E. Appendix D Additions/Alternatives/Deviations

Monthly Reports

Waste Management will provide monthly reports detailing the volume of the refuse, recycle and yard waste material collected. For the recycle material, Waste Management will provide the volume of material and the rate of customer participation in the recycling program. The other recycling information requested is proprietary.

Customer Service/Complaint Program

Waste Management's Call Center is not available on Saturdays, but residents may use www.wm.com and Waste Management's Mobile Phone App 24/7 to access their account information. In 2017, Waste Management will also be releasing individual municipal websites that will provide specific municipal information to the residents.

Care and Disposition of Materials

In the event the Village designates a different facility than the facilities selected by Contractor, Waste Management may adjust the rates to account for any increases in tipping fees and transportation costs resulting from the change in facilities.

Prevailing Wages

Waste Management does not consider the collection services to be provided to the Village to be "fixed works" and, therefore, the services fall outside the scope of the Illinois Prevailing Wage Act, 820 ILCS 130/1, *et seq.*

Seasonal Subscription Yard Waste Service

Waste Management proposes a seasonal subscription yard waste service instead of the program listed in the RFP. This alternative would be a cleaner way to manage this service where residents can elect the service instead of opting out.

Residents participating in the seasonal subscription yard waste service will receive unlimited weekly landscape waste service (with the exception of landscape waste generated from professional landscapers). Collection will be provided from April 1 through December 15 on the same day as refuse and recycling. Residents will receive a 96-gallon cart for the collection of landscape waste. Additional landscape waste may be collected using either brown Kraft paper bags or resident owned containers with handles not exceeding 32 gallons and 50 lbs. Bundled brush will also be collected in this program. Bundles must be securely tied and not exceed four feet in length and two feet in diameter. Individual branches cannot exceed 3 inches in diameter.

The cost for the subscription yard waste service is \$160.00 for the season.

Appendix D con't, Additions/Alternatives/Deviations

Hazardous Waste and/or Electronic Recycling

"At Your Door" Special Collection

Waste Management will offer its exclusive "At Your Door" Special Collection program to the Village of Burr Ridge residents for a low monthly cost. The "At Your Door" Special Collection program provides a convenient way for residents to manage household hazardous waste and e-waste safely, easily and responsibly. The program is especially popular due to the current state of the electronics recycling in Illinois.

"At Your Door" Special Collection provides residents with a service to remove the difficult, sometimes hazardous and hard-to-recycle items that almost every household

accumulates. As North America's leading environmental solutions company, Waste Management makes it easy for residents to dispose of these items, by collecting the materials at their door- safely, easily and responsibly.

"At Your Door" Special Collection collects home generated special materials directly from residences within your community. Experience is key- the program has served hundreds of thousands of homes since 1995 and currently manages programs for dozens of municipalities in many states.

This program is not your usual household generated special material program, because this program is focused on recycling most of the materials collected. Communities across the country can take advantage of Waste Management's research and capability to collect and recycle an overlooked category of recyclables collected directly from the home.

Special Materials list includes hard-to-recycle items

Household chemicals

Automotive batteries and chemicals

Universal materials

Electronics

Paper, cans, bottles, cardboard and plastics are already part of most recycling programs. What about the other materials used in homes such as electronics, cleaning supplies and paint? How does a resident in your community dispose of these items?

By increasing collection of these items, the potential for water pollution and environmental hazards are further reduced. At Your Door focuses on collection and recycling of these additional materials, to prevent disposal in regular trash bins. Once collected, the program recycles most special materials including electronics, paints, batteries, lamps and motor oil! Most of these items are diverted from local landfills.

Combine the quantities of special materials collected by At Your Door that are sent to facilities for recycling with your traditional recyclables, such as, paper, aluminum cans, plastics, etc. and your community's recycling rates will increase.

The program is committed to helping municipalities meet local, regional and state recycling and diversion targets. Some states have specific recycling and diversion requirements including Florida's Energy Bill HB 7135, California's AB 341 and Storm water Diversion mandates. There is finally a solution for your need to dispose of hard-to-recycle home generated materials.

Our mission is to provide quality and convenient special material management services to federal, state and local jurisdictions.

Educating the Community

Our knowledgeable staff will work with each municipality to help develop a cost efficient and effective approach to public education support that will both build and sustain involvement throughout the duration of the program.

At Your Door offers a simple solution to any community's recycling dilemma. A home-based program is offered so residents simply contact At Your Door to schedule a collection. Then, they place their special materials into the collection bag and place it near their front door step or garage. The resident does not need to be home to participate, as they simply place the bag in a specific location on their collection date.

Materials Accepted with Waste Management's At Your Door Special CollectionSM

- **Automotive Products:** Antifreeze, batteries, brake fluid, motor oil and filters, fuels and more
- **Garden Chemicals:** Fertilizers, insect sprays, herbicides, pesticides and weed killers
- **Paint Products:** Caulk, glue, paint, stain, stripper, thinner, wood preservative
- **Household Chemicals:** Ammonia, heavy-duty cleansers, naval jelly, tile remover and strippers
- **Electronics:** PCs, MP3 players, iPods®, TVs, DVD players, cell phones, computers and monitors
- **Universal Materials:** Batteries, CFL bulbs, thermometers, fluorescent tubes and more

The "At Your Door" Special Collection program is available to residents for a monthly rate of \$1.25 per home, which is in addition to the monthly refuse rates. All residents must participate if the program is included in the contract.

Composting of Refuse

Residents have the option to compost biodegradable food waste. Compost material will be collected with yard waste from April 1 through December 15. Compost and yard waste material is collected in a 96-gallon cart provided by Waste Management. There is a monthly cart rental of \$3.50. Residents may sign up for the program by calling Waste Management Customer Service. Significant contamination may cause the suspension of the program.

Appendix D con't, Additions/Alternatives/Deviations

Alternative Proposal - (5) Year Contract Term

Waste Management proposes an alternate proposal for a (5) year contract term. The rate for this alternative proposal is:

96 Gallon Cart	May 2017 - April 2018	May 2018 - April 2019	May 2019 - April 2020	May 2020 - April 2021	May 2021 - April 2022
Base Refuse Collection Program Cost - 96-gallon cart	\$18.75	\$19.31	\$19.89	\$20.49	\$21.10
Additional Cost for "unlimited" refuse collection - 96-gallon cart	\$1.00	\$1.05	\$1.10	\$1.15	\$1.20
Additional Cost for twice per week pickup (refuse only)	\$13.13	\$13.52	\$13.93	\$14.35	\$14.78
Additional cost for base refuse collection program at back door (refuse only, top of drive)	\$13.13	\$13.52	\$13.93	\$14.35	\$14.78
Additional cost for base refuse collection program at back door twice per week (refuse only, top of drive)	\$35.45	\$36.51	\$37.61	\$38.74	\$39.90
Price deduction for choice not to receive unlimited landscape waste pickup	\$1.60	\$1.65	\$1.70	\$1.75	\$1.80

The monthly option rates are stated additions or deductions to the monthly base rate.

64 Gallon Cart	May 2017 - April 2018	May 2018 - April 2019	May 2019 - April 2020	May 2020 - April 2021	May 2021 - April 2022
Base Refuse Collection Program Cost - 64-gallon cart	\$18.68	\$19.24	\$19.82	\$20.41	\$21.02
Additional Cost for twice per week pickup (refuse only)	\$13.08	\$13.47	\$13.87	\$14.29	\$14.72
Additional cost for base refuse collection program at back door (refuse only, top of drive)	\$13.08	\$13.47	\$13.87	\$14.29	\$14.72
Additional cost for base refuse collection program at back door twice per week (refuse only, top of drive)	\$35.31	\$36.37	\$37.46	\$38.58	\$39.74
Price deduction for choice not to receive unlimited landscape waste pickup	\$1.60	\$1.65	\$1.70	\$1.75	\$1.80

The monthly option rates are stated additions or deductions to the monthly base rate.

All other rates quoted in this proposal apply.

Waste Management is also interested in discussing a 4-day collection option with the Village; the northern half of the Village would be serviced over 2 days and the southern half over two days. Since Waste Management would be in the Village (4) days instead of (2), this schedule would provide residents:

- quicker response time to requests
- more scheduling opportunities for 2x/week service

**REQUEST FOR PROPOSAL
SCAVENGER SERVICES:
REFUSE, RECYCLING AND LANDSCAPE WASTE**

Flood Brothers

Appendix D – Additions/Alternatives/ Deviations to the Requested Scope of Work

At Flood Bros Disposal Co., we are a company involved in local communities. We financially support many local organizations and charities, resulting from our belief in giving back to the local communities. Being a family owned and operated business, we extend our family presence to the communities we partner with.

Municipal properties within the Village that our listed out in the RFP will be collected on a schedule for both recycling and refuse at no charge to the Village. Containers will be provided for each location at no charge and will be fit to size of schedule provided by the Village. Other locations or services may be added or altered if requested by the Village officials. **Flood Bros will collect roll off dumpster from the Public Works facility when needed at no charge.**

We are truly committed to offering more sustainable practices to communities. With the commitment in place by the Village to offer a residents a solution for E-waste through the eWorks container at Public Works, Flood Bros would like to add to the collection process. **We would collect two (2) television (CRT) devices per household on an annual basis at no charge, with curbside collection.** Curbside collection will also be made available for other approved electronics at no charge. Residents will need to contact our office 24 hours prior to their collection day. In addition we will work

with the Village staff to implement and option for lightbulbs and battery collection from Burr Ridge residents and municipal facilities. Flood Bros will also collect household paint, sealers, varnishes and solvent containers from curbside collection at no charge, residents will need to contact our office prior to collection day.

With our commitment to collaborating with communities, Flood Bros proposes to collect refuse and recycling at Village sponsored events, including but not limited to Armed Forces Day, Run the Ridge 5k Race and Run for Veterans 5k race at no charge. We will also provide port-o-lets and handwashing units (including ADA Compliant) for necessary events at no charge. **Flood Bros will also participate in the**

Annual Jingle Mingle Parade by becoming the Presenting Sponsor (financial supporter) and our truck/family will be a participant in the parade route. We would also work with the Village staff in learning more ways we can support events like Concerts on the Green.

Flood Bros will provide a **15% Discount for Senior Citizens.** Residents will need to complete an application with proof of ID to confirm Burr Ridge resident and head of household over the age of sixty five (65).

Appendix D – Additions/Alternatives/ Deviations to the Requested Scope of Work

Residents of the Village of Burr Ridge will be allowed in our collection process to dispose of up to **three (3) household bulk items per week**.

Residents that do not select the unlimited refuse, recycling and yard waste option will have other limited options with our proposed alternative. Flood Bros will provide two (2) options for residents to choose from.

- A yard waste sticker sold through our website, phone/email to office or through local stores. This **yard waste sticker will be \$2.20** and a sticker will need to be affixed to the approved yard waste disposal method.
- Yard waste subscription program, where residents will be provided a 95 gallon yard waste cart for collection purposes for a **seasonal price of \$190.00**, the program will be limited to the collection of the cart and one approved bag, any other materials will require a sticker.

Flood Bros will designate one (1) week in April and one (1) week in November for residents to dispose of unlimited yard waste at no additional charges. This will include residents that are not involved in the unlimited seasonal yard waste collection.

Composting is a growing method of managing organic materials. As part of our commitment to the planet, our organic waste disposal program will assist the residents of Burr Ridge to manage their household organic materials. This will help divert a portion of their household waste from landfills, helping to maintain a healthy environment. We would like to highlight a new service collection to the residents of the Village of Burr Ridge. **Flood Bros was awarded a \$250,000 State of Illinois Food Scrap Grant for Environmental Sustainability. We have recently developed a new facility to manage organic composting.**

This initial program will be a voluntary, subscription based with a monthly subscription charge for residential households. The subscribers will receive a cart for curbside food scrap collection. The collection schedule will be on a bi-monthly or weekly schedule, pending proper outline of the program with Village officials after a review process. We will work to find the appropriate collection process based on the volume of residents who opt in to the new program.

Education for this new program will be key and provided throughout the course of the contract. We will offer educational programs for residents through various forms of communication. We will look to offer an informational course at a Village location.

In addition to this food scrap program offered, we are offering an annual Pumpkin Pitch for residents to dispose of their pumpkins annually at no charge in utilizing a Flood Bros issued container at an approved Village location.

Appendix D – Additions/Alternatives/ Deviations to the Requested Scope of Work

Our carts will include new electronic tags (RFID) in our refuse and recycling carts in the Village of Burr Ridge. This new technology allows us to track utilization at the household level to better understand, plan and meet the needs of a diverse community. This investment that Flood Bros is taking on is estimated around \$200,000.

Flood Bros would like to offer the residents of Burr Ridge in a joint effort to finding a cure for cancer with a 65-gallon “Pink Cart” for municipal refuse collection. This cart can be purchased through Flood Bros and for every cart purchased, Flood Bros would take a portion and donate to the American Cancer Society’s breast cancer awareness program on behalf of the Village of Burr Ridge. Funds will be directed to the local ACS chapter.

Flood Bros is pleased to submit an alternate proposal for the Village of Burr Ridge to consider. This proposal incorporates the multi-family refuse and recycling collection into the single family collection program. The multi-family solid waste collection program which includes all apartment buildings, complexes and condominiums, will provide services to communal garbage collection locations. Outlined in the RFP are five (5) Homeowner Associations: Carriage Way Condos, Braemoor Condos, Deer Run Condos, Burr Ridge Village Center and Burr Ridge Place.

Over the past few years, Municipalities are incorporating the multi- family properties into their single family solid waste collection franchise. Municipalities are experiencing the challenges of multi-family properties providing quality and cost affordable recycling collections for their tenants and condominium owners. Flood Bros will address these savings with reduced refuse collection cost for all properties.

Flood Bros is proposing to provide collection of solid waste and free recycling collection at a rate of \$8.50 per unit per month. This will be the matrix rate for year one with annual CPI increases. Every location will see an immediate savings from their current invoice.

The Village should understand the number of solid waste vehicles from numerous solid waste haulers is extremely high with collections in multi-family residential areas.

The positives are high for the incorporation of apartments and condominiums into the current single family collection agreement. The incorporation of these properties under the Village's franchise ordinance voids all current service contract other haulers may have with these properties upon passage by the Village Board.

Flood Bros would propose the Village to consider a five (5) year proposal. The proposed years of four (4) and five (5) would see basic service rate to be increased at 2.5%. This would also be the increase rate for the multifamily properties.

Flood Bros Disposal Co. does not have deviations or non-negotiable items for this contract.

**REQUEST FOR PROPOSAL
SCAVENGER SERVICES:
REFUSE, RECYCLING AND LANDSCAPE WASTE**

**APPENDIX D
ADDITIONS/ALTERNATIVES/DEVIATIONS**

Please attach any and all additions/alternatives/deviations to the requested Scope of Work and provide a detailed justification for each item listed. If not listed, the Village shall assume that the contractor shall fully comply with all specifications contained in the Scope of Work. The attached list shall be marked **"Appendix D – Additions/Alternatives/Deviations to the Requested Scope of Work."**

1. The contract term would be 5 years with the option to extend the contract for an additional 5 years with mutual consent of both the Village and Advanced Disposal.
2. The prices quoted assume that all HOA's that are eligible to participate in the franchise agreement would opt in. In other words, all 3,860 units would be included in the franchise.
3. Based on the discussion and desires of the Village that no "extra" refuse be left and not collected; the service level to each eligible unit would be a weekly take all refuse collection service with weekly unlimited recycling collection service. Each eligible residence would receive their choice of cart size; 65 or 95-gallon refuse cart and 65 or 95-gallon recycling cart.
4. We have provided an alternate rate for those HOA's that do not utilize the curbside yardwaste collection service. The entire HOA's must opt out of yardwaste collection in order to receive this rate.

5. The prices quoted are first year rates. These rates would be increased annually on the anniversary date of the contract beginning the first anniversary date in 2018. The annual increase would be 3%.
6. In order to provide the most cost effective rate, the weekly collection for refuse and recycling would be done over four days; Monday, Tuesday, Thursday and Friday. These days were chosen to accommodate the 2X/week refuse collections.
7. We are flexible on the start date and we would expect the start date to be 90-120 days after the award date in order to have the new trucks, carts and billing information in place prior to the start of collection.
8. Section Q requires that we name the village as an additional insured on all policies; we will be able to include the village as an additional insured on all policies except for workers' compensation as this coverage is for benefits to employees on behalf of employer's, not third parties. In addition, this section requires notice of cancellation or modification of policies. Carriers will not provide notice of modification; our policies cover the operations of the entire company and change constantly to meet company needs. We will be able to provide notice of modifications specific to this agreement.

E: ADDITIONS, ALTERNATIVES AND DEVIATIONS

SERVICE SCHEDULE

As we have mentioned within the proposal, we would provide the Village of Burr Ridge with a three or four day per week service schedule.

PRICING ALTERNATIVES: APPENDIX D

As per Appendix D, we have also provided two additional price proposals (following pages 29-30, section E.2).

LRS will provide a base refuse and recycling program with an opt-in yard waste/organics program. We believe that the opt-in program allows us to provide the best economic value to the customer. The proposed opt-in program allows us to keep the base fee down while only charging Village residents for the yard waste/organics services they utilize.

We anticipate that less than 1/3 of the residents will utilize the yard waste program and within that group, landscape waste won't be out every week over the 8 ½ month period resulting in a resident paying for more service than they need. For the occasional yard waste user or food scrap recycling only user, we have also provided a sticker program so that the resident can have a low cost option.

LRS will provide one trash cart, one recycling cart and upon request one 35g yard waste/organics cart. Please see our Alternate proposal options on the following pages.

PROVIDED CARTS

We will provide Burr Ridge branded carts in LRS colors of light blue for recycling, dark blue for waste on the initial delivery. Any replacement carts will be standard Lakeshore Recycling Systems carts.
