

# September 2021

## Wellness Program Initiative

### FALL INTO FITNESS

It's that time of the year again. Get back on track and participate in the Fall into Fitness Program. You must complete at least **30 minutes of exercise at least 4 times per week** to get a point on your ticket to wellness.

Here are some ideas:

-  Try a 30-minute lunchtime workout. You'll lose the stress and anxiety, and get a boost in energy. Stepping away from work helps clear your mind, helps you refocus.
-  Go to a park near you. Calhoun County offers amazing trails. Follow this link for more information on County Parks: <https://www.calhouncountymi.gov/departments/parks/index.php>
-  Rake the yard.
-  Go to an orchard, pick your own apples.
-  Go for a walk or bicycle ride after dinner, enjoy the sunset.
-  Go to a pumpkin patch, walk around to find the perfect pumpkin.
-  Create outside fall décor. Take a few pictures and email them to Marie at [mstamand@calhouncountymi.gov](mailto:mstamand@calhouncountymi.gov)

**Weekly Log Sheet attached**

# Fall into Fitness

Sun	Mon	Tue	Wed	Thu	Fri	Sat
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30		

# Sweet Slumber ..zzzzz

People will often cut back on their sleep for work, for family demands, or even to watch a good show on television. If not getting enough sleep is a regular part of your routine, you may be at an increased risk for obesity, diabetes, high blood pressure, coronary heart disease and stroke, poor mental health, and even early death. Even one night of short sleep can affect you the next day. Not surprisingly, you're more likely to feel sleepy. On top of that, you're more likely to be in a bad mood, or be less productive at work.

Keep track of how many nights during the month of September that you slept at least 7 hours.

Submit your calendar no later than October 8th to be entered in a drawing for an awesome new pillow.

# Sleep Tracking

26	27	28	29	30		

# Cindy's Resistance Band Leg Exercises

**How to do resistance band leg lifts:** Place a resistance band around your ankles and stand with your feet hip-distance apart. Tightening your glutes and thighs and balancing your weight on the right leg, lift your left leg out to the side, tightening the band as much as you can without shifting your hips. Moving with control, bring your left foot back to the starting position without letting your foot hit the ground. Continue for 10 reps before switching sides.

**How to do glute kickbacks:** Place a resistance band around your ankles and stand with your feet hip-distance apart. Tightening your glutes and tucking your pelvis in, kick your left leg out behind you until the band is tight. Pause at the top before bringing your left foot back to the starting position. Continue for 10 reps before switching sides.

**How to do a lateral band walk:** Place a resistance band around your ankles and stand with your feet hip-distance apart with a slight bend in the knees. Engaging your outer thighs and slightly hinging at the hips, step your left foot to the side so your feet are now shoulder-distance apart. Then step your right foot to the left, bringing your feet hip-distance apart and keeping the band tight. Alternate stepping your feet out and in for about 10 reps on each side.

**How to do a diagonal band walk:** Place a resistance band around your ankles and stand with your feet hip-distance apart with a slight bend in the knees. With a slight hinge at the hips, take a wide step up to the right side with your right foot while keeping the band tight around your ankles, then take a wide step up to the left side with your left foot. Continue four steps ahead before reversing your steps to walk yourself back to where you started.
