

Carbon County Senior Centers

Senior Centers are focal points for services for older persons. They are community facilities in which people meet with one another to fulfill many social, physical and intellectual needs. Programs and activities support independence and encourage involvement in the community. In addition, a hot or cold lunch is served daily. We hope our doors open up new avenues that create excitement, warmth and friendship. Senior Centers are open approximately 5 hours a day, Monday through Friday. Please call in advance to make a meal reservation. A donation of \$2.00 is appreciated. Transportation is also available.

Anne Horrigan, Senior Center Services Director
