

January 19, 2023

To our Member Towns and their Residents:

The Southern Vermont Communications Union District, a political subdivision of the State of Vermont, is a multi-municipal organization working to solve the longstanding rural broadband connectivity challenges in its fourteen member towns. Since forming in March of 2020, the CUD has grown to include Arlington, Bennington, Dorset, Landgrove, Londonderry, Manchester, Peru, Pownal, Rupert, Sandgate, Shaftsbury, Sunderland, Winhall, and Woodford.

SoVT CUD has had a very busy, and successful third year. The CUD worked with its partner, Consolidated Communications Inc. (CCI) to submit an application to the Act 71 Construction Grant Program, which was successfully funded in the amount of \$9,009,085. The CUD also signed a Master Services Agreement with CCI to begin construction of a fiber network in the CUD's service territory. In June, the CUD and CCI celebrated the [launch of Phase 1 of CCI's three-phase buildout in Bennington County](#), and in August, the [first customer was connected to the new fiber network](#). **All 14 towns in the CUD are expected to be covered by the end of 2023.**

CCI, in consultation with the CUD, has developed the following three-phase construction plan for the CUD territory:

- **Phase 1:** Now Complete! This phase is financed by CCI as part of their Rural Digital Opportunity Fund (RDOF) obligations and covered most of the Southshire, including Bennington, Woodford, Glastenbury, and part of Pownal and Shaftsbury.
- **Phase 2A:** This phase will be financed by the Act 71 Construction Grant. Set to begin in early 2023 and complete by the end of the year, this phase of the buildout will cover approximately 1,300 unserved and underserved addresses in the CUD's territory. Most of SoVT CUD's territory will be covered at the conclusion of this phase.
- **Phase 2B:** Funded by CCI, the second part of Phase 2 will begin in early 2023 and complete by the end of the year. This portion of the project involves a fiber build to an additional 619 unserved addresses and is part of CCI's RDOF obligations.
- **Phase 3:** The final phase will build out fiber to the "hardest 100" addresses in the CUD's territory, which has since been narrowed to the "hardest 17" addresses.
- Additionally, because of the strong partnership between the CUD and Consolidated, Consolidated has agreed to invest its own capital to cover an additional 4,689 served addresses across the CUD.

By way of closing, we would like to thank the many people and organizations who continue to support our work: the Department of Public Service; the Vermont Community Broadband Board; our elected officials; and the Bennington County Regional Commission. Most importantly, however, we would like to recognize the delegates that you have appointed to the CUD's Governing Board. They have dedicated their time and energy to solving an immensely difficult problem, and we would not have made the progress that we have made to date without them.

We meet the second and fourth Wednesdays of each month at 6:00 PM. Please join us, and learn more at sovtcud.net.

Sincerely,

Eric Hatch, Chair
Southern Vermont Communications Union District
