units

Barry County Road Commission (the "Road Commission") - The Road Commission is responsible for the maintenance and construction of the County road system. The Road Commission's operations are financed primarily from the State distribution of gas and weight taxes, federal financial assistance, and contributions from other local governments within the County. The three-member Board is appointed by the Barry County Board of Commissioners, which is deemed to provide the County with effective control over the Road Commission. The component unit is audited individually and complete financial statements may be obtained from the Road Commission's administrative office.

Barry County Economic Development Board (the "Board") - The Board is appointed by the County Board of Commissioners. The Board may not issue debt or levy a tax without the approval of the County Board of Commissioners. If a millage rate is approved, the taxes would be levied under the taxing authority of the County. The Board is therefore economically dependent on the County.

Barry County Board of Public Works (the "BPW") - The BPW is governed by a five-member Board comprised of the Drain Commissioner and four members appointed by the County Board of Commissioners. The BPW establishes policy and reviews operations of the BPW for the County Board of Commissioners. The BPW has the responsibility of administering the various public works construction projects and the associated debt service funds under the provision of Act 185 of the Public Acts of 1957. The BPW is financially accountable to the County because all general obligation bond issuances require County authorization and are backed by the full faith and credit of the County. Therefore, the BPW is considered to be fiscally dependent on the County and, accordingly, has been presented as a component unit.

Barry County Drain Commission (the "Drain Commission") - All drainage districts established pursuant to the Michigan Drain Code of 1956 are separate legal entities with the power to contract, to sue and be sued, and to hold, manage and dispose of real and personal property. The statutory governing board of Chapter 5 and 6 drainage districts consists of the Michigan Director of Agriculture and the drain commission of each county involved in the project. The County Drain Commission has sole responsibility to administer Chapter 3 and 4 drainage districts. A drainage board or drain commissioner, on behalf of the drainage district, may issue debt and levy special assessments without the prior approval of the County. The full faith and credit of the County may be given for the debt of the drainage district. The Drain Commissioner is required by law to make an annual report to the Board of Commissioners in October. The Drain Commission is financially accountable to the County, as defined by GAAP, and accordingly is disclosed as a component unit.

The Airport Commission (the "Airport") - The Airport is classified as a joint venture with another governmental unit. The details relating to this joint venture agreement are disclosed below.

Joint Ventures

The County participates in the following activities which are considered to be joint ventures in relation to the County due to the formation of an organization by contractual agreement between two or more participants that maintain joint control, financial interest, and fiscal responsibility.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Airport Commission - The County is a member of the Airport Commission, which is a joint venture that was formed by an agreement in 1977 between the Hastings City Council and the Barry County Board of Commissioners. The Commission consists of five members, two appointed by the Barry County Board of Commissioners, two appointed by the Hastings City Council, and one member at-large appointed by the Commission itself. The Commission is responsible for constructing, operating, and maintaining the airport facilities. Ownership of the property is vested in the joint venture. It may not issue debt without approval from the City and County. The agreement requires that each governmental unit provide 50% of the net budget appropriation requirements and that financial recordkeeping be maintained by the County.

Barry/Eaton District Health Department - The County is a member of the Barry/Eaton Health Department (the "Department"), which is a joint venture between Barry and Eaton Counties. Both Counties provide annual appropriations and pass-through the statutory amount of cigarette tax funding to subsidize operations. The current funding formula approved by the District Health Board requires Eaton County and Barry County to provide 65% and 35%, respectively. In addition, the treasury function for the Department rests with the Eaton County Treasurer. The operations of the Department are presented as a discretely presented component unit of Eaton County.

Jointly Governed Organizations

The County participates in the following activity which is considered to be a jointly governed organization in relation to the County, due to there being no ongoing financial interest or responsibility.

Region III Area Agency on Aging - Barry County, in conjunction with Calhoun County, has entered into an agreement, which created the Region III B Area Agency on Aging (the "Agency") that provides comprehensive services to older individuals residing in those counties. Operating revenues are derived from federal, state, and local governments as well as fees for services. The Agency is governed by a seven-member Board appointed by the Board of Commissioners of the two counties it services. A copy of the Agency's audit can be obtained at its administrative office.

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. Therefore, agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, with the exception of special assessments in the drain commission component unit which are based on a 180-day period of availability, and expenditure-driven grants which are based on a one-year period of availability. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenues, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It is used to account for and report all financial resources not accounted for and reported in another fund.

The *central dispatch fund* accounts for the County's E-911 services, which are funded through a dedicated property tax millage and surcharge revenue under Public Act 32.

The *commission on aging fund* accounts for services provided to the elderly. Revenue is primarily generated through state and federal grants and a dedicated property tax millage.

The *building authority thornapple manor debt service fund* was established to account for principal and interest payments on general obligation bonds issued to fund construction projects at Thornapple Manor. Debt service payments are funded by a dedicated property tax millage.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

The County reports the following major proprietary funds:

The *delinquent tax umbrella fund* accounts for money advanced by the County to other local taxing units and various County funds to pay for their delinquent real property taxes. Revenues are generated by the collection of the delinquent real property taxes, penalties and interest.

The *2013 delinquent tax revolving fund* accounts for the collection and administration of delinquent property taxes levied in year 2013.

The *2014 delinquent tax revolving fund* accounts for the collection and administration of delinquent property taxes levied in year 2014.

The *Thornapple Manor fund* accounts for the activities of the Thornapple Manor Medical Care Facility, a 138-bed long-term medical care unit owned and operated by Barry County. Revenues are primarily generated by charges for services.

Additionally, the County reports the following fund types:

Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt service funds account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital projects funds account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The *permanent fund* accounts for assets that are permanently restricted for cemetery perpetual care.

Enterprise funds account for those operations that are financed and operated in a manner similar to private business or where the County has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Internal service funds account for operations that provide services (such as equipment rentals and self-insurance) to other departments or agencies of the government, on a cost-reimbursement basis.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the government holds for others in an agency capacity (such as taxes collected for other governments).

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Private purpose trust funds are used to present activity of arrangements under which the principal and income benefit individuals, private organizations, or other governments.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the government's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Restricted net position represents amounts that are subject to restrictions beyond the government's control. The restrictions may be externally imposed or imposed by law. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, liabilities and equity

Deposits and investments

The government's cash and cash equivalents include amounts in demand deposit accounts, certificates of deposit and short-term investments with original maturities of three months or less from the date of acquisition. Investments are stated at fair value.

State statutes authorize the government to deposit in the accounts of federally insured banks, credit unions and savings and loan associations and to invest in obligations of the United States, certain commercial papers, repurchase agreements, banker acceptances and mutual funds composed of otherwise legal investments.

The County pools cash resources of various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as part of the County's investments.

Restricted cash and cash equivalents consist of amounts set-aside for repayment of general obligation bonds and related interest thereon, in accordance with terms of the restricted debt agreements. In addition, proceeds from the sale of foreclosed property, net of unpaid taxes and fees and auction costs, are restricted for various delinquent tax administration purposes, as defined in the General Property Tax Act 206 of 1893. Such amounts are reported in the foreclosure enterprise fund.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Receivables and payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property taxes receivable in governmental funds represent amounts due from taxpayers on the July 1 and December 1 tax levies in the general fund and other governmental funds, respectively. Any amounts outstanding on the July 1 levy after 60 days into the subsequent fiscal year are made whole by the County delinquent tax fund through an effective early tax settlement. This allows the County's general fund to recognize the full amount of the July 1 tax levy in the current year, regardless of the timing of actual collections. Any unpaid balances as of 60 days into the subsequent fiscal year are transferred to the delinquent tax revolving fund where collection is pursued. A similar process takes place between the delinquent tax fund, the other County funds accounting for property tax levies, and other local taxing authorities within the County's geographical region in March or April.

Property taxes receivable in the delinquent tax revolving funds represent unpaid balances from the previous years' levies for the County itself as well as other local taxing authorities in the County's geographical region. The County is responsible for pursuing and administering collection of these balances and coordinating the forfeiture and foreclosure activities for the related parcels. This process takes place over a 3-year period. Interest at 1% per month (increased to 1.5% after 12 months, retroactive to the date of delinquency) and administrative fees at 4% are accrued in accordance with State statute. No amounts have been included in an allowance for uncollectible balances, as the structure of the delinquent tax revolving fund has been designed to make the fund whole either through the eventual auction of the foreclosed parcels or through chargebacks to the local taxing authorities initially levying the taxes.

All trade and property tax receivables are shown net of an allowance for uncollectibles, as applicable. At December 31, 2014, management has recorded an allowance of \$594,748 for uncollectible balances in the Thornapple Manor enterprise fund.

Leases receivable consist of amounts collectible from local municipalities for which the County has irrevocably pledged its full faith and credit as collateral for certain construction and improvement bonds. In accordance with contractual agreements, these entities will provide all future amounts due for bond principal and accrued interest payable.

Deferred inflows of resources

Property taxes (excluding those for the general fund, which are subject to a different timeline) are levied and attach as an enforceable lien of property on December 1. Property taxes are payable through February 14. Although the County's 2014 ad valorem tax (excluding the portion for general operations) is levied and collectible on December 1, 2014, it is the County's policy to recognize revenues from the December 1 tax levy in the subsequent year when the proceeds of this levy are budgeted and made available to finance the County's operations. Therefore, the entire amount of the December 1, 2014 levy is reported as deferred inflows of resources at year-end.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

The County reports certain receivables in governmental funds that are not due and collectible soon enough to meet the criteria for revenue recognition under the current financial resources method of accounting. These amounts have also been reported as "deferred inflows of resources" in the fund financial statements, but are recognized when earned, regardless of the timing of collection, in the government-wide statements.

Inventories and prepaids

Inventories in the Airport Commission consist of fuel and are valued at cost, primarily determined by the first-in, first-out (FIFO) method. Inventories of the Road Commission are priced at cost as determined on the average cost method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

The County has elected to use an alternative measurement method in its governmental funds and records expenditures for services extending beyond one accounting period in the period when incurred.

Capital assets

Primary Government and Component Units (excluding Thornapple Manor, Transit, and Road Commission)

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items acquired or constructed since 1980), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

Asset Category	Years
Buildings	7-50
Land improvements	5-25
Machinery, equipment, & vehicles	2-25
Drain infrastructure	50

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Road Commission - Discretely Presented Component Unit

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges and similar items), are reported in the government-wide financial statements. Capital assets are defined by the Barry County Road Commission on an individual basis. The dollar threshold depends on the category of the asset, but the asset must have an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost of purchase or construction. Donated capital assets are recorded at estimated fair market value at the date of donation. The amount reported for infrastructure includes assets acquired or constructed since 1980.

Asset Category	Years
Buildings	30-50
Road equipment	5-8
Shop equipment	7-10
Engineering equipment	4-10
Office equipment	4-10
Infrastructure - roads	8-30
Infrastructure - bridges	12-50

Thornapple Manor - Enterprise fund

All property and equipment are valued at historical cost. Donated assets are recorded at the fair market value at the time of the donation. Capital assets are depreciated using the straight line method over the following estimated useful lives:

Asset Category	Years
Land improvements	5-25
Building and improvements	10-40
Equipment	5-25

Transit - Blended Component Unit

Capital assets are capitalized at total acquisition cost, provided such cost exceeds \$5,000 and the expected useful life of the asset is more than one year. Depreciation is recorded on all depreciable capital assets on a straight-line basis over the estimated useful lives of the assets.

Asset Category	Years
Land improvements	8
Building and improvements	20
Vehicles	5-10
Furniture and equipment	2-10

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as defined in the Revenue and Expense Manual published by the Michigan Department of Transportation and/or as approved by the Bureau of Passenger Transportation (BPT).

Deferred outflows of resources

The County refunded certain bonds payable in order to secure lower interest rates and reduce future debt service expenditures. The difference between the carrying amount of the refunded debt and the amount placed in escrow for purposes of paying the remaining balance of refunded debt is reported as a loss on advance refunding. This amount is being amortized in the government-wide financial statements on the straight-line basis over the life of the related bonds.

Compensated absences

Eligible employees are permitted to accumulate earned but unused vacation and sick pay benefits in varying amounts based on length of service and certain other established criteria. Sick and vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as a component of interest expense when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as an "other financing source". Premiums received on debt issuances are reported as an "other financing source" while discounts on debt issuances are reported as an "other financing use". Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund equity

Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Commissioners. A formal resolution of the Board of Commissioners is required to establish, modify, or rescind a fund balance commitment. The County reports assigned fund balance for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. Unassigned fund balance is the residual classification for the general fund.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

When the government incurs an expenditure for purposes for which various fund balance classifications can be used, it is the government's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned fund balance.

Interfund transactions

During the course of normal operations, the County has numerous transactions between funds and component units, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements. Internal service funds are used to record charges for services to all County departments and funds as transfers or operating revenue. All County funds record these payments to the internal service funds as transfers or operating expenditures/expenses.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general and special revenue funds. All annual appropriations lapse at year end. The legal level of budgetary control is at the activity level in the general fund and at the functional level inclusive of capital outlay for the special revenue funds.

All departments and budgetary centers of the county are required to submit budget requests to the County Administrator prior to August 1. The Administrator then develops and presents a proposed budget to the Board for review. The Board holds public hearings and a final budget is approved prior to December 31, the close of the county's fiscal year. The Administrator is authorized to transfer budget amounts within a single activity between accounts without Board approval provided that personnel expenditures and operating expenditures are unchanged in total. Budgetary transfers between funds and amendments to total fund budgets are not permitted without Board approval.

Excess of expenditures over budget

Expenditures in the combining and individual fund financial statements have been presented at a level of detail greater than the level of legal budgetary control.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

During the year ended December 31, 2014 the County incurred expenditures in certain budgetary funds which were in excess of the amounts budgeted, as follows:

	Final Budget	Expenditures	Budget Variance
General fund:			
General government - legal counsel	\$ 80,500	\$ 84,451	\$ 3,951
Health and welfare - substance abuse	180,352	223,604	43,252
Health and welfare - gypsy moth suppression	-	2,245	2,245
Transfers out	1,756,858	2,552,587	795,729
Commission on aging fund	1,515,095	1,554,504	39,409
Nonmajor governmental funds:			
Remonumentation fund	72,685	91,418	18,733
Crime victims' rights week	50,787	53,443	2,656
Law library	18,000	18,718	718

The budgetary variance in transfers out of the general fund was a result of a Board of Commissioner's resolution to spread the year-end general fund surplus to certain funds, as designed by the Board.

3. DEPOSITS AND INVESTMENTS

The County utilizes various pooled cash accounts and investments consisting of a common checking account and mutual funds. The County's pooled cash accounts and investments are utilized by the general fund, special revenue funds, debt service funds, capital projects funds, internal service funds, trust and agency funds, and the component units. All other funds of the County utilize separate savings and interest-bearing checking accounts. In addition, certificates of deposit, money market funds, and U.S. government treasuries and agencies are held separately by several of the County's funds.

Following is a reconciliation of deposit and investment balances as of December 31, 2014:

	Primary Government	Component Units	Total
Statement of net position			
Cash and cash equivalents	\$ 8,429,380	\$ 4,059,201	\$ 12,488,581
Restricted cash and cash equivalents	401,721	-	401,721
Investments	19,454,837	384,012	19,838,849
	<u>28,285,938</u>	<u>4,443,213</u>	<u>32,729,151</u>
Statement of fiduciary net position			
Cash and cash equivalents - agency funds	406,057	-	406,057
Investments - agency funds	63,697	-	63,697
Cash and cash equivalents - private purpose trusts	69,966	-	69,966
	<u>539,720</u>	<u>-</u>	<u>539,720</u>
Total	<u>\$ 28,825,658</u>	<u>\$ 4,443,213</u>	<u>\$ 33,268,871</u>

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Cash on hand	\$ 3,141
Checking and savings accounts	18,080,056
Certificates of deposit:	
Due within one year	407,295
Due in 1-5 years	545,179
Investments	<u>14,233,200</u>
Total	<u>\$ 33,268,871</u>

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned. State law does not require and the County does not have a policy for deposit custodial credit risk. As of year-end, \$17,704,974 of the County's bank balance of \$20,478,285 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The County's investment policy does not specifically address this risk, although the County believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the County evaluates each financial institution with which it deposits County funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk - Investments. Following is a summary of the County's investments as of December 31, 2014:

U.S. government treasuries	\$ 235,700
U.S. government agencies	6,940,054
Money market funds	<u>7,057,446</u>
Total	<u>\$ 14,233,200</u>

Investments are exposed to custodial credit risk if the securities are uninsured, unregistered or held by a counterparty or its agency but not in the government's name. In accordance with the County's investment policy, all investment are held in the name of the County and are evidenced by a safekeeping receipt confirmation, and thus not exposed to custodial credit risk.

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments in the summary of significant accounting policies. The County's investment policy does not have specific limits in excess of state law on investment credit risk. Credit risk ratings, where applicable, are summarized as follows:

Not subject to credit risk	\$ 235,700
Unrated	5,260,587
S&P AA+	6,940,054
S&P AAAM	1,738,435
Morningstar 3 Stars	<u>58,424</u>
Total	<u>\$ 14,233,200</u>

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified in the summary of significant accounting policies. The County's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Maturity dates for investments held at year-end are summarized as follows:

No maturity	\$ 7,057,446
1 - 5 years	1,162,661
6 - 10 years	2,947,288
11 - 15 years	2,200,128
16 - 20 years	118,945
21 - 24 years	497,184
25 - 30 years	249,548
Total	\$ 14,233,200

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments in the summary of significant accounting policies.

4. RECEIVABLES AND PAYABLES

Receivables are comprised of the following at year-end:

	Governmental Activities	Business-type Activities	Component Units
Taxes (current)	\$ 4,254,556	\$ -	\$ -
Taxes (delinquent)	-	2,727,841	-
Accounts	80,229	3,492,333	45,683
Allowance for uncollectible accounts			
accounts	-	(594,748)	-
Due from other governments	1,017,317	64,783	1,426,912
Special assessments	-	-	1,873,008
Leases	-	-	5,196,978
Total	\$ 5,352,102	\$ 5,690,209	\$ 8,542,581

Of the amounts detailed above, \$1,510,633 of special assessments receivable in the component units are not expected to be collected within one year. Similarly, \$4,759,477 of leases receivable in the component units are not expected to be collected within one year.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Accounts payable and accrued liabilities

Payables are comprised of the following at year-end:

	Governmental Activities	Business-type Activities	Component Units
Accounts	\$ 490,141	\$ 483,095	\$ 56,617
Accrued liabilities	761,382	495,769	19,305
Due to other governments	-	47,342	-
Self-insurance claims payable	1,009	-	-
Accrued interest on long-term debt	122,250	-	58,336
Total	\$ 1,374,782	\$ 1,026,206	\$ 134,258

5. OTHER ASSETS

The composition of other assets of December 31, 2014, was as follows:

	Governmental Activities	Business-type Activities	Component Units
Inventories	\$ -	\$ -	\$ 1,523,070
Prepaid self-insured retention balance	459,937	-	-
Other prepaid items	-	95,858	-
Total	\$ 459,937	\$ 95,858	\$ 1,523,070

6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2014, was as follows:

	Due to and from Primary Government Funds	
	Due from Fund	Due to Fund
General fund	\$ 590,578	\$ -
Delinquent tax umbrella fund	1,375,599	-
Delinquent tax revolving 2013 fund	-	1,375,599
Delinquent tax revolving 2014 fund	-	590,578
Total	\$ 1,966,177	\$ 1,966,177

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

	Due to and from Drainage District Funds	
	Due from Fund	Due to Fund
Algonquin Lake dam project	\$ 99,286	\$ -
Regular drain	-	99,286
Total	\$ 99,286	\$ 99,286

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

	Advances to and from Primary Government Funds	
	Advance to Fund	Advance from Fund
General fund	\$ 105,000	\$ -
Nonmajor governmental funds	-	105,000
Total	\$ 105,000	\$ 105,000

This balance represents an interfund loan to finance capital-related activity. The advance is payable in annual installments of \$11,461 beginning in 2018.

For the year ended December 31, 2014, interfund transfers consisted of the following:

Transfers in	Transfers out					
	General Fund	Nonmajor Governmental Funds	Delinquent Tax Umbrella	Nonmajor Enterprise Funds	Internal Service Funds	Totals
General fund	\$ -	\$ 96,513	\$ 605,000	\$ -	\$ -	\$ 701,513
Nonmajor governmental funds	1,112,965	-	-	-	16,915	1,129,880
Delinquent tax umbrella	-	-	-	802,519	-	802,519
Nonmajor enterprise funds	-	-	107,115	11,708	-	118,823
Internal service funds	1,120,015	-	-	-	-	1,120,015
Totals	\$ 2,232,980	\$ 96,513	\$ 712,115	\$ 814,227	\$ 16,915	\$ 3,872,750

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

7. CAPITAL ASSETS

Capital asset activity for the primary government for the year ended December 31, 2014, was as follows:

	Beginning Balance	Additions	Disposals	Transfers	Ending Balance
Governmental activities					
Capital assets not being depreciated:					
Land	\$ 2,734,208	\$ -	\$ -	\$ -	\$ 2,734,208

8. LONG-TERM DEBT

General Obligation Bonds. The government issues general obligation bonds to provide funds to construct major capital facilities and refund previously issued bonds. Such bonds are generally repaid from voter-approved property tax levies, interfund transfers and contributions from local municipalities. The County has pledged its full faith and credit for payment on the general obligation bonds. Also, under the terms of certain bond agreements, local units have pledged their full faith and credit to pay the County each year such amounts.

General obligation bonds of the Board of Public Works component unit are offset by capital leases receivable from the local units of government for which the bonds were issued in the County's name. The terms of these capital leases, which relate to infrastructure constructed by the County on behalf of the local units, match the debt maturity requirements of the related bonds.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Long-term debt activity for the year ended December 31, 2014, was as follows:

Significant details regarding outstanding long-term debt are presented below:

Primary Government

The Barry County Board of Commissioners is party to long-term lease agreements for rental of the Medical Care Facility Buildings and the Courts and Law Building from the Barry County Building Authority. The lease agreements stipulate that annual rentals will be paid by the County or other local government to the Building Authority in amounts sufficient to meet the annual principal and interest on bonds, which shall be pledged exclusively for that purpose. When all debt has been retired on these buildings, the rentals will cease, title to the buildings will be transferred to the County, or local government where applicable.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Bonds and loans payable at December 31, 2014 for governmental activities are as follows:

\$950,000 Building Authority Bonds, Series 2002, dated July 25, 2002, due in annual installments ranging from \$25,000 to \$75,000 through July 1, 2021, with interest ranging from 4.90 to 5.85%, payable semi-annually.	\$ 475,000
\$13,685,000 Building Authority - Medical Care Facility Refunding Bonds, dated November 15, 2012, due in annual installments ranging from \$25,000 to \$1,635,000 through April 1, 2025, with interest ranging from 2.00 to 4.00%, payable semi-annually.	<u>13,660,000</u>
Total general obligation debt - governmental activities	<u>\$ 14,135,000</u>

Capital leases for governmental activities are as follows:

\$23,625 Installment purchase agreement to finance the acquisition of a recording system for central dispatch, due in annual installments of \$4,800, with 0% interest, payable annually.	<u>\$ 4,800</u>
---	-----------------

For the governmental activities, compensated absences are generally liquidated by the general fund.

Capital leases payable at December 31, 2014 for business-type activities are as follows:

\$6,000,000 Building Authority - Medical Care Facility Bonds, dated April 17, 2012, due in annual installments ranging from \$175,000 to \$750,000 through April 1, 2032, with interest ranging from 2.00 to 3.55%, payable semi-annually.	<u>\$ 5,650,000</u>
--	---------------------

Component Units

Drainage Districts

The County has irrevocably pledged its full faith and credit as collateral for the following drain notes and amounts owed to other governmental units. These projects are administered by the Barry County Drain Commission for various local drainage districts. The drain obligations were issued to finance the various construction funds for the purpose of paying costs in connection with various drainage district projects and are payable out of assessments to be made against the benefited properties.

Notes payable and amounts owed to other governmental units at December 31, 2014 per respective drain projects serviced from the debt service funds of the Drainage Districts are as follows:

Drain Notes

\$232,000 Delton Village special assessment district note dated June 17, 2008, due in annual installments of \$23,200 through June 1, 2018, with interest at 4.25%, payable annually.	\$ 92,800
\$380,000 Chase drain special assessment district note dated September 23, 2011, due in annual installments of \$38,000 through June 1, 2021, with interest at 2.92%, payable semi-annually.	266,000

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

\$448,000 Sandy Beach drain special assessment district note dated October 25, 2011, due in annual installments of \$44,800 through June 1, 2021, with interest at 3.89%, payable semi-annually.	\$ 273,600
\$410,000 Algonquin Lake drain special assessment district note dated June 13, 2012, due in annual installments of \$35,000 to \$45,000 through June 1, 2022, with interest ranging from .65 to 3.30%, payable annually.	240,883
\$300,000 Middleville Towne Center drain special assessment district note dated September 17, 2013, due in annual installments of \$30,000 through June 1, 2023, with interest at 2.73%, payable annually.	270,000
\$190,000 Hastings Charter Township #1 drain special assessment district note dated June 19, 2014, due in annual installments of \$19,000 through June 1, 2024, with interest at 2.73%, payable annually.	190,000
\$135,000 Little Thornapple River inter-county drain special assessment district note dated December 23, 2014, due in annual installments of \$67,500 through June 1, 2017, with interest at 1.39%, payable annually.	<u>135,000</u>
Total notes payable - Drainage Districts	<u>\$ 1,468,283</u>

Board of Public Works

The County through the Board of Public Works has constructed water and sewer facilities for various local municipalities. The County is leasing them to the local municipalities, who are operating, maintaining, and managing the systems. General obligation bonds were sold with the full faith and credit of the local municipalities, and the County pledge to the payment pursuant to Act 185, Public Acts of Michigan 1957, as amended. The principal and interest on bonds outstanding are to be paid out of money received from the local municipalities by the Board of Public Works of the County pursuant to the lease agreements. Upon final payment of the respective bond issues, ownership of the assets will revert to the local municipalities.

Bonds payable at December 31, 2014, per respective constructive projects serviced from the debt service funds of the Board of Public Works are as follows:

\$1,125,000 Middleville Sanitary Sewer System Bonds dated February 1, 1999, due in annual installments ranging from \$50,000 to \$75,000 through October 1, 2018, with interest ranging from 4.15 to 4.80%, payable semi-annually.	\$ 300,000
\$650,000 Water Supply System Bonds dated June 26, 2003, due in annual installments ranging from \$25,000 to \$40,000 through October 1, 2024, with interest at 2.5%, payable semi-annually.	363,281
\$1,040,000 Water Supply System Bonds Series A dated August 23, 2006, due in annual installments ranging from \$40,000 to \$65,000 through April 1, 2027, with interest at 2.125%, payable semi-annually.	725,000

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

\$205,000 Water Supply System Bonds Series B dated August 23, 2006, due in annual installments ranging from \$10,000 to \$15,000 through October 1, 2026, with interest at 2.125%, payable semi-annually.	\$ 125,000
\$465,000 Fawn Lake Extension note, dated July 25, 2006, due in annual installments ranging from \$20,000 to \$25,000 through April 1, 2026, with interest ranging from 4.125 to 4.0%, payable semi-annually.	300,000
\$450,000 Yankee Springs arsenic removal bonds, dated March 29, 2007, payable in annual installments ranging from \$20,000 to \$25,000 through October 1, 2026, with interest at 2.125%, payable semi-annually.	310,000
\$2,763,000 Leach and Middle Lake Sanitary Sewer System Bonds, dated January 22, 2010, payable in annual installment ranging from \$148,000 to \$155,000, with interest at 2.5%, payable semi-annually.	2,182,065
\$885,000 Michigan Transportation Fund Refunding Bonds, Series 2013, dated September 9, 2013, payable in annual installment ranging from \$65,000 to \$75,000, with interest ranging from .8% to 3.6%, payable semi-annually.	<u>885,000</u>
Total bonds payable - Board of Public Works	<u>\$ 5,190,346</u>

Annual debt service requirements to maturity for long-term debt (excluding compensated absences payable), are as follows:

9. FUND BALANCES - GOVERNMENTAL FUNDS

The County reports fund balance in governmental funds based on the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB 54 establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Detailed information on fund balances of governmental funds is as follows:

	General Fund	Central Dispatch	Commission on Aging	Building Authority Thornapple Manor Debt	Nonmajor Funds	Totals
Nonspendable						
Advances to other funds	\$ 105,000	\$ -	\$ -	\$ -	\$ -	\$ 105,000
Permanent fund corpus	-	-	-	-	30,925	30,925
	<u>105,000</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>30,925</u>	<u>135,925</u>

11. RISK MANAGEMENT

Primary Government

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County is self-insured for liability, workers' compensation, and disability. Each participating fund of the County makes payments to the respective self-insurance internal service fund equal to an established percentage of gross salaries for that fund. These payments are accounted for as fringe benefit charges in the paying fund and charges for services in the receiving fund.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

The County is completely self-insured for disability benefits. The plan covers all employees except employees at the Medical Care facility. The Disability Benefits Plan provides benefits of 67% of current wages, for a period not to exceed 52 weeks. Benefits commence on the eighth day after a disabling injury or illness. The program is administered by PBS, which furnishes claims review and processing.

The County is self-insured for workers' compensation up to \$500,000 for each loss up to an aggregate amount of \$1,000,000. The County is insured for the amount of claims in excess of such limitation to a maximum of \$5,000,000 for each occurrence. The County is then self-insured for annual aggregated claims in excess of insurance coverage. The program is administered by a service agency that furnishes claims review and processing.

The County is a voluntary member of the Michigan Municipal Risk Management Authority (MMRMA) (the "Authority"). The County makes annual contributions to MMRMA based on actuarial studies using historical data and insurance industry statistics. Such contributions as received by MMRMA are allocated between its general and member retention funds. Economic resources in the MMRMA's general fund are expended for reinsurance coverage, claim payments and certain general and administrative costs, whereas resources in the member retention fund are used for loss payments and defense costs up to the members' self-insured retention limits along with certain other member-specific costs.

The Authority has reserved fund balance to pay losses incurred by members that exceed individual retention levels and are not covered under existing reinsurance agreements. Losses incurred within the established limits are general obligations of the Authority. In the event that Barry County incurs loss in excess of the resources available, the Authority as a whole (i.e. all constituent municipalities) is liable for the excess. In the event that the Pool's claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific Pool's policy year may be subject to special assessments to make up the deficiency. The County has not been informed of any special assessments being required.

In addition, the Authority has accumulated resources to create and fund an internal stop loss fund. The stop loss fund was initiated to eliminate the need to purchase aggregate reinsurance for aggregate losses paid in excess of \$178,000, net of reinsurance recoveries for any one member in any one year. Aggregate paid losses in excess of \$178,000 net of reinsurance recoveries are paid entirely from the internal stop loss fund. If at any time the stop loss fund is insufficient to fund Barry County's losses, the remaining liability shall become the responsibility of the Authority as a whole.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Settled claims have not exceeded insurance coverage for any of the self-insured programs in the previous three years. The County has not recorded an estimate for claims incurred but not reported related to the workers' compensation and disability plans as these amounts are expected to be immaterial. The changes in the claims liability for the previous two years are as follows:

	Workers' Compensation	Disability	MMRMA Liability	Totals
Liability, January 1, 2013	\$ -	\$ -	\$ 56,624	\$ 56,624
Claims and changes in estimates	289,602	62,783	21,237	373,622

Thornapple Manor Blended Component Unit

Thornapple Manor is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries' (workers' compensation), as well as medical benefits provided to employees.

Thornapple Manor, as part of the County, participates in the Michigan Municipal Risk Management Authority (risk pool) for claims relating to general and automobile liability (including medical malpractice), automobile physical damage and property loss claims. The MMRMA program operates as a claims servicing pool for amounts up to member retention limits and operates as a common risk-sharing management program for losses in excess of member retention amounts. Although premiums are paid annually to the Authority that the Authority uses to pay claims up to the retention limits, the ultimate liability for those claims remains with the County.

Thornapple Manor is insured for workers' compensation claims via a policy with a commercial carrier.

Thornapple Manor is insured against potential professional liability claims under an occurrence-basis policy, whereby all claims resulting from incidents that occur during the policy period are covered up to insured limits, regardless of when the claims are reported to the insurance carrier. There are no known outstanding or pending claims as of December 31, 2014.

Thornapple Manor, as part of the County, is self-insured for employee medical benefit claims. Thornapple Manor estimates the liability (included in accounts payable) for employee medical benefit claims incurred through the end of the year, including both those claims that have been reported, as well as those that have not yet been reported.

Road Commission Component Unit

The Barry County Road Commission is exposed to various risks of loss to torts; theft of, damage to, and destruction of assets; errors and omissions, injuries to employees; and natural disasters.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

The Road Commission is a member of the Michigan County Road Commission Self-Insurance Pool established pursuant to the laws of the State of Michigan, which authorizes contracts between municipal corporations (inter-local agreements) to form group self-insurance pools, and to prescribe conditions to the performance of these contracts.

The Pool was established for the purpose of making a self-insurance pooling program available which includes, but is not limited to, general liability coverage, auto liability coverage, property insurance coverage, stop loss insurance protections, claims administration and risk management and loss control services pursuant to Michigan Public Act 138 of 1982. The Road Commission pays an annual premium to the Pool for property (buildings and contents) coverage, automobile and equipment liability, errors or omissions liability and bodily injury, property damage and personal injury liability. The agreement for the formation of the Pool provides that the Pool will be self-sustaining through member premiums and will purchase both specific and aggregate stop-loss insurance to the limits determined necessary by the Pool Board.

The Road Commission also has self-insurance for workers' compensation as a member of the County Road Association Self-Insurance Fund. The Road Commission's employee medical benefits insurance is purchased through a commercial carrier. At December 31, 2014, there were no claims that exceeded insurance coverage. The Road Commission did not have any significant reduction in insurance coverage from previous years.

12. PROPERTY TAXES

Property taxes are levied on the assessed taxable value of the property as established by local units, accepted by the County and equalized under State statute at approximately 50% of the current estimated market value.

13. CONTINGENT LIABILITIES

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County and its attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

14. EMPLOYEE RETIREMENT SYSTEMS AND PLANS

Primary Government

Defined Benefit Pension Plan

Plan Description. The primary government's full-time employees are eligible to participate in the Municipal Employees Retirement System of Michigan (MERS), an agent multiple-employer, defined benefit pension plan. The System is administered by the MERS retirement board. MERS provides retirement and disability benefits, as well as death benefits to plan members and beneficiaries. The plan is closed to all new employees who are offered participation in a hybrid plan instead.

Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. A publicly available financial report that includes financial statements and required supplementary information for MERS may be obtained by writing to the Municipal Employees Retirement System of Michigan, 1134 Municipal Way, Lansing, Michigan 48917, or by calling (800) 767-6377.

The County is required to contribute at an actuarially determined rate; the current rate for open divisions is 3.82% to 16.24% of annual covered payroll, depending on the employee group. Contributions for closed divisions are based on a flat monthly dollar amount. Participating employees are required to contribute 0% to 9.03% of their annual salary depending on their assigned department. The contribution requirements of the County are established and may be amended by the Retirement Board of MERS. The contribution requirements of plan members are established and may be amended by the County Board of Commissioners, depending on the MERS contribution program adopted by the County.

For the year ended December 31, 2014, the County contributed the full amount of the annual required contribution of \$2,012,689 plus an additional contribution of \$1,399,000. Member contributions for the same period totaled \$324,359. The required contributions were determined as part of the December 31, 2012 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 8.0%, (b) projected salary increase of 4.5% per year (1%, 2% and 3%, for calendar years 2014, 2015 and 2016, respectively) compounded annually, attributable to inflation, (c) additional projected salary increases of 0.0% to 13.0% per year, depending on age, attributable to seniority/merit, and (d) the assumption that benefits will increase 3.0% per year after retirement for certain retirees depending on the benefit option selected. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return, and includes an adjustment to reflect fair market value. The County's unfunded actuarial accrued liability is being amortized over 25 years as a level percentage of projected payroll on an open basis. The latest actuarial valuation was performed as of December 31, 2013.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Three-Year Trend Information			
Year Ended December 31,	Annual Pension Cost	Percentage Contributed	Net Pension Asset
2012	\$ 1,856,189	138%	\$ 500,000
2013	1,842,507	175%	1,891,050
2014	2,056,522	166%	3,246,217

Funded Status and Funding Progress. As of December 31, 2013, the most recent actuarial valuation date, the plan was 76% funded. The actuarial accrued liability for benefits was \$59,058,782, and the actuarial value of assets was \$44,941,581, resulting in an unfunded actuarial accrued liability (UAAL) of \$14,117,201. The covered payroll (annual payroll of active employees covered by the plan) was \$16,077,584, and the ratio of the UAAL to the covered payroll was 88%. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The County's annual pension cost and net pension asset for the current year are as follows:

Annual required contribution	\$ 2,012,689
Interest on net pension asset	(151,286)
Adjustment to annual required contribution	<u>195,119</u>
Annual pension cost	2,056,522
Contributions made	<u>3,411,689</u>
Increase (decrease) in net pension asset	1,355,167
Net pension asset, beginning of year	<u>1,891,050</u>
Net pension asset, end of year	<u><u>\$ 3,246,217</u></u>
This amount is classified on the statement of net position as follows:	
Governmental activities	\$ 1,674,363
Business-type activities	<u>1,571,854</u>
	<u><u>\$ 3,246,217</u></u>

Deferred Compensation Plan

The County offers a supplemental retirement program in accordance with Section 457 of the Internal Revenue Code (IRC) that will provide for payments on retirement, as well as death benefits in the event of death prior to retirement. The Plan assets are held in trust for the exclusive benefit of participants and their beneficiaries. As such, these amounts have not been included in the financial statements.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Road Commission Discretely Presented Component Unit

The Barry County Board of Road Commissioners has a 401(k) single employer defined contribution plan, available to all employees of the Road Commission. A defined contribution plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive.

Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on the investments of those contributions, and the forfeitures of other participant's account. All employees who are at least 21 years old and have completed six months of service are eligible to participate.

The plan allows for employees to determine their own contribution, up to 60% of their salary, according to current provisions of the Internal Service Code. The Road Commission contributes 10% of the employees' salary. These contributions are not dependent on the participation of the employees. The plan uses the accrual basis of accounting with investment stated at fair market value.

Employees are allowed to borrow from their account and at December 31, 2014, the outstanding loan balances were \$145,515. Employee and employer contributions are paid to the plan on each payroll date (bi-weekly) and for the year ended December 31, 2014, employee and employer contributions totaled \$110,423 and \$158,147, respectively.

15. OTHER POSTEMPLOYMENT BENEFITS

Primary Government

Plan Description. The Barry County Retiree Health Care Plan (the "Plan") is a single-employer defined benefit healthcare plan administered by Barry County. The Plan provides certain health care benefits and life insurance, in accordance with union agreements and/or personnel policies to employees who have retired.

Funding Policy. The contribution requirements of Plan members and the County are established and may be amended by the County Board of Commissioners. The required contribution is based on projected pay-as-you go financing requirements, with an additional amount to prefund benefits as determined annually by the County Board of Commissioners. For the year ended December 31, 2014, the County contributed \$101,461 to the Plan, all of which was to fund current retiree benefits. Retirees receiving benefits contributed \$48,318, or approximately 48% of the total premiums, through their required contribution based on the level of coverage selected. At December 31, 2012, there were 15 retirees participating in the plan.

Annual OPEB Cost and Net OPEB Obligation. The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

The following table shows the components of the annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the net OPEB obligation/asset:

Annual required contribution	\$ 49,011
Interest on net OPEB obligation	(32,629)
Adjustment to annual required contribution	<u>92,634</u>
Net OPEB cost (expense)	109,016
Contributions made	<u>101,461</u>
Change in net OPEB asset	7,555
Net OPEB asset, beginning of year	<u>826,321</u>
Net OPEB asset, end of year	<u><u>\$ 818,766</u></u>
This amount is classified on the statement of net position as follows:	
Governmental activities	\$ 815,529
Business-type activities	<u>3,237</u>
	<u><u>\$ 818,766</u></u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for 2014 and the two previous years was as follows:

Year Ended December 31,	Annual OPEB Cost	Percentage Contributed	Net OPEB (Obligation) Asset
2012	\$ 119,795	1083%	\$ 934,920
2013	161,342	38%	826,321
2014	109,016	93%	818,766

Funded Status and Funding Progress. As of December 31, 2012, the most recent actuarial valuation date, the plan was 101% funded. The actuarial accrued liability for benefits was \$1,174,335, and the actuarial value of assets was \$1,180,809, resulting in a negative unfunded actuarial accrued liability (UAAL) of \$6,474. This represents the amount by which the plan is overfunded.

Actuarial Methods and Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and Plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and Plan members to the point. The actuarial methods and assumptions used to include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2012 actuarial valuation, the individual entry age actuarial cost method was used. The actuarial assumptions include: (a) a rate of return on investments of 4.0%; and (b) projected healthcare benefit increases of 4.5% to 9.0%. The unfunded actuarial accrued liability is being amortized as a level dollar amount over 11 years on an open basis.

Road Commission Discretely Presented Component Unit

Plan Description. The Road Commission provides healthcare benefits to certain employees upon retirement, in accordance with the Road Commission policy. Currently, 20 retirees participate and receive benefits. As of January 1, 2003, the Barry County Road Commission changed its policy for providing hospitalization medical coverage for their retirees. Per the policy in place as of December 31, 2002, the Road Commission provided hospitalization medical coverage and life insurance on a complimentary basis for any employee who retired at age 55 with at least eight years of service. The Road Commission continues to provide life insurance using the same parameters. One current employee and four retirees were grandfathered in under the previous policy.

As of January 1, 2005, the Road Commission added a policy for providing \$10 per month for every year of service for their association employees retiring from January 1, 2003 to November 1, 2006. These employees must be at least 55 years of age and have at least 20 years of service. This would become effective upon retirement of January 1, 2005, whichever comes latest. The amount shall be paid until the employee is deceased. If a slot is open for health insurance through the Road Commission and the retiree chooses to be carried through the Road Commission, the current health insurance cancellation policy will apply. This is a contingency upon the employee's association acceptance. All other current employees receive no health benefits upon retirement.

Funding Policy. Benefits are provided based on requirements of employee contracts and are financed on a pay-as-you-go basis. For the year ended December 31, 2014, the Road Commission expended \$109,225 for 20 participants currently eligible to receive benefits.

Funding Progress. For the year beginning January 1, 2013, the Road Commission has estimated the cost of providing retiree healthcare benefits through an actuarial valuation as of December 31, 2014. The valuation computes an annual required contribution, which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

Funded Status and Funding Progress. As of December 31, 2014, the most recent actuarial valuation date, the Plan was 0% funded. The actuarial accrued liability for benefits was \$1,297,155, and the Road Commission had no assets in trust for future OPEB obligations, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,297,155. The covered payroll (annual payroll of active employees covered by the plan) was \$1,716,877, and the ratio of the UAAL to the covered payroll was 76%. The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The following table shows the components of the Road Commission's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the Road Commission's net OPEB obligation:

Annual required contribution	\$ 109,225
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Net OPEB cost (expense)	109,225
Contributions made	109,225
Change in net OPEB obligation	-
Net OPEB obligation, beginning of year	-
Net OPEB obligation, end of year	\$ -

The Road Commission's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for 2014 and the two previous years was as follows:

Year Ended December 31,	Annual OPEB Cost	Percentage Contributed	Net OPEB (Obligation) Asset
2012	\$ 125,257	100%	\$ -
2013	110,452	100%	-
2014	109,225	100%	-

Actuarial Methods and Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to the point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

COUNTY OF BARRY, MICHIGAN

Notes to Financial Statements

In the December 31, 2014 actuarial valuation, the unit credit actuarial cost method was used. The actuarial assumption includes a 6.49% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investment, calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 12% initially, reduced by decrements to an ultimate rate of 5% after ten years. Both rates included a 4.5% inflation assumption. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2014, was 20 years.

16. SUBSEQUENT EVENTS

During the first quarter of 2015, the Road Commission entered into agreements to purchase \$1,925,951 of equipment consisting of a motor grader, four pickup trucks and six road trucks. Barry County has provided an appropriation for these purchases of \$276,900.

17. RESTATEMENTS

Beginning fund balance of the E-911 special revenue fund was increased by \$47,313 for the correction of an error. The State per capita distribution for the fourth quarter of 2013 was excluded from receivables and revenue. A corresponding increase was made to beginning net position of governmental activities. The impact of this error on the prior year statement of revenues, expenditures and changes in fund balances for the E-911 fund and the statement of activities for governmental activities was an understatement of \$47,313.

Net Changes in Fund Balances of Governmental Funds
to Change in Net Position of Governmental Activities
Drainage District Component Unit
For the Year Ended December 31, 2014

Net change in fund balances - total governmental funds	\$	(54,149)
--	----	----------

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Acquisition/construction of capital assets	408,414
Depreciation expense	(83,662)

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long term-liabilities.

Principal payments on long-term liabilities	216,117
Issuance of long-term debt	(325,000)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred to the following fiscal year.

Change in deferred special assessments receivable	(120,629)
---	-----------

Some expenses recorded in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Change in accrued interest on notes payable	(642)
---	-------

Change in net position	\$	<u>40,449</u>

INDEPENDENT AUDITORS' REPORT ON THE
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY OMB CIRCULAR A-133

June 17, 2015

Board of Commissioners
County of Barry, Michigan
Hastings, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the *County of Barry, Michigan* (the "County"), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our report thereon dated June 17, 2015, which contained unmodified opinions on those financial statements. Our report includes a reference to other auditors. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain other procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

A handwritten signature in black ink that reads "Rehmann Robson LLC". The signature is written in a cursive, flowing style.

COUNTY OF BARRY, MICHIGAN

Notes to Schedule of Expenditures of Federal Awards

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the County of Barry, Michigan (the "County") under programs of the federal government for the year ended December 31, 2014. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position or cash flows of the County.

The County's reporting entity is defined in Note 1 of the County's Annual Financial Report. The County's financial statements include the operations of the Barry County Road Commission and the Barry County Transit discretely-presented component units, which received federal awards that are not included in the Schedule for the year ended December 31, 2014, as these entities were separately audited.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting, which is described in Note 1 to the County's financial statements. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

3. OTHER FEDERAL REVENUE

The County is an indirect beneficiary of federal funds that are expended directly by the Michigan Department of Transportation. These expenditures, which will be included in the State of Michigan's single audit, are as follows:

Project Name	CFDA Number	Contract Number	Amount Expended
Rehab Taxiway D&E Construction	20.106	D-26-0043-2012	\$ 35,365
Rehab Taxiway B Construction	20.106	B-26-0043-2111	14,999
Rehab Taxiway B Construction	20.106	B-26-0043-2211	125,667
			<u>\$ 176,031</u>

COUNTY OF BARRY, MICHIGAN

Notes to Schedule of Expenditures of Federal Awards

4. PASS-THROUGH AGENCIES

The County receives certain federal grants as subawards from non-federal entities. Pass-through entities, where applicable, have been identified in the Schedule with an abbreviation, defined as follows:

Pass-through Agency Abbreviation	Pass-through Agency Name
COVB	County of Van Buren, Michigan
MDHS	Michigan Department of Human Services
MSHDA	Michigan State Housing Development Authority
MDNR	Michigan Department of Natural Resources
MSCAO	Michigan State Court Administrative Office
MSP	Michigan State Police
R3B	Region 3B Area Agency on Aging

5. SUBRECIPIENTS

The County administers a certain federal award program through subrecipients. Those subrecipients are not considered part of the County's reporting entity. Of the federal expenditures presented in the Schedule, the County provided \$1,060 under the Homeland Security Grant Program (CFDA number 97.067) to subrecipients.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

June 17, 2015

Board of Commissioners
County of Barry, Michigan
Hastings, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *County of Barry, Michigan* (the "County"), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 17, 2015. Our report includes a reference to other auditors who audited the financial statements of the Barry County Road Commission, the Barry County Medical Care Facility (Thornapple Manor), and the Barry County Transit, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The audits of the Barry County Road Commission and the Barry County Medical Care Facility (Thornapple Manor) were not performed in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2014-001 and 002 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County of Barry, Michigan's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Lehmann Lohman LLC

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

June 17, 2015

Board of Commissioners
County of Barry, Michigan
Hastings, Michigan

Report on Compliance for Each Major Federal Program

We have audited the compliance of the *County of Barry, Michigan* (the "County") with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2014. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The County's basic financial statements include the operations of the Barry County Road Commission and the Barry County Transit, which received \$300,512 and \$202,469 in federal awards, respectively, and which are not included in the schedule for the year ended December 31, 2014. Our audit, described below, did not include the operations of the Barry County Transit or the Barry County Road Commission because these entities arranged for separate financial statement audits and did not meet the criteria for a single audit in accordance with A-133.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2014.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2014-003, -004, and -006. Our opinion on each major federal program is not modified with respect to these matters.

The County's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2014-003, -004, and -005 that we consider to be significant deficiencies.

The County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

COUNTY OF BARRY, MICHIGAN

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2014

SECTION II - FINANCIAL STATEMENT FINDINGS

2014-001 - Prior Period Adjustment

Finding Type. Material Weakness in Internal Control over Financial Reporting.

Criteria. Management is responsible for maintaining its accounting records in accordance with generally accepted accounting principles (GAAP).

Condition. A receivable was not recorded in the prior year for the fourth quarter State per capita distribution in the E-911 special revenue fund. In our opinion, this amount was quantitatively material to the E-911 special revenue fund opinion unit.

Cause. This condition was primarily caused by an oversight in recording this year-end transaction, which was excluded from the closing process.

Effect. As a result of this condition, the County's financial statements were misstated by an amount that we deemed to be quantitatively material to the applicable opinion unit.

Recommendation. We encourage the County to review receipts subsequent to year-end to ensure that amounts are recognized as revenue in the period they are earned. Similarly, receivables recorded initially based on estimates should be compared to actual amounts received up to the point of audit issuance. Any variances between estimated and actual should be considered for adjustment.

View of Responsible Officials. The County's contracted accountants detected this misstatement internally and proposed the correcting entry. The appropriate balances are reflected in the audited financial statements. Management will be cognizant of these types of transactions in the future.

COUNTY OF BARRY, MICHIGAN

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2014

SECTION II - FINANCIAL STATEMENT FINDINGS

2014-002 - Internal Controls over Preparation of the Schedule of Expenditures of Federal Awards (Repeat Finding)

Finding Type. Material Weakness in Internal Control over Financial Reporting.

Criteria. OMB Circular A-133, § ___.300, requires that a recipient of federal awards subject to a single audit “identify, in its accounts, all Federal awards received and expended and the federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the federal agency, and name of the pass-through entity.” In addition, the County is required to “prepare appropriate financial statements, including the Schedule of Expenditures of Federal Awards in accordance with § ___.310.”

Condition. Management was able to provide us with an initial Schedule of Expenditures of Federal Awards in a timely manner. However, we noted a quantitatively material adjustment to the amount reported for the Homeland Security Grant Program. In addition, we identified a variety of other errors primarily related to the omission of certain federal awards, incorrect award numbers, and errors in year-end accruals.

Cause. This condition was primarily caused by the decentralized nature of County operations and certain grants being administered by individuals not aware of the importance of communicating award information to the County’s contracted accountants.

Effect. As a result of this condition, the County’s Schedule of Expenditures of Federal Awards was initially misstated by an amount that was material to the financial statements.

Recommendation. We recommend that the County develop a centralized process for tracking federal grants awarded, identifying applicable compliance requirements, and ensuring that applicable information is provided to the County’s accountants at year-end.

View of Responsible Officials. The County has undergone training on grant administration and is implementing processes to ensure accurate reporting.

COUNTY OF BARRY, MICHIGAN

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2014

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2014-003 - Internal Controls over Subrecipient Monitoring

Finding Type. Immaterial Noncompliance / Significant Deficiency in Internal Control over Compliance (Subrecipient Monitoring).

Program. Homeland Security Grant Program; U.S. Department of Homeland Security; CFDA Number 97.067; Passed through the County of Van Buren; Award Numbers EMW-2011-SS-00103, EMW-2012-SS-00055, and EMW-2013-SS-00049.

Criteria. Recipients of federal awards that subgrant funds to other entities are responsible for compliance with requirements related to subrecipient monitoring, as detailed in the OMB Circular A-133 Compliance Supplement. Among these requirements are (1) communicating basic award information (such as the CFDA number, award name, US granting agency, and applicability of Single Audit requirements), (2) assessing the risks of subrecipient noncompliance and using this information to prepare a monitoring plan, and (3) conducting monitoring of the subrecipient's use of federal awards to provide reasonable assurance that the program is being administered in compliance with laws, regulations, and the provisions of contracts or grant agreements, and that performance goals are achieved.

Condition. The County provides non-cash grant assistance to various local units of government by subawarding equipment and supplies for emergency management purposes. The County did not communicate the CFDA number to the subrecipients and in some instances, the transfer of ownership form (indicating that the equipment was funded with a Homeland Security grant) was not executed until more than a year after the equipment was physically transferred. In addition, the County had no process in place for obtaining subrecipient audits, reviewing the single audit report for findings related to the pass-through funding, and ensuring that amounts reported on the subrecipient SEFAs were in agreement with the County's records. The County did not perform any monitoring procedures in the current year nor did it evaluate subrecipients with respect to their ability to comply with federal regulations.

Cause. The condition appears to be the result of inadequate grant management at a decentralized department. Non-cash subawards were received and passed through this decentralized department and facilitated by individuals who are not experienced in federal awards administration or single audit act compliance.

Effect. As a result of this condition, the County did not fully comply with certain compliance requirements of this grant and was subject to the risk that equipment and supplies passed-through to other entities did not comply with the requirements of the award agreement or the provisions of OMB Circular A-133.

Questioned Costs. No costs were required to be questioned as a result of this condition, as we are not aware of any actual unallowable costs at the subrecipient level.

COUNTY OF BARRY, MICHIGAN

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2014

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2014-003 - Internal Controls over Subrecipient Monitoring (Concluded)

Recommendation. We recommend that the County implement a subrecipient monitoring process. This should include timely correspondence with those responsible for financial reporting at each subrecipient entity regarding the CFDA number and dollar amount of awards provided, requesting subrecipient single audit reports and reviewing such information for completeness and any relevant findings, and providing written follow-up when deficiencies are noted. Since the local units receiving the subawards may be operating under different fiscal year ends than the County itself, it is important that this communication be made timely and clearly indicate the date of the subaward.

View of Responsible Officials. The County has undergone training on grant administration and is implementing processes to ensure accurate reporting.

COUNTY OF BARRY, MICHIGAN

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2014

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2014-004 - Internal Controls over Reporting and Cash Management (Repeat Finding)

Finding Type. Immaterial Noncompliance / Significant Deficiency in Internal Control over Compliance (Cash Management / Reporting).

Program. Child Support Enforcement Program; U.S. Department of Health and Human Services; CFDA Number 93.563; Passed through the Michigan Department of Human Services; Award Number CS/COM-14-08003.

Criteria. Recipients of federal awards are required to report various financial information to the grantor or pass-through agency, as specified in the grant agreement and/or the OMB Circular A-133 Compliance Supplement. Additionally, in accordance with 2 CFR section 215.22, funds should be disbursed before requesting reimbursement from the grantor. For this particular award, monthly financial status reports are submitted to the pass-through grantor agency. These reports serve as the mechanism for cash reimbursement. Accordingly, the County should have internal controls over the accumulation of financial data in these reports.

Condition. The County's monthly reports under the Child Support Enforcement Program were completed and submitted, as required. These reports are prepared by a third-party contractor based on information manually typed into a spreadsheet by the Clerk's office. After the report has been drafted by the third party, it is provided to the Friend of the Court office for submission to DHS. The accuracy of the original data is not reviewed and reconciled to the general ledger, nor is the draft report compared to the source data for accuracy. We noted several minor discrepancies between the amounts reported and the County's general ledger.

Cause. This conditions appears to have been caused primarily by an oversight at the department level in understanding the importance of reviewing the third-party reports prior to submission.

Effect. As a result of this condition, the lack of an established review processes exposed the County to the risk that significant errors in financial reports could be submitted to the pass-through grantor and not be detected internally. The actual errors noted in our testing were inconsequential.

Questioned Costs. No costs were required to be questioned as a result of this finding inasmuch as no unallowable expenditures were noted.

Recommendation. We recommend that all grant reports be subjected to independent review and approval by the County prior to submission in order to ensure that reported amounts agree to the original data provided to the third party and that such data is reconciled to the general ledger. Even though the actual data is submitted to the pass-through grantor through a secure website, we encourage the individual performing this review to sign and date a printed copy of the report as evidence of the review, and file it internally along with any supporting documentation used to substantiate the amounts.

View of Responsible Officials. Management implemented a new review process that began in November 2014.

COUNTY OF BARRY, MICHIGAN

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2014

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2014-005 - Internal Controls over Reporting and Cash Management (Repeat Finding)

Finding Type. Significant Deficiency in Internal Control over Compliance (Cash Management / Reporting).

Program. Homeland Security Grant Program; U.S. Department of Homeland Security; CFDA Number 97.067; Passed through the County of Van Buren; Award Numbers EMW-2011-SS-00103, EMW-2012-SS-00055, and EMW-2013-SS-00049.

Criteria. Recipients of federal awards are required to report various financial information to the grantor or pass-through agency, as specified in the grant agreement and/or the OMB Circular A-133 Compliance Supplement. Additionally, in accordance with 2 CFR section 215.22, funds should be disbursed before requesting reimbursement from the grantor. For this particular award, periodic financial status reports are submitted to the pass-through grantor agency. These reports serve as the mechanism for cash reimbursement. Accordingly, the County should have internal controls over the accumulation of financial data in these reports.

Condition. The County's monthly reports under the Homeland Security Grant Program were completed and submitted, as required. However, such reports were not prepared based on the general ledger nor were they subject to review and approval by to submission.

Cause. This condition was caused by assigning the responsibility for preparing and submitting grant reports to an individual without access to the general ledger.

Effect. As a result of this condition, the lack of an established review process exposed the County to the risk that significant errors in financial reports could be submitted to the pass-through grantor and not be detected internally.

Questioned Costs. No costs were required to be questioned as a result of this finding inasmuch as no unallowable expenditures were noted.

Recommendation. We recommend that all grant reports be subjected to independent review and approval by the County prior to submission in order to ensure that reported amounts agree to the underlying accounting records. We encourage the individual performing this review to sign and date a printed copy of the report as evidence of the review, and file it internally along with any supporting documentation used to substantiate the amounts.

View of Responsible Officials. The County has undergone training on grant administration and is implementing processes to ensure accurate reporting.

COUNTY OF BARRY, MICHIGAN

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2014

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2014-006 - Physical Inventory of Equipment

Finding Type. Immaterial Noncompliance (Equipment and Real Property Management).

Program. Homeland Security Grant Program; U.S. Department of Homeland Security; CFDA Number 97.067; Passed through the County of Van Buren; Award Numbers EMW-2011-SS-00103, EMW-2012-SS-00055, and EMW-2013-SS-00049.

Criteria. Recipients of federal awards are required to complete a physical inventory of equipment purchased or received relating to federal fund at least once every two years. Adequate records should be maintained to support the date this was performed as well as the items observed. Also, a detailed listing should be maintained of federally purchase equipment including (1) a description of the equipment, (2) the cost and acquisition date, (3) political subdivision the equipment was transferred to, (4) physical location of the equipment, and (5) any changes in the location of the equipment. This should be updated to include all equipment (both capitalized and noncapitalized) received by the County.

Condition. County management indicated that informal inventories occurred through the year, however there was no documentation prepared to support the items observed or the date of the observance. Additionally, the County tracks the equipment received under this grant award in a spreadsheet; however, it was not updated at year-end and did not include the acquisition date, current location, or pass-through information, as required.

Cause. The missing information in the equipment listing appears to be a result of an oversight in understanding the requirements of tracking federally-funded equipment.

Effect. As a result of this condition, the County did not fully comply with certain compliance requirements of this grant and the provisions of OMB Circular A-133.

Questioned Costs. No costs were required to be questioned as a result of this finding inasmuch as no unallowable expenditures were noted.

Recommendation. We recommend that the County prepare and retain documentation to support the physical inventory of equipment performed throughout the year. Any discrepancies noted should be reconciled. This documentation should be easily reconcilable to the complete list of equipment maintained by the County for financial statement presentation and should be available for review during the year-end audit process. In addition, the existing list should be updated to the extent possible to include the details required by the A-133 Compliance Supplement.

View of Responsible Officials. The County is currently working with the contracted accountant and modifying the inventory list to meet compliance requirements.

COUNTY OF BARRY, MICHIGAN

Summary Schedule of Prior Audit Findings

For the Year Ended December 31, 2014

Finding 2013-FS-01 - Internal Controls over Preparation of the Schedule of Expenditures of Federal Awards

A number of adjustments were required to the original Schedule of Expenditures of Federal Awards provided by the County in order to agree to the underlying accounting records. Similar adjustments were necessary in the current year which were quantitatively material to the financial statements. This matter has been repeated as finding 2014-002.

Finding 2013-FS-02 - Internal Controls over Accrued Sick and Vacation Time

We noted a variety of errors in the initial schedule of accrued sick and vacation time, primarily related to modifications to the original system-generated report. The schedule was not subject to any independent review or approval. Current year audit procedures indicated significant improvement. While there are still improvements to be made, repeating the finding was not considered necessary.

Finding 2013-SA-01 - Grant Draws in Excess of Immediate Cash Needs

CFDA # 14.228 - Community Development Block Grant

In certain instances, cash reimbursement was requested in advance of disbursement to vendors/contractors. A new procedure was implemented in the current year to ensure amounts are not requested in advance. This matter is considered resolved.

Finding 2013-SA-02 - Internal Controls over Reporting and Cash Management

CFDA # 93.563 - Child Support Enforcement Program

The audit identified errors in the reports submitted in the prior year. While the actual errors noted in the current year were inconsequential, a review process over these reports was not implemented until November. Accordingly, this finding has been repeated as finding 2014-004.

Finding 2013-SA-03 - Internal Controls over Reporting and Cash Management

CFDA # 97.067 - Homeland Security Grant Program

Reports under the Homeland Security Grant Program were not prepared based on the general ledger nor were they subject to review and approval prior to submission. There have not yet been any changes to this process. Accordingly, this finding has been repeated as item 2014-005.

INDEPENDENT AUDITORS' COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

June 17, 2015

Board of Commissioners
County of Barry
Hastings, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *County of Barry, Michigan* (the "County") as of and for the year ended December 31, 2014, and have issued our report thereon dated June 17, 2015. We did not audit the financial statements of the Barry County Road Commission, the Barry County Medical Care Facility (Thornapple Manor), or the Barry County Transit. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions on the financial statements and this report, insofar as they relate the aforementioned entities are based solely on the report of other auditors. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated January 13, 2015 our responsibility, as described by professional standards, is to form and express opinions about whether the financial statements that have been prepared by management with your oversight are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the County solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our findings regarding internal control over financial reporting and compliance noted during our audit in a separate letter to you dated June 17, 2015. In addition, we noted certain other matters which are included in Attachment A to this letter.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our engagement letter and in our meeting about planning matters on January 7, 2015.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm has complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the County's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the County is included in Note 1 to the financial statements.

There have been no initial selections of accounting policies and no changes in significant accounting policies or their application during the year.

Beginning fund balance of the E-911 special revenue fund and beginning net position of governmental activities were increased to correct an error in the prior year receivable. The notes to the financial statements contain a more complete description of this transaction. No matters have come to our attention that would require us, under professional standards, to inform you about the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements were:

- Management's estimate of the useful lives of depreciable capital assets is based on the length of time it is believed that those assets will provide some economic benefit in the future.
- Management's estimate of the accrued compensated absences is based on current hourly rates and policies regarding payment of sick and vacation banks.
- Management's estimate of the insurance claims incurred but not reported is based on information provided by the entity's third party administrators and subsequent claims activity.
- The assumptions used in the actuarial valuations of the pension and other postemployment benefits plans are based on historical trends and industry standards.

We evaluated the key factors and assumptions used to develop these estimates and determined that they are reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Significant Difficulties Encountered During the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. None of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

The schedule of adjustments passed is included with management's written representations in Attachment C to this letter, and summarizes uncorrected financial statement misstatements whose effects in the current and prior periods, as determined by management, are immaterial, both individually and in the aggregate, to the financial statements taken as a whole and each applicable opinion unit.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the County's financial statements or the auditors' report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in Attachment C to this letter.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the County, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the County's auditors.

Other Information in Documents Containing Audited Financial Statements

Our responsibility for the supplementary information accompanying the financial statements, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. We made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Upcoming Changes in Accounting Standards

Generally accepted accounting principles (GAAP) are continually changing in order to promote the usability and enhance the applicability of information included in external financial reporting. While it would not be practical to include an in-depth discussion of every upcoming change in professional standards, Attachment B to this letter contains a brief overview of recent pronouncements of the Governmental Accounting Standards Board (GASB) and their related effective dates. Management is responsible for reviewing these standards, determining their applicability, and implementing them in future accounting periods.

This information is intended solely for the use of the governing body and management of the County of Barry, Michigan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Lehmann Lobson LLC

COUNTY OF BARRY, MICHIGAN

Attachment A - Comments and Recommendations

For the December 31, 2014 Audit

During our audit, we became aware of certain other matters that are opportunities for strengthening internal control and/or improving operating efficiency. This memorandum summarizes our comments and recommendations regarding those matters. Our consideration of the County's internal control over financial reporting is described in our report, dated June 17, 2015, issued in accordance with *Government Auditing Standards*. This memorandum does not affect that report or our report dated June 17, 2015, on the financial statements of the County of Barry, Michigan.

Trust and Agency Fund Liabilities (Repeat Comment)

The County holds various balances in a fiduciary capacity in its agency funds. Such amounts should generally be supported by subsidiary ledgers which indicate the individuals or cases for which the funds are held. The County has made significant progress in reconciling these balances and certain amounts have been identified as unsupported and have remained unchanged for several years. Management has indicated that it intends to escheat these funds to the State of Michigan, however as of December 31, 2014, these amounts had not yet been escheated. We encourage the County to escheat these funds in a timely manner and continue to monitor agency fund liabilities to ensure they are being reconciled regularly.

Additionally, of the agency fund liability accounts reviewed in our audit (selected on a sampling basis), we noted certain items related to County operations, and accordingly, are not appropriate to be accounted for in an agency fund (which is limited to monies held in a fiduciary capacity). Such activity included local grant programs, property tax chargebacks, and Principal Residence Exemption (PRE) denials. Grant activity should be recorded in a governmental fund and property tax chargebacks and PRE adjustments should be accounted for in the delinquent tax revolving fund.

Cash Receipting at the Animal Shelter

Management is responsible for establishing effective internal controls to safeguard the County's assets, and to prevent or detect misstatements to the financial statements. Ideally, no single individual should ever be able to authorize a transaction, record the transaction in the accounting records, and maintain custody of the assets resulting from the transaction. Effectively, proper segregation of duties is intended to prevent an individual from committing an act of fraud or abuse and being able to conceal it, or from allowing honest mistakes to go undetected. Employees at the animal shelter use a cash register log to accumulate information on cash receipts. The animal shelter was unaware of these requirements and this detail was not being provided to the Treasurer's Office along with the deposit advice, nor was there any documented evidence that the log was compared to the deposit advice by an individual independent of the cash receipting process. This exposes the County to an increased risk that cash receipts could be misappropriated and remain undetected.

COUNTY OF BARRY, MICHIGAN

Attachment A - Comments and Recommendations

For the December 31, 2014 Audit

We understand the staffing and resource limitations, but recommend the County evaluate solutions to mitigate this risk. The two primary options for mitigating cash receipting risks are: (1) require that detail to support actual cash receipts (such as the register tape) be attached to the deposit advice and signed/dated before being remitted to the Treasurer's Office. The deposit should not be accepted by the Treasurer's Office without evidence of approval by an appropriate department head or supervisor. The detail should then be retained at the Treasurer's Office to support the cash deposit; (2) require the animal shelter perform this level of independent review and approval and retain the evidence of this process. Compliance with these procedures would then require periodic oversight and monitoring by an independent employee or department.

Grant Administration at the Animal Shelter

The animal shelter management administered two local grants during the year to supplement the County's operations. Expenditures of these awards were limited to specific activities and one provided a lump sum payment (received in the middle of the award period) and one was reimbursement-based. Management created a new fund to account for the lump sum received; however, expenditures incurred before the cash was received were recorded in the general fund or animal shelter donation fund and were never transferred to the new fund. Additionally, the reimbursement-based expenditures were also recorded based on the availability of cash (in either the animal shelter donation fund or general fund). As a result, grant expenditures and the related revenue were not readily identifiable in the County's accounting records. Because of this, animal shelter management is administering these grants and reporting to grantors based on their internal records, rather than the County's general ledger. Additionally, year end adjustments for receivables and unearned revenue were not initially identified and posted to the general ledger. While the amounts involved were not significant, we recommend that the County appropriately reconcile the animal shelter's accounts to ensure that the general ledger is an accurate basis for reporting expenditures to the grantors. Due to the sensitivity of grant requirements, restrictions, and reporting, financial activity should be reconciled to the department records monthly and any grant reporting should be subject to independent review and approval.

Budgetary Control

Governments are required to adopt budgets annually according to the Michigan Department of Treasury. These budgets are then compared to actual revenues and expenditure by management and presented to those charged with governance throughout the year to track progress and aid in the decision making process. We noted instances in which revenues and expenditures were budgeted for grants that were applied for and not awarded, or for grants that were fully expended in a previous year, resulting in significant differences between budgeted expectations and actual results. The original budget amounts were not amended to reflect the new award information. This significantly reduces the value of the budget as a management control device by giving the appearance that these amounts are available to fund current expenses. We recommend that the original budget be prepared based on current grant award information and then updated through the budget amendment process to reflect any changes in expectations throughout the year.

COUNTY OF BARRY, MICHIGAN

Attachment A - Comments and Recommendations

For the December 31, 2014 Audit

Internal Controls over Accrued Sick and Vacation Time (Repeat Comment)

The County has certain balance sheet accounts that are adjusted and balanced only at year-end for external reporting purposes. Some of these balances are long-term in nature and not reported in the County's fund financial statements. Even though these amounts are not recorded in the general ledger, the information necessary for properly reporting these items must be provided by management for inclusion in the audited financial statements. Management is responsible for establishing effective internal controls to ensure accuracy of this data. Management made significant improvements in preparing the year-end compensated absences schedule; however, audit procedures identified that the calculation initially utilized incorrect employee leave balances and included employees of a fund that is separately audited. Necessary corrections were made to the original data and amounts are presented in the audited financial statements at the appropriate amounts. We recommend that the County subject all year-end schedules that are used in financial reporting to an independent review and approval process by an individual with a high level of understanding regarding financial reporting requirements. This review should be documented and retained as evidence of the control.

Investment Reconciliations

In the governmental industry, it is common for cash and investments to be accounted for using a pooled system. Using this approach, cash and investments are accounted for as a whole with each fund's equity in the pool being specifically identifiable at any point in time (much like traditional demand deposit account) but without assigning specific investment holdings to any one fund. The cash and investment pool can be reconciled as a whole with investment earnings spread ratably to participating funds. If designed appropriately, this promotes efficiencies by eliminating the need to maintain and reconcile separate bank accounts for each of the County's funds. While the County refers to its investments as a "pooled" system, this is inconsistent with the practice in place which assigns individual investments within a brokerage account to one or more funds. Accordingly, the process of recording interest earnings and market value adjustments at month-end requires extensive manual calculations. Our audit procedures identified a variance of approximately \$146,000 between the general ledger and the related investment statements as of December 31, 2014 that appears to have been caused by these unnecessary complexities to the process. We recommend that the County evaluate its existing procedures for maintaining and reconciling its inventory of investments. At a minimum, this process should demonstrate that the sum of all the bank statements is equal to the sum of the related general ledger control accounts for participating funds. This reconciliation should be reviewed by an individual independent of the reconciliation process and signed/dated as evidence of the review.

COUNTY OF BARRY, MICHIGAN

Attachment B - Upcoming Changes in Accounting Standards / Regulations

For the December 31, 2014 Audit

The following pronouncements of the Governmental Accounting Standards Board (GASB) have been released recently and may be applicable to the County in the near future. We encourage management to review the following information and determine which standard(s) may be applicable to the County. For the complete text of these and other GASB standards, visit www.gasb.org and click on the "Standards & Guidance" tab. If you have questions regarding the applicability, timing, or implementation approach for any of these standards, please contact your audit team.

GASB 68 ■ Accounting and Financial Reporting for Pensions

Effective 06/15/2015 (your FY 2015)

This standard establishes new requirements for governments to report a "net pension liability" for the unfunded portion of its pension plan. Governments that maintain their own pension plans (either single employer or agent multiple-employer) will report a liability for the difference between the total pension liability calculated in accordance with GASB 67 and the amount held in the pension trust fund. Governments that participate in a cost sharing plan will report a liability for their "proportionate share" of the net pension liability of the entire system.

Historically, governments have only been required to report a net pension obligation to the extent that they have not met the annual required contribution (ARC) in any given year. Upon implementation of this standard, governments will be required to report a net pension liability based on the current funded status of their pension plans. This liability would be limited to the government-wide financial statements and proprietary funds. Changes in this liability from year to year will largely be reflected on the income statement, though certain amounts will be deferred and amortized over varying periods.

GASB 68 also requires more extensive note disclosures and required supplementary information, including 10 years of historical information. The methods used to determine the discount rate (the assumed rate of return on plan assets held in trust) are mandated and must be disclosed, along with what the impact would be on the net pension liability if that rate changed by 1% in either direction. Other new disclosure requirements include details of the changes in the components of the net pension liability, comparisons of actual employer contributions to actuarially determined contributions, and ratios to put the net pension liability in context. For single-employer and agent multiple-employer plans, the information for these statements will come from the annual actuarial valuation. For cost sharing plans, this information will be derived from the financial reports of the plan itself, multiplied by the government's proportionate share of plan.

While GASB 68 is only applicable to pension plans, the GASB has announced its intent to issue similar standards for other postemployment benefits (e.g., retiree healthcare) on a three year delay from these standards.

COUNTY OF BARRY, MICHIGAN

■ Attachment B - Upcoming Changes in Accounting Standards / Regulations

For the December 31, 2014 Audit

GASB 71 ■ Pension Transition for Contributions Made Subsequent to the Measurement Date

Effective with the Implementation of GASB 68

This standard is an amendment to GASB 68, and seeks to clarify certain implementation issues related to amounts that are deferred and amortized at the time GASB 68 is first adopted. It applies to situations in which the measurement date of an actuarial valuation differs from the government's fiscal year.

GASB 72 ■ Fair Value Measurement and Application

Effective 06/15/2016 (your FY 2016)

This standard defines "fair value" as the price that would be received to sell an asset in an orderly transaction between market participants (an "exit price"). Fair value measurement is currently applied principally to investments, which GASB 72 does not change. However, it does introduce specific methods for measuring fair value when a market price isn't readily available, and establishes a 3-level hierarchy of fair value that is disclosed in the footnotes, based on the presence or absence of observable market inputs.

2 CFR 200 ■ Uniform Guidance for Federal Awards

Cost Principles Effective 12/26/2014; Single Audit Requirements Effective 12/26/2015 (your FY 2016)

The Office of Management and Budget (OMB) has consolidated seven separate circulars (including administrative requirements, cost principles, and audit requirements) into a single federal regulation. The new Uniform Guidance covers all aspects of federal grants from pre-award through the single audit. While much of the guidance was simply reorganized and recodified, there were also several substantive changes to the single audit thresholds. A single audit will now only be required if total expenditures of federal awards exceed \$750,000 (up from \$500,000). The OMB has indicated that further changes to the single audit will be announced in 2015.

In addition, the Uniform Guidance now explicitly requires grant recipients to have sound internal controls that are consistent with the COSO framework and documented procedures for grant administration. Rehmann is available to assist grant recipients in developing/documenting these policies and procedures in compliance with the new requirements.

COUNTY OF BARRY, MICHIGAN

Attachment C - Management Representations

For the December 31, 2014 Audit

The following pages contain the written representations that we requested from management.

BARRY COUNTY

Michael C. Brown
County Administrator

220 W. State St., Hastings, MI 49058
Ph. (269) 945-1284 Fax (269) 948-4884

June 17, 2015

Rehmann Robson
2330 East Paris Ave. SE
Grand Rapids, MI 49546

This representation letter is provided in connection with your audit of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **County of Barry, Michigan** ("the County"), as of and for the year ended December 31, 2014, and the related notes to the financial statements, for the purpose of expressing opinions on whether the basic financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows, where applicable, and the respective budgetary comparison for the general fund and each major special revenue fund of the County in conformity with accounting principles generally accepted for governments in the United States of America (U.S. GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm that, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves as of June 17, 2015:

Financial Statements

1. We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter dated January 13, 2015, for the preparation and fair presentation of the financial statements of the various opinion units referred to above in accordance with U.S. GAAP. We have reviewed, approved, and taken responsibility for the financial statements and related notes.
2. We have reviewed and approved the various adjusting journal entries that were proposed by you for recording in our books and records and reflected in the financial statements.
3. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
4. We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
5. Significant assumptions used by us in making accounting estimates are reasonable.
6. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP. For the purposes of this letter, related parties mean members of the governing body; board members; administrative officials; immediate families of administrative officials, board members, and members of the governing body; and any companies affiliated with or owned by such individuals.
7. All events subsequent to the date of the financial statements and for which U.S. GAAP requires adjustment or disclosure have been adjusted or disclosed.

8. The effects of uncorrected misstatements summarized in the attached schedule and aggregated by you during the current engagement are immaterial, both individually and in the aggregate, to the applicable opinion units and to the financial statements as a whole.
9. The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.
10. With regard to items reported at fair value:
 - a. The underlying assumptions are reasonable and they appropriately reflect management's intent and ability to carry out its stated courses of action.
 - b. The measurement methods and related assumptions used in determining fair value are appropriate in the circumstances and have been consistently applied.
 - c. The disclosures related to fair values are complete, adequate, and in conformity with U.S. GAAP.
 - d. There are no subsequent events that require adjustments to the fair value measurements and disclosures included in the financial statements.
11. All component units, as well as joint ventures with an equity interest, are included and other joint ventures and related organizations are properly disclosed.
12. All funds and activities are properly classified.
13. All funds that meet the quantitative criteria in GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and GASB Statement No. 37, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments: Omnibus*, for presentation as major are identified and presented as such and all other funds that are presented as major are considered important to financial statement users.
14. All components of net position and fund balance classifications have been properly reported.
15. All revenues within the statement of activities have been properly classified as program revenues, general revenues, contributions to term or permanent endowments, or contributions to permanent fund principal.
16. All expenses have been properly classified in or allocated to functions and programs in the statement of activities, and allocations, if any, have been made on a reasonable basis.
17. All interfund and intra-entity transactions and balances have been properly classified and reported.
18. Special items and extraordinary items have been properly classified and reported.
19. Deposit and investment risks have been properly and fully disclosed.
20. Capital assets, including infrastructure assets, are properly capitalized, reported, and if applicable, depreciated.
21. All required supplementary information is measured and presented within the prescribed guidelines.
22. We believe that the actuarial assumptions and methods used to measure pension and other postemployment benefit liabilities and costs for financial accounting purposes are appropriate in the circumstances.
23. In connection with the correction of an error in the E-911 special revenue fund, the County has determined that a restatement of beginning fund balance/net position of *the* E-911 special revenue fund/governmental activities is sufficient to inform financial statement users, and accordingly, no revised and reissued financial statements for December 31, 2013 or any previous fiscal years are necessary. Also, the County has evaluated the underlying cause of this error and determined that it does not affect any other areas of the financial statements.

Information Provided

24. We have provided you with:
 - a. Access to all information, of which we are aware that is relevant to the preparation and fair presentation of the financial statements of the various opinion units referred to above, such as records, documentation, meeting minutes, and other matters;
 - b. Additional information that you have requested from us for the purpose of the audit; and
 - c. Unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence.
25. All transactions have been recorded in the accounting records and are reflected in the financial statements.
26. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
27. We have no knowledge of any fraud or suspected fraud that affects the entity and involves:
 - a. Management;
 - b. Employees who have significant roles in internal control; or
 - c. Others where the fraud could have a material effect on the financial statements.
28. We have no knowledge of any allegations of fraud, or suspected fraud, affecting the entity's financial statements communicated by employees, former employees, vendors, regulators, or others.
29. We are not aware of any pending or threatened litigation and claims whose effects should be considered when preparing the financial statements.
30. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.
31. There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in accounting, internal control, or financial reporting practices.
32. The government has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
33. We have disclosed to you all guarantees, whether written or oral, under which the government is contingently liable.
34. We have identified and disclosed to you the laws, regulations, and provisions of contracts and grant agreements that could have a direct and material effect on financial statement amounts, including legal and contractual provisions for reporting specific activities in separate funds.
35. There are no:
 - a. Violations or possible violations of laws or regulations, or provisions of contracts or grant agreements whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency, including applicable budget laws and regulations.
 - b. Unasserted claims or assessments that our lawyer has advised are probable of assertion and must be disclosed in accordance with GASB-62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.
 - c. Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by GASB-62.
36. The government has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset or future revenue been pledged as collateral, except as disclosed to you.
37. We have complied with all aspects of grant agreements and other contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
38. We have disclosed to you all significant estimates and material concentrations known to management that are required to be disclosed in accordance with GASB-62. Significant estimates are estimates at the balance sheet date that could change materially within the next year.

Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.

Supplementary Information in Relation to the Financial Statements as a Whole

39. With respect to the supplementary information accompanying the financial statements:
- a. We acknowledge our responsibility for the presentation of the supplementary information in accordance with accounting principles generally accepted in the United States of America.
 - b. We believe the supplementary information, including its form and content, is fairly presented in accordance with accounting principles generally accepted in the United States of America.
 - c. The methods of measurement or presentation have not changed from those used in the prior period.
 - d. We believe the significant assumptions or interpretations underlying the measurement or presentation of the supplementary information, and the basis for our assumptions and interpretations, are reasonable and appropriate in the circumstances.

Required Supplementary Information

40. With respect to the required supplementary information accompanying the financial statements:
- a. We acknowledge our responsibility for the presentation of the required supplementary information in accordance with accounting principles generally accepted in the United States of America.
 - b. We believe the required supplementary information, including its form and content, is measured and fairly presented in accordance with accounting principles generally accepted in the United States of America.
 - c. The methods of measurement or presentation have not changed from those used in the prior period.
 - d. We believe the significant assumptions or interpretations underlying the measurement or presentation of the required supplementary information, and the basis for our assumptions and interpretations, are reasonable and appropriate in the circumstances.

OMB Circular A-133

41. With respect to federal awards, we represent the following to you:
- a. We are responsible for understanding and complying with and have complied with the requirements of Circular A-133.
 - b. We are responsible for the preparation and presentation of the schedule of expenditures of federal awards in accordance with Circular A-133.
 - c. We believe the schedule of expenditures of federal awards, including its form and content, is fairly presented in accordance with Circular A-133.
 - d. The methods of measurement or presentation have not changed from those used in the prior period.
 - e. We believe the significant assumptions or interpretations underlying the measurement or presentation of the schedule of expenditures of federal awards, and the basis for our assumptions and interpretations, are reasonable and appropriate in the circumstances.
 - f. We are responsible for including the auditor's report on the schedule of expenditures of federal awards in any document that contains the schedule and that indicates that the auditor has reported on such information.

- g. When the schedule of expenditures of federal awards is not presented with the audited financial statements, management will make the audited financial statements readily available to the intended users of the schedule of expenditures of federal awards no later than the date of issuance by the entity of the schedule of expenditures of federal awards and the auditor's report thereon.
- h. We have, in accordance with Circular A-133, identified in the schedule of expenditures of federal awards, expenditures made during the audit period for all awards provided by federal agencies in the form of grants, federal cost-reimbursement contracts, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, food commodities, direct appropriations, and other assistance.
- i. We are responsible for complying with the requirements of laws, regulations, and the provisions of contracts and grant agreements related to each of our federal programs and have identified and disclosed to you the requirements of laws, regulations, and the provisions of contracts and grant agreements that are considered to have a direct and material effect on each major federal program; and we have complied, in all material respects, with these requirements.
- j. We have provided to you our interpretations of any compliance requirements that have varying interpretations.
- k. We are responsible for establishing and maintaining effective internal control over compliance requirements applicable to federal programs that provide reasonable assurance that we are managing our federal awards in compliance with laws, regulations, and the provisions of contracts and grant agreements that could have a material effect on our federal programs. Also, no changes have been made in the internal control system to the date of this letter that might significantly affect internal control, including any corrective action taken with regard to significant deficiencies, including material weaknesses, reported in the schedule of findings and questioned costs.
- l. We have made available to you all contracts and grant agreements (including amendments, if any) and any other correspondence with federal agencies or pass-through entities relating to federal programs.
- m. We have received no requests from a federal agency to audit one or more specific programs as a major program.
- n. We have identified and disclosed to you all amounts questioned and any known noncompliance with the requirements of federal awards, including the results of other audits or program reviews. We also know of no instances of noncompliance occurring subsequent to the end of the period audited.
- o. We have charged costs to federal awards in accordance with applicable cost principles, including amounts claimed or used for matching determined in accordance with relevant guidelines in the U.S. Office of Management and Budget Circular A-87, *Cost Principles for State, Local, and Tribal Governments*, and the U.S. Office of Management and Budget's, *Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments*.
- p. We have made available to you all documentation related to the compliance requirements, including information related to federal program financial reports and claims for advances and reimbursements.
- q. Federal program financial reports and claims for advances and reimbursements are supported by the books and records from which the basic financial statements have been prepared (and are prepared on a basis consistent with the schedule of expenditures of federal awards).
- r. The copies of federal program financial reports provided to you are true copies of the reports submitted, or electronically transmitted, to the respective federal agency or pass-through entity, as applicable.
- s. Except as noted in your audit, we have monitored subrecipients to determine if they have expended pass-through assistance in accordance with applicable laws and regulations and have met the requirements of Circular A-133.

- t. We have issued management decisions timely after the receipt of subrecipients' auditor reports that identified noncompliance with laws, regulations, or the provisions of contracts or grant agreements, and have ensured that the subrecipients have taken the appropriate and timely corrective action on findings.
- u. We have considered the results of subrecipients' audits and have made any necessary adjustments to our own books and records.
- v. We are responsible for and have accurately prepared the summary schedule of prior audit findings to include all findings required to be included by Circular A-133, and we have provided you with all information on the status of the follow-up on prior audit findings by federal awarding agencies and pass-through entities, including all management decisions.
- w. We have disclosed to you the findings received and related corrective actions taken for previous audits, attestation engagements, and internal or external monitoring that directly relate to the objectives of the compliance audit, including findings received and corrective actions taken from the end of the period covered by the compliance audit to the date of the auditor's report.
- x. We are responsible for and have accurately completed the appropriate sections of the Data Collection Form as required by Circular A-133, and we are responsible for preparing and implementing a corrective action plan for each audit finding.
- y. We have disclosed all contracts or other agreements with service organizations and disclosed to you all communications from these service organizations relating to noncompliance at the organizations.
- z. We have reviewed, approved, and taken responsibility for the financial statements and related notes.
- aa. We have disclosed to you the nature of any subsequent events that provide additional evidence with respect to conditions that existed at the end of the reporting period that affect noncompliance during the reporting period.

Michael Brown, County Administrator

Sue Vandecar, County Treasurer

COUNTY OF BARRY, MICHIGAN

Schedule of Adjustments Passed (SOAP)

For the December 31, 2014 Audit

In accordance with generally accepted auditing standards, we have prepared the following schedule of proposed audit adjustments, which we believe are immaterial both individually and in the aggregate. We are providing this schedule to both management and those charged with governance to receive their assurance that they agree that the amounts listed below are not material to the financial statements, either individually or in the aggregate, and do not need to be recorded.

	Effect of Passed Adjustment - Over(Under)Statement				
	Assets	Liabilities	Beginning Equity	Revenues	Expenses/Expenditures
General fund					
Error in prior year homeland security grant receivable	\$ -	\$ -	\$ 6,757	\$ (6,757)	\$ -
Effect of not recording a receivable for the prior year fourth quarter state tourism tax revenue and a related payable at 50% to the behavioral health authority	-	-	(37,522)	75,045	37,523
Total general fund	-	-	(30,765)	68,288	37,523
Misstatement as a percentage of total expenditures	0.0%	0.0%	0.2%	-0.2%	0.0%
Nonmajor governmental funds					
Prior year Title IV-D revenue recognized in the current year	-	-	(22,231)	22,231	-
Misstatement as a percentage of total expenditures	0.0%	0.0%	-0.6%	0.6%	0.0%
Governmental activities					
Cumulative effect of items noted above	\$ -	\$ -	\$ (52,996)	\$ 90,519	\$ 37,523
Misstatement as a percentage of total assets and deferred outflows	0.0%	0.0%	-0.1%	0.2%	0.1%
