

MANAGER'S REPORT  
January 23, 2020

Public Transportation Advisory Committee – I attended the first meeting of the Public Transportation Advisory Committee and was asked to participate with the subcommittee to develop a workplan for the Committee for the year. Much of the discussion centered around the need for improved public transportation in rural areas and it will be helpful for us to be part of those discussions.

Thriving in Place Meeting – The meeting of the former Thriving in Place partners and Public Health Nursing was postponed due to weather. The meeting has been rescheduled for Thursday, March 5<sup>th</sup>.

Solar Committee – The Solar Committee will be meeting at 5 p.m. on Thursday, January 30<sup>th</sup> here at the Town Office. The public is welcome to attend.

Goals & Objectives Meeting – The Town Council Goals & Objectives meeting will be held on Thursday, January 30<sup>th</sup> here at the Town Office at 6 p.m. The public is welcome to attend.

Solar Array at Treatment Plant – We received the first electric bill that includes generation from the treatment plant solar array. Only 1280 kwh were credited to this first bill because it was considerably less than a month's worth of generation. I look forward to receipt of the next bill to see what has been generated. This is the worst time of year to be looking for solar credits but every little bit helps.
