

MANAGER'S REPORT  
March 12, 2020

Maine Maritime Meeting – Community & Economic Development Director Rich Rotella and I were invited to attend a meeting at the new Maine Maritime Training facility on March 11th. Governor Mills attended the meeting and we had the opportunity to see the improvements that MMA has made at the site and to hear about their programming plans. The Governor also did a brief walk of the waterfront and visited a few local businesses and was impressed with the way that the community at large has responded to the closure of the VERSO mill. We thank Maine Maritime for organizing this meeting and including Town staff.

Corona Virus – Public safety personnel participate in a weekly meeting with the Maine Center for Disease Control for updates on the situation. Internally we are discussing ways to continue necessary public services in the event that the virus expands to this region. In the meantime, we have posted information on our website & Facebook page as the CDC has updated information and we encourage people to follow that guidance.
