

STREET POLICY COMMITTEE

AGENDA
Monday, December 13, 2021
5:30 PM

Conference Room

DISTRUBUTION:

Mayor Gary Grasso,
Chairperson
Trustee Al Paveza
Trustee Guy Franzese
Trustee Tony Schiappa
Evan Walter
Annmarie Mampe
Andrez Beltran
James Miedema
David Preissig

- 1. CALL TO ORDER**
- 2. ROLL CALL**
- 3. APPROVAL OF DECEMBER 14, 2020 MINUTES**
- 4. YEAR-END SUMMARY OF 2021 CAPITAL PROGRAM**
- 5. PRESENTATION OF THE 2021 BIENNIAL STREET SURVEY**
- 6. DISCUSSION OF FY2022 - FY2023 MOTOR FUEL TAX FUND REVENUE**
- 7. PRESENTATION OF 2022 ROAD PROGRAM RECOMMENDATION**
- 8. RESIDENT QUESTIONS AND COMMENTS**
- 9. ADJOURNMENT**

MINUTES
STREET POLICY COMMITTEE
Burr Ridge Village Hall Board Room
7660 S. County Line Road, Burr Ridge
Monday, December 14, 2020

CALL TO ORDER

Mayor Grasso called the meeting to order at 5:30 p.m.

ROLL CALL

Present in the Board Room: Mayor Grasso

Present via Zoom: Trustee Al Paveza, Trustee Guy Franzese, Trustee Tony Schiappa

Also Present: Interim Village Administrator Evan Walter, Public Works Director/Village Engineer David Preissig, and Assistant Finance Director Amy Nelson

APPROVAL OF JANUARY 13, 2020 MINUTES

Trustee Paveza made a motion to approve the minutes of January 13, 2020. The motion was **seconded** by Trustee Franzese and **approved** by a vote of 3-0; Trustee Schiappa was considered absent while still connecting via Zoom.

YEAR-END SUMMARY OF 2020 CAPITAL PROGRAM

Public Works Director David Preissig indicated that the 2020 Road and Improvement Program was completed in the amount of \$654,567, which was \$100,543 less than budget. The program included resurfacing on Devon Ridge Drive, Devon Ridge Court, Circle Ridge Drive, Circle Ridge Court, 81st Street, Ridgpoint Drive, Lake Ridge Drive, Lake Ridge Court, and Erin Lane. He stated that parking lot seal coating was identified this year for the parking lots at Village Hall, Police Station, and Public Works, but these contracts were waitlisted.

Due to advantageous pricing, Mr. Preissig noted that sidewalk and pathway repair was completed as well. Though it is from a separate fund, the pricing incorporated the project at 8750 County Line Road. He thanked the Partipilo family for allowing the Village to use some of their property for the project, which kept it under budget. Other work included pavement patching, crack sealing, and pavement marking throughout different streets in the Village.

Trustee Franzese thanked Mr. Preissig and Staff and extended a special thank you to the Partipilo family. Mayor Grasso mentioned how beautiful the Partipilo family property looks. Trustee Paveza agreed with Mayor Grasso.

DISCUSSION OF 2021 MOTOR FUEL TAX FUND REVENUE FORECAST

Public Works Director Preissig explained that the Motor Fuel Tax (MFT) had increased from 19 cents to 38 cents per gallon in July 2019. Mr. Preissig called attention to the detailed report by Assistant Finance Director Amy Nelson in the agenda packet for the analysis of MFT revenue. It was noted that the COVID-19 pandemic caused a decrease in both vehicle-miles-traveled and consumption of gasoline, which subsequently lowered the forecasted revenue from MFT.

PRESENTATION OF 2021 ROAD PROGRAM RECOMMENDATION

Public Works Director Preissig discussed the status of the Village's system-wide Pavement Condition Rating (PCR) on all of the streets as a benchmark for comparison. Overall, the PCR for Village streets is 85.2 out of 100, where 100 would be considered a perfect road. Around 75 PCR, the residents begin to notice and call Village Hall. Also, around 15 to 20 years, between resurfacings, residents start to call. Several of the collector roads have been resurfaced recently, so they are in good condition with a higher PCR that contributes more to the overall PCR. Additionally, with an aggressive crack-sealing program over the past five years, approximately 58% of the streets are crack sealed, and these streets overall have a PCR of 88.

Director Preissig expressed a growing concern for the Village streets. From 1999-2004 the Road Program spent approximately a million dollars each year to resurface more than 5 miles of Village roads each year. Asphalt prices, the major component of the resurfacing contracts, ranged \$35-44/ton. Recently, the Road Program has averaged fewer than two miles per year, while asphalt prices now average approximately \$68/ton. The roads that were resurfaced in 1999-2004 are at or exceeding the 20-year expected life. Director Preissig explained that maintaining the current 85.2 PCR would require an increase in capital improvement funds.

Based on the 2019 Street Rating Survey, the following list of streets were recommended for the 2021 Road Program at approximately \$978,200:

- Dartmouth Ct
- Lakewood Subdivision
 - Heather Dr & Ct
 - Lakewood Cir
 - Wedgewood D
- Braemoor (Part of Units 1 & 2)
 - Bennacott Ln
 - Park Ave South Of 83rd Street
- Braemoor Estates:
 - 81st St at Garfield Ave
 - Garfield Ave South of 79th Street
 - Park Ave North of 83rd St.
 - Kathryn Ct
- Old Oak Highlands:
 - Hamilton Ave South of 79th Street
 - Highland Ct
 - Old Oak Ct
- Village Hall, Police, and Public Works Parking Lots: Sealcoating and Striping
- Pavement Patching, Crack Sealing, Pavement Marking, Material Testing

Director Preissig called attention to the State's Rebuild Illinois Bond Fund (RBI) to be used by July 1, 2025. This new program allocates a total of \$695,880 to the Village, which will be received in six (6) installments over the next three (3) years. It is to be treated like MFT; however, the State requires that it be used on a substantial improvement in the transportation infrastructure. He identified two (2) streets toward which the RBI might be used: S. Frontage Road and 83rd Street. Director Preissig noted that nothing needs to be decided during the meeting for the RBI Funds, but

it is worth mentioning these additional funds. Separated pathway projects are not an eligible use of RBI funds.

Trustee Schiappa added the idea of a bicycle lane for use with the RBI funds. He questioned if we can add another transportation mode to the street and potentially receive more money for that purpose. Preissig explained that RBI is maxed for the Village already, allocated per capita.

Trustee Paveza asked about S. Frontage Road and 83rd Street and wondered if we put them in the same category as other streets. Preissig answered that RBI has specific requirements for how it can be used to resurface streets, based on traffic volume and a designed pavement life. Trustee Paveza asked if the State, IML, or anyone else has looked at MFT reduction as people move to electric cars. Assistant Finance Director Amy Nelson noted there had not been a specific mention of electric vehicles in the publications.

Mayor Grasso questioned if the RBI funds may change when the 2020 Census results come in. Ms. Nelson explained that the funds were allocated in summer 2019, and the funds would not be reallocated based on the 2020 Census results. She mentioned that we have already received two (2) installments, but we cannot touch the funds until the Village identifies a project.

Trustee Franzese agreed there are some great possibilities for the RBI funds. He suggested coming up with a list of potential projects to get started and provide added value to the Village. Mayor Grasso asked how soon we should act. Mr. Preissig said we have to identify a project by 2024. Trustee Paveza agreed that we should be ready to act.

Mayor Grasso asked for further explanation on the proposed Capital Improvements Funding projects over the next five (5) years.

Interim Village Administrator Evan Walter explained that during the early 2000s, the Village's accumulation of building permit fees accounted for the excess spending on roads, and the Village would not realistically see such revenue again due to the lack of available land for growth. In 2010, the Village reduced spending in the depths of a recession and only allocated the MFT allotment on the Road Program. Road Program expenditures in subsequent years went up as the economy improved, similar to the early 2000s. Money from permits is approximately \$300,000 per year instead of the \$1,000,000 from the early 2000s. As such, the Road Program spending decreased comparatively. Mr. Walter noted that the capital improvement fund will need to find a substantial amount of additional money to maintain its current 85 PCR throughout the Village.

Additionally, Mr. Walter stated that MFT funds do not have to be allocated to the Road Program. They can be used for other related expenses such as paying certain staff, purchasing salt, and other projects. The reallocation of MFT funds would allow the Village to open up the bidding to more contractors that cannot bid on MFT projects.

Mr. Walter noted some challenges moving forward on how the Village can maintain an 85 PCR. Traditionally, good roads assume a high priority in the Village's funding structure. As such, Staff has taken this approach to make sure there are funding options available, so this can stay a priority. Mr. Walter asked the Committee if the 85 PCR represented sustainable service level for the Village to maintain. He noted he did not need the answer this year but that the Committee and Village begin to consider the question.

Trustee Franzese agreed that it is a good question and that all Trustees should provide input with information from staff, and other experts.

Mayor Grasso asked when they need to start making these decisions. Mr. Walter noted that there would not be a major challenge to fund the 2021 Road Program, but that the Village should have the question answered in time for the 2022 Road Program. As such, sometime after the fiscal year closes, a long-term discussion should begin about the philosophy and impact of staying with an 85 PCR.

Mayor Grasso noted there should be a special meeting in summer 2021 to discuss the Road Program's priorities. He stated that the Road Program is important to him and many of the other Trustees. He would like to know more about the road quality and the funds expended if the Village maintains a PCR at 85, or adjusts to an alternate service level, whether that be greater or lesser.

Trustee Schiappa expressed his appreciation for the Road Programs. For the summer meeting, he agreed there is a need to look at the different scenarios Mayor Grasso mentioned. Trustee Schiappa suggested also 80, 75, or 70 PCR projections and how does that impact spending by the Village in 10 to 15 years.

Trustee Franzese noted that a summer meeting would allow the committee to see progress on the 2021 Road Program and evaluate any savings. He supports a summer meeting. Trustee Paveza concurred.

A motion to recommend approval of the 2021 Road Program as submitted by staff was made by Trustee Al Paveza. Trustee Guy Franzese **seconded** the motion.

Before votes, Trustee Franzese asked that all documentation be presented to the Village Board, including the map with the proposed projects from the PowerPoint presentation, the PCR chart that shows all of the roads in the Village with the ratings, and when the PCR chart will be updated. He suggested giving the Board more information so the Committee can explain the spending increases proposed over the next five (5) years.

The motion was **approved** by a vote of 4-0.

ADJOURNMENT

There was no public comment. There being no further business, a **motion** was made by Trustee Schiappa to adjourn the meeting. The motion was **seconded** by Trustee Paveza and **approved** by a vote of 4-0. The meeting was adjourned at 6:10 p.m.

Respectively submitted,

David Preissig, P.E.
Public Works Director/Village Engineer

M E M O

To: Street Policy Committee
From: David Preissig, P.E., Director of Public Works & Village Engineer
Date: December 10, 2021
Subject: Summary of Agenda Items for the December 13, 2021 Committee Meeting

1) YEAR-END SUMMARY OF THE 2021 CAPITAL PROGRAM

The Capital Project Funds consist of the Capital Improvement Fund (streets and buildings), the Sidewalk/Pathway Fund, the Equipment Replacement Fund, and the Stormwater Fund. The Capital Improvement Fund, related to streets, is discussed herein. In FY2022, this fund relied on the Motor Fuel Tax (MFT) and transfers from the Hotel/Motel Tax Fund to complete the Village’s annual road program. The 2021 Road Program, considering advantageous pricing and contractor availability, incorporated additional work on water main repair patching (Water Fund) and various sidewalk repairs (Sidewalk/Pathway Fund), and parking lot maintenance at public buildings. The total of Capital Improvement Program contracts completed for street maintenance, which extended to Sidewalk/Pathway Fund maintenance tasks, in FY2022 is \$880,496, \$10,122 under budget.

<u>Road Program 2021 (FY2022)</u>	<u>Final Cost</u>	<u>Budget</u>
Resurfacing, Patching, Sidewalk Repairs	\$ 769,099	\$ 765,618
Crack Sealing Streets Contract	\$ 58,955	\$ 60,000
Municipal Parking Lots Sealcoating	\$ 22,566	\$ 30,000
Pavement Marking Program	\$ 20,341	\$ 20,000
Material Testing Services	\$ 9,535	\$ 15,000
<u>Total Road Program</u>	<u>\$ 880,496</u>	<u>\$ 890,618</u>
	\$10,122 (under budget)	

2) BIENNIAL STREET RATING SURVEY

Every two years, staff performs an evaluation of each roadway segment in the Village. The purpose of the biennial study is to document current pavement conditions and identify deterioration by developing an empirical pavement condition rating (PCR) for each roadway. PCR data is compiled to determine project priorities and ensure that pavement maintenance is programmed in such a manner as to maximize benefits, minimize costs, and provide equity among stakeholders. The 2021 Street Rating Survey is included herein as *Appendix A*.

The quantitative evaluation method has been used to evaluate Village roadways since 2007 and is based upon observation and valuation of visible pavement distresses by severity and extent. A PCR value of 100 represents new pavement with no observable distress. A sample of the field data sheet, titled Pavement Condition Rating Form, is included as *Attachment B*.

The following chart highlights current (2021) pavement conditions Village-wide:

VILLAGE ROADWAYS			% OF TOTAL
Asphalt	930,400	sq yd	98.7%
Concrete	11,940	sq yd	1.3%
	942,340	sq yd	
PCR < 70	70,676	sq yd	7.5%
PCR 71 - 80	200,718	sq yd	21.3%
PCR 81 - 90	249,720	sq yd	26.5%
PCR > 91	420,283	sq yd	44.6%
SYSTEM-WIDE PCR	OVERALL PCR = 86.4		

At the Village's current funding levels, the estimated resurfacing cycle for Burr Ridge streets is currently between 16 and 26 years. Some older street pavement sections are progressing toward a rehabilitation stage.

3) DISCUSSION OF FY2022 & FY2023 MOTOR FUEL TAX FUND FORECAST

The Motor Fuel Tax (MFT) Fund accounts for the Village's share of the State imposed tax on gasoline. MFT is collected by the State and partially distributed to municipalities based on a specific formula. Beginning July 1, 2020, the MFT rate was increased to \$.387 per gallon of gasoline and \$.462 per gallon of diesel fuel. Use of MFT funds is restricted to a wide range of road maintenance and improvement programs authorized by the State through the Illinois Department of Transportation. The Village annually records transfers from the Motor Fuel Tax Fund to the Capital Improvement Fund to assist in the cost of the Village's Road Program.

For budgetary purposes, the Village uses the MFT revenue estimates provided by the Illinois Municipal League (IML). IML projects estimates of MFT collections based on economic projections that have historically been consistent with actual receipts. Most recently, IML's revenue estimates have been prepared based on factors such as the motor fuel consumption trends prior to the pandemic, any enduring effects of the pandemic on current fuel consumption, and the economic forecast in general. IML forecasts note that "MFT revenues

have recovered greatly from the pandemic caused lows in 2020 but remain well below the traditional level”. The following is provided as a projection of Motor Fuel Tax Fund forecasts.

	FY2022 Projection	FY2023 Estimate
Motor Fuel Tax	\$ 245,585	\$ 251,304
Transportation Renewal Fund	178,382	177,919
Total Motor Fuel Tax Revenues	\$ 423,967	\$ 429,223
Population	10,559	10,559
Per Capita Rate - Motor Fuel Tax	\$ 23.00	\$ 23.80
Per Capita Rate - Transportation Renewal Fund	\$ 16.90	\$ 16.85

Using the per capita estimates provided by IML and a Village population of 10,559, FY2022 revenues are projected to come in just slightly ahead of budget, while estimated FY2023 revenues will be relatively flat as compared to FY2022. MFT revenues are projected at \$423,967 for FY2022 and at \$429,233 for FY2023. Once the State certifies the 2020 Census numbers, the Villages should begin receiving MFT distributions based on a revised population of 11,192 next fiscal year, resulting in additional MFT revenues of approximately \$48,000.

4) PRESENTATION OF 2022 ROAD PROGRAM RECOMMENDATION

Utilizing the PCR tabulations from the 2021 Street Rating Survey as well as anticipated schedules for private site development and other Village capital improvements, staff develops a comprehensive plan for the Road Program and Capital Improvements budget. Staff has provided a smoothed five-year projected budget request while ensuring a sustainable pavement condition on the Village’s street network using a proactive pavement maintenance strategy. The Engineering Division has also projected 5-year street listing with a sustainable budget amount for future Road Program projects, included for consideration in *Attachment C*.

The proposed 2022 Road Program is recommended to include the following roadways:

- Cabernet Court
- Woodcreek Subdivision and Grant Court
 - Grant Court: Grant Street to the west end
 - 60th Place: Garfield Avenue to Woodcreek Drive
 - Woodcreek Drive & Court
- 82nd Street
- 89th Street
- Longwood Drive
- Lee Court
- Pavement maintenance including patching, crack sealing, pavement marking
- Quality assurance with material testing contract

The proposed 2022 Road Program would include construction in the amount of \$768,300. Motor Fuel Tax (MFT) revenue is forecasted approximately in the amount of \$429,223. Other Village revenue transfers such as Hotel/Motel funds are forecasted at approximately \$407,357. There is \$68,280 in contingency costs included in staff's cost projection.

ACTION: It is our recommendation that the Street Policy Committee direct staff to prepare plans, specifications, estimates, and funding resolutions to advance the proposed 2022 Capital Improvement Program as described herein.
