

**RESOLVE #R-2022-21 FOR FILTER REPLACEMENT AT THE TIM EMERY
MUNICIPAL POOL**

Whereas, the Town voters at the November 2019 election voted for repair or replacement of the Tim Emery Municipal Pool at a cost not to exceed \$1,000,000, and

Whereas, the Town Pool Committee recommended the repair option as a means of getting the pool back in operation as soon as possible, and

Whereas, the pool has operated successfully for two seasons since the initial repairs were done at a cost substantially less than the authorized repair amount, and

Whereas, the filter media was replaced as part of the pool repairs, but not the pool filters themselves, and

Whereas, the filter system is backwashing more frequently than it should be due to the age of the filters, and

Whereas, the Town wishes to insure that the filter system is in good shape to operate in the upcoming season and beyond,

Therefore, be it resolved by the Town Council assembles to approve the removal of the old filters and replacement with new filters by Mike's Pool Service for the price of \$58,000 with work to be completed prior to June 1, 2022.
