BEDFORD COUNTY-REQUEST FOR QUALIFICATIONS

Bedford County, Tennessee, (hereafter referred to as "Bedford County"), invites interested and qualified construction managers (Respondents) to submit a Statement of Qualifications (SOQ) to provide construction management services with a guaranteed maximum price for a new Juvenile Detention Center.

The delivery method for this project is commonly known as "Construction Manager at Risk" (CMAR). CMAR consists of a preconstruction phase and a construction phase.

During the preconstruction phase, the Construction Manager ("CM") will collaborate with the Architect on the design, constructability, cost, and schedule of the Project, and develop a Guaranteed Maximum Price (GMP) proposal to construct the Projects.

Upon Bedford County's acceptance of the GMP, Bedford County will issue a notice to proceed to the CM for the construction phase. If Bedford County and the CM do not agree upon a GMP, additional Value Analysis shall occur amongst the CM, Architect, and Bedford County. If these further Value Analysis efforts do not provide an agreeable GMP, Bedford County will not proceed with the construction phase of the Project to the CM.

I. PROJECT DESCRIPTION

Bedford County is currently in the design phase for a new Juvenile Detention Center.

Kline Swinney Associates has been contracted for Architectural and Engineering services for the design of the project. This project will provide for an estimated 16-20 bed capacity at a new Juvenile Detention Center.

The selected Construction Management firm will work directly with the architectural team to review design and determine constructability, and schedule and prepare a Guaranteed Maximum Price for the Project. Substantial information is available through the design architectural team and additional information will be made available to the selected CM to assist their efforts during the design review phase.

The CM will be required to be licensed in the state of Tennessee with all required licenses and insurance necessary to construct a facility of the type contemplated in this project.

The following will additionally be included in the construction:

- A. Coordination with Furniture, Fixtures, and Equipment.
- B. Coordination with IT and Low Voltage Project Requirements

The estimated construction budget is \$5,000,000 for a new Juvenile Detention Center.

II. SCOPE OF CONSTRUCTION MANAGEMENT SERVICES

The work to be performed by the CM is specified in the preconstruction phase contract and construction phase contract documents. In submitting a Statement of Qualifications (SOQ), the Respondent represents that it is qualified and capable to provide all the requirements of both contracts. The following is a brief overview of the services the CM will be required to perform, if awarded both the preconstruction phase contract and the construction phase contract:

1. Review the initial cost estimate and provide continuous cost management to assure the design is within the budgeted cost estimate.
2. Participate in the review of the design and provide constructability reviews and analysis. Offer suggestions to improve the quality of the Project.
3. Provide construction planning, phasing, and scheduling during design review and through construction completion.
4. Develop and maintain a Project schedule that incorporates all tasks and approvals of all involved parties necessary to complete the Project within the contract durations.
5. Incorporate integrated project management practices into the Project.
6. Provide quality assurance.
7. Bring design-assist and design-build trade subcontractors into the design phase appropriate for the Project and as approved by Bedford County.
8. Provide cost estimating and value engineering. Reconcile CM cost estimates with Architect's cost estimates.
9. Coordinate with and provide information as required to regulatory agencies. Schedule and monitor required agency approvals.
10. Prequalify trade contractors to comply with the County's standards.
11. Develop Trade Contactor Bid Packages and receive bids in the most logical, competitive, and seamless manner.
12. Review the constructability of the construction documents and ensure that trade bid packages include a complete scope of work.
13. Submit a Guaranteed Maximum Price proposal.
14. Manage and administer the Project construction phase to achieve construction completion within the contract time and budget and with high quality workmanship.

III. CM SELECTION PROCESS

Bedford County will select the CM using a two-step process. The first step is this Request for Qualification (RFQ) from which Respondents may submit to Bedford County. Bedford County will review and score the SOQ's, conduct interviews, and may conduct reference checks. If Bedford County chooses the Construction Manager at Risk method of delivery, the best value scoring firm will be awarded a contract for preconstruction services. The judgement of Bedford County in this selection process is not subject to appeal.

If Bedford County does not award the preconstruction phase contract or the construction phase contract, the Proposers or CM will not be entitled to recover any monetary awards of any type whatsoever. Bedford County reserves the right to reject all responses to the RFQ. Bedford County may terminate the CM's preconstruction phase contract prior to the construction phase and seek competitive bids for the construction phase. There is no guarantee the construction phase contract will be awarded.
