5. Resolution 24-09 - A Resolution to amend Article III, of the Zoning Resolution of Bedford County to Provide General Guidelines for the Development of Small Private Cemeteries on Private Property-*Placed on the agenda by Rules & Legislative Committee (4-0).*

BEDFORD COUNTY BOARD OF COMMISSIONERS

Resolution No. 24-09

A Resolution to amend Article III, of the Zoning Resolution of Bedford County:

PURPOSE: To provide general guidelines for the development of small private cemeteries on private property.

WHEREAS; Title 13, Sections 13-7-101 through 13-7-401, of the Tennessee Code, empower a Tennessee Regional Planning Commission to recommend the enactment of a Zoning Resolution to a county legislative body and to provide for its administration, enforcement, and amendment. The Bedford County Regional Planning Commission thus certified and recommended the Zoning Resolution of Bedford County Tennessee to the Bedford County Commission on January 18, 1997, and

WHEREAS, the Bedford County Commission, as recommended by the Bedford County Regional Planning Commission, deemed it necessary in the promotion of public health, safety, morals, convenience, order, prosperity, and the general welfare of the County to enact the certified Zoning Resolution of Bedford County on January 13, 1998, and

WHEREAS, the Regional Planning Commission has, in its administrative capacity, recommended an amendment to the said Zoning Resolution of Bedford County and the Bedford County Commission has, after hearing evidence in support of said amendment, deemed it necessary to make such an amendment as required, for the said promotion of public health, safety, convenience, order, prosperity, and general welfare of the County.

NOW, THEREFORE BE IT RESOLVED by the Bedford County Commission meeting at Shelbyville, Tennessee on this the 12th day of September, 2023, that: The Bedford County Commission hereby amends the specifically described Article, Sections and Subsections of the Zoning Resolution of Bedford County, Tennessee by adding the underlined (underlined) words below, deleting the words struck through (~~struck through~~), and by following italicized instructions (*do this or that*) in parenthesis as follows:

Article III, Section 3.410 – Intentionally Left Blank **Private Cemeteries**

A. **Purpose; Goals:**

The purpose of this resolution is to provide general guidelines for the development of small family cemeteries on private property.

Its goals are:

1. **Ensuring safe ingress/egress to the cemetery from and to the cemetery from the public street.**
2. **To provide for an area(s) for permanent off-street parking in order to discourage the staging of visiting vehicles along the roadway.**
3. **To guarantee future permanent access to visiting family members – despite historical changes in ownership.**
4. **To eliminate acreage, bulk and setback barriers that would prohibit reasonable access and equity for the provision of private family cemeteries in most circumstances.**

B. **Authority:**

T.C.A. 46.8.103. Duty to protect graves or crypt disturbances, prohibited transfer of remains. All private cemeteries with an A-1 zoning classification must submit an application to the Board of Zoning Appeals for a conditional use permit.

C. **Requirements:**

Family burial grounds must be platted, recorded, deeded, and dedicated by covenant in perpetuity for the purpose of family burials. Conveyance of the property shall obligate the immediate and future buyer or buyers of the property to protect the gravesite or crypt from disturbance. The owner of the real property shall have the responsibility for taking appropriate action, prior to conveying the property, to ensure that the deed reflects the presence of the gravesite or crypt on the property. The deed shall also reflect the obligations of present and future owners to specifically prohibit the disturbance of land within a ten (10') perimeter of the burial grounds.

Family burial grounds may only be used for the internment of family members of the owner(s). The grounds must be adequately marked, maintained, and its boundaries delineated or fenced with reasonable pedestrian access or gate installed. In cases where the burial grounds are located in or on grounds also used for livestock grazing, husbandry, or are otherwise accessible, part or full time, by large animals, the boundaries of the burial grounds must be properly fenced in proportion to the type of livestock kept onsite.

a. **Commercial Burials:**

If an owner of a family burial ground wishes to commercialize existing private cemetery grounds in order to provide burial plots for non-family members, the cemetery must be licensed by the State of Tennessee and properly bonded in perpetuity, for the everlasting maintenance and care

of the grounds. In addition, the cemetery grounds must be enlarged to a minimum area of two (2) acres. As provided for in T.C.A. 46-2-107. Funds to Maintain Cemeteries, the bond for maintenance shall include:

- i. Clearing vegetation or debris as appropriate, planting and otherwise improving the premises, cutting the grass and raking and leaning cemetery plots at reasonable intervals.
- ii. Repairing and preserving the drains, water lines, roads, fences, or other structures.
- iii. Securing, maintaining, or reconstructing the necessary records of lot ownership and burials.
- iv. Resetting or straightening tipped grave markers, monuments, or memorials.
- v. Replacing damaged grave markers, monuments, or memorials.

In addition to the basic requirements of the family burial grounds, commercial burial grounds require a rezoning of the property to C-1 or a higher zoning classification unless included on the grounds of a place of worship/church. The developer shall submit a copy of the bond from a reputable company, and Bedford County Zoning Office shall be listed on the policy/bond as a co-beneficiary in order to receive copies of policy updates, and, for the purpose of ensuring perpetual coverage. If at any time the policy is allowed to lapse, the County may, at its discretion, pursue criminal and/or civil action in the enforcement of T.C.A. 46-8-103 if applicable.

- b. Area:
Family burial grounds shall have a total area of not less than ten thousand eight-hundred ninety (10,890.00) square feet or one quarter acre and must have greenbelt tax status with the Bedford County Assessor of Property.
- c. Ingress:
Family burial grounds shall be required to provide a minimum of fifty (50) feet of road frontage, along with a dedicated and improved ingress/egress to the burial grounds. Said frontage may be either through fee simple ownership of the burial grounds parcel, or, in lieu a permanent dedicated easement.
- d. Off-Street Parking:
Family burial grounds shall be required to provide room for at least two (2) vehicles to park without staging or interfering with traffic or any portion of the public roadway.
- e. Access:
Reasonable access shall not be denied by any immediate or future owner or owners to relatives by consanguinity, including a spouse, to any such one (1) or more deceased persons whose remains are buried in the burial grounds. All such relatives shall hereby have or enjoy any easement, right, or incident or appurtenant to, a family burial ground.

- f. **Burial Plots:**
Individual burial plots must be surveyed and be made part of the survey plat and recorded in a recommended formal data file with the Register of Deeds and the county Archives Department or Historical Commission. For genealogical research purposes, all information shall be made available to the public.

BE IT RESOLVED, this Resolution shall take effect immediately, the public welfare requiring it.

Dear Mayor Graham and County Commissioners:

On behalf of Bedford County Schools, we would like to make the following capital request for the 2023-2024 school year:

- **Liberty Expansion**—Funding is requested for 10 additional classrooms at Liberty School to eliminate several modular classrooms that house middle school classes. This additional space will also accommodate shifts in zoning, which will alleviate overcrowding and portables at Southside Elementary School. The estimated cost is \$5.2 million according to the architect. The funding of this request will eliminate Bedford County Schools portables and ensure a safe learning environment for our students.

Respectfully,

RE: FEE PROPOSAL FOR ARCHITECTURAL AND
ENGINEERING SERVICES FOR
LIBERTY ELEMENTARY SCHOOL CLASSROOM AND RESTROOM ADDITION

Dear Mr. Kleindienst:

Following is a fee proposal to complete Architectural and Engineering Services on the above project:

Proposed Scope of Work:

The project consists of an ten (10) classroom addition, including Men's and Women's restrooms at Liberty Elementary School. The addition will consist of a concrete slab on grade for the floor with load-bearing CMU exterior walls, steel deck, steel bar joist and metal deck for the roof. The existing building is not sprinklered and we will be required to provide a 3-hour separation between the addition and the existing building unless Bedford County School requires sprinklering the existing building.

We are anticipating stand-alone HVAC and electrical for the addition to not allow overload of the existing building systems. We also anticipate tying into the schools existing utilities for water and sewer. We are not anticipating expansion of the existing septic system. This will need to be evaluated by the Design Team once we proceed.

Services Provided:

- As-Built Drawings of existing conditions
- Architectural Services
- Bidding & Negotiation Services
- Construction Administrative Services
- Interior Design Services
- Mechanical, Plumbing and Electrical Engineering
- Structural Engineering
- Civil Engineering
- Coordination with BCS IT Support
- Coordination with BCS FF&E needs

RE: FEE PROPOSAL FOR ARCHITECTURAL AND
ENGINEERING SERVICES
BEDFORD COUNTY JUVENILE DETENTION CENTER
BEDFORD COUNTY, TENNESSEE

Dear Mayor Graham:

We appreciate you contacting us to provide Architectural and Engineering Services for the above project. Following is the anticipated scope of work and fee proposal for this project.

PROJECT SCOPE:

The project consists of the following:

- Create architectural and engineering drawings for a new Juvenile Detention Facility. In 2021 we completed a program session to lay out multiple options for a 10,000+- sf new juvenile facility. During the program exercise, we worked with the County to program the building functions, including the number of beds, classroom space, and administrative support space. Our service includes full architectural and engineering services and overseeing construction and the bid process for the Contractor.

PROPOSED ARCHITECTURAL AND ENGINEERING FEES:

Please note that our past arrangement with the County utilizes the State of Tennessee fee schedule for design services.

Proposed Architectural and Engineering fees utilizing the State of Tennessee standard fee calculation for a new project.

A/E Fee = based on \$1,418,320.00 construction cost (P = \$5,000,000.00)
 $35/\text{Log} (\$5,000,000.00) - 1.15 = 6.31\% \times \$5,000,000.00 = \$315,373.84$

We will utilize a special consultant for detention hardware and security cameras. The cost for these services is \$63,000.00. This will be added to the above fee for the project.

Total Fee = \$378,373.84

The fees below are not included but will be required for the project. We have included an anticipated fee based on previous projects for the below work. Once you decide to proceed with this project, we will obtain fee proposals from consultants to provide the below services to the County.

• Survey	=	\$ 6,000.00
• Geotechnical	=	\$ 7,500.00
• Material Testing (based on 10,000 sf building)	=	<u>\$ 30,500.00</u>
		Total: \$ 44,000.00

If you have any questions, don't hesitate to get in touch with me.

Sincerely,
KLINE SWINNEY ASSOCIATES

Est total cost: 287000.00

If you decide to go pole barn with wood post it would save you 10,000 to 20000.00 but the life of the building would be reduced. The way we have it cost out above is a 50 year structure. Jeff Sweeney I wouldnt go less than 16 feet tall. I would also recommend 48 deep if you have the depth because a truck with trailer is over 40 feet.
