

Healthcare feels different here.

Calhoun County and Premise Health are bringing you a better healthcare experience. As a Health Care Plan Opt Out Member, you have access to free and dedicated services within the health center. Our Health Center is not open to the public like other community clinics. This leads to a personalized experience, shorter wait times and ultimately, better care.

These are the services available and free for you as a Health Care Plan Opt Out member:

- Annual HRA
 - **\$100 annual incentive for the blood draw and follow up**
- In person and virtual Wellness Programs
- Flu Vaccine
