

MANAGER'S REPORT  
January 28, 2021

Fire Response – Thanks to Fire and Police for their excellent response to the fire at Knoxview apartments last night. The damage was limited to just one apartment and there were no injuries. In multi-unit structures the difficulty in response increases – I am very proud of our personnel.

Spring Fountain – Public Safety, Code Enforcement, and administration will be meeting with the Town's attorney to discuss options to address safety issues at the Spring Fountain. The Town has also reached out to the State Fire Marshall's office in this process. A recent inspection identified serious deficiencies that have not been addressed.

COVID-19 – I am pleased to report that all emergency services personnel who wished to receive COVID-19 vaccine have had their first shots, with the second round scheduled in the near future.

Senior Rides Program – In order to 'get the word out' for the availability of rides to medical and dental appointments for Bucksport's seniors, we are sending out a postcard mailer with the information. This will reach all Bucksport mailing addresses in a format that people can put it on the refrigerator with a magnet. Not all of our seniors use the internet.
