- IV. Any New Concerns
  - A. Jay asked if we were still at a standstill with the hotel because the town has now come into ownership of the barricades due to the length of time we had them. He asked how long the barricades need to remain in place. Rich commented that we are still finding doors open. Sean advised that the police are going up and closing them regularly. Chris asked if we bite the bullet and really secure them with plywood or extremely securing the building. Jay said it would be cheaper to purchase plywood for the doors rather than new door knobs. Sean said that it is a Town Council decision on buying plywood or extremely securing the building. Luke said some of the distressed properties in town have come down including 2 on McDonald Street and 1 at Mount Olive Heights.
  - B. Sean had no new concerns.
  - C. Jacob said that he received a complaint after the last election regarding the handicap parking at the Jewett School. The handicap spot is in the parking lot across the street from the school and wondered if we could create some temporary handicap spots on the side of the building by the door outside of the gymnasium. Sean said there were already some designated handicap parking spots in that location.
  - D. Chris had no new concerns.
  - E. Luke said that the French drain located at 15 Central Street should be tied into the storm water due to the amount of run off running down Central Street which causes issues in the colder weather.
  - F. Rich said that he has updated the website and google drive with updated safety committee minutes and agendas.
