<u>Minutes:</u> The Committee reviewed the meeting minutes of October 27, 2015. **MSC Keehan/Ramos to approve the October 27, 2015 meetings, all voting aye.**

<u>Budget</u>: The Committee reviewed the October 2015 budget report. It was noted the November 2015 report was not available as the month end process was not finished by the Finance Department. Chief Auxier reviewed the salaries and benefits line items and said we will have a savings of around \$100,000 for the year. This is due to three retirements and one person who left and replacements were not hired right away. Once replacements were hired their starting salary was less than the person who left. Chief Auxier noted we will exceed our overtime budget due to various reasons. However, the salary savings will cover this. Chief Auxier discussed the rest of the budget areas and note that the Dive Team budget will exceed the budget by around \$10,000. However, the overall budget will have a savings and he expected to return around \$120,000 - \$125,000 and this will help offset the purchase of the unbudgeted fire truck. MSC Keehan/Stevenson to approve the October 2015 budget report and place on file, all voting aye.

<u>Activity Reports:</u> The Committee reviewed the November activity and automatic aid reports. **MSC Stevenson/Keehan** to approve the November 2015 activity and automatic aid reports, all voting aye.

- 1. Clovis Grove PTO play equipment donation: The Clovis Grove PTO has donated a piece of play equipment to be installed at Clovis Grove park by city staff. The piece will arrive in the next week or so. There is a small chance that it may be installed yet this fall.
- 2. Loop the Little Lake Project Update: Staff has met with City of Neenah officials about the route to be designated on the streets on Doty Island that will connect the two new pedestrian bridges. A map will be produced and each community seeks approval of the preferred route by running it through the appropriate oversight committee, etc. It was pointed out that people will be free to use whatever streets and sidewalks they want to get between the bridges, but that it made sense that one route would be officially signed and designated.
- 3. **Gilbert Site Project and Sponsorship Update:** Light pole sponsorships have been popular as of late. Approximately \$7,000 has been raised so far and some poles are still available. To date, around \$35,000 has been received as sponsorships for the project.
- 4. Location and Time for December Board Meeting and Holiday Gathering: It was determined that the Board would try to meet jointly with the Plan Commission to discuss and take action on the designated bike/pedestrian route through Doty Island as part of the Loop the Little Lake project. The preferred meeting time was 4:00pm on Tuesday, December 8. After meeting jointly, the Park

Board would conclude its meeting on the first floor at City Hall, followed by a holiday gathering at Wiseguys.

5. **Results of Winz Park Survey:** 16 people completed an online survey relative to Winz Park. 142 notices were mailed out. The Board was somewhat disappointed with the response, but felt that at least some worthwhile information was obtained. Several comments focused on the desire that whether or not the park remains, the area should be made more aesthetically pleasing. Responses were pretty evenly split on whether or not it was important to continue operating the park. Ten of fifteen respondents stated they did not use the park. Question 3 asked if the park were eliminated, what do you see as alternatives. Nine out of sixteen people thought that either no alternative was needed or some or all of the facilities could be replaced in nearby Jefferson Park. Respondents were evenly split on whether it was worth \$150,000 to repair the recreational surface.

G. ACTION ITEMS

1. Recommend to discontinue the consideration to pursue fully rehabilitating the recreational surface at Winz Park and review possible alternatives: The Board held a lengthy discussion on all the information and public feedback it has received pertaining to Winz Park. The possibility of holding off on action until next month was discussed. It was the consensus feeling that they have been very deliberate and inclusive of public input on this matter. It was felt that a decision needed to be made on the future of the site in large part because Menasha Utilities needed to take steps to maintain the deck/roof of the public water reservoir that falls under its responsibility. Members felt that this was a two step process. First, a decision should be made about continuing recreation on top of the reservoir. Second, could at least some of the lost recreation opportunity be made up. The second step would be an ongoing process and a decision on what would need to be made up in the future. Chr. D. Sturm could not see the logic in spending a considerable amount of money to place a new recreation surface over what is known to be a cracked and subpar concrete deck surface. Motioned by S. Pawlowski, seconded by L. Hopwood to discontinue recreational use and maintenance of Winz Park and return complete facility responsibilities to Menasha Utilities. PRD Tungate stated that CA Captain believed that the Board had the authority to take this step because of the non-traditional nature of the park and that MU has always had primary responsibility of the facility. Motion carried unanimously.

CDD Keil introduced the property and explained that the reason the property owner is requesting a rezoning is due to a state highway setback that would render the development unfeasible. Commissioners discussed the following:

- The location of stormwater facilities to serve the site
- The need to have a public trail easement portrayed on the PUD plan as approved by the Development Agreement between the City of Menasha and Woodland Hills Development, LLC (approved 8/3/15)
- The locations of sewer and water easements on the property
- The ownership of existing roadway

TO: Common Council FROM: Mayor Merkes

SUBJECT: Finance Department Security Issues

DATE: 17 December 2015

Several years ago, security walkthrough was conducted at City Hall by the Police Department in order to identify safety and security vulnerabilities within and around the building. Numerous recommendations were made in a report given to the safety committee. One of those recommendations was to increase security in the finance area. This area of City Hall handles money and operates essentially as a banking facility. Due to the inherent risks associated with being a financial institution, there are best practices that should be implemented to provide a safe and secure work environment.

Best practices recommend several things. The ultimate goal is to delay an intruder/hostile person long enough to allow the employees to react and get to safety. This is often accomplished by creating barriers (visual and physical, controlling access, and having appropriate response policies in place.

The employee door in the finance area lobby should be secured to prevent unwanted entry into the employee work area. The current counter height is too low allowing someone to easily go over it to access an employee. Furthermore, the current setup allows someone to easily be able to reach over the counter and grab cash, etc., from the drawers. The best option to remedy this situation, without having to incur the expenses of completely rebuilding the counters and replacing the furniture/seating for the employees is to place a partition between employees and those wanting to gain access.

As a facility that deals with the public, we will be moving forward with installing a glass partition with 8" openings that allows for face to face communication and full natural surveillance for both customers and employees. In addition, this accommodates the ADA counter height requirement as well as the regular height counters. The 8" gap in the glass allows for easy communication and exchange of cash/papers/etc., yet makes it physically challenging for someone to try and climb or reach through. This option allows for the use of the current counter setup without having to make major renovations to the facility.

RE: First Amendment to Development Agreement between Menasha Downtown Development, LLC

and City of Menasha

The proposed amendment to the development agreement is for the purpose of accelerating the completion of curb and sidewalk restoration associated with the office tower and the Broad Street ramp construction. Section 2.7 of the development agreement obligates the city to make certain improvements including "restoration and/or repair of all streets, sidewalks, gutters and curbs, adjacent to Building on Mill and Main Street and on the south side of Broad Street, necessary as a result of construction of the Project..." It is now proposed to assign this responsibility to the developer so as to enable the restoration work to take advantage of the favorable weather conditions we are experiencing. If the amendment is approved, restoration work will commence next week and be completed shortly thereafter.

Accelerating the restoration work will benefit both the developer and the city. Completing the restoration now will create a safe and orderly surface condition around the buildings. The developer's plan is to initiate occupancy of the office tower by April 15 with the tenants bringing in the necessary furniture, fixtures and equipment to operate their businesses. Employees are to follow the first week in May. Late winter conditions may not enable the grading and excavating necessary for the restoration work to take place consistent with that schedule, thereby creating unfavorable or hazardous conditions around the buildings for the tenants. The city will benefit from the public sidewalks being open now to provide circulation and full access to our downtown businesses.

This amendment will have negligible fiscal impact on the city. The city is already obligated to pay for the work. This amendment will simply oblige the developer to perform the work.

I urge you to support the proposed amendment.

FIRST AMENDMENT TO DEVELOPMENT AGREEMENT

THIS FIRST AMENDMENT TO DEVELOPMENT AGREEMENT is made by and between **MENASHA DOWNTOWN DEVELOPMENT**, **LLC** ("Developer") and **CITY OF MENASHA**, **WISCONSIN** ("City").

WHEREAS, Developer and City are parties to that certain Development Agreement recorded in the Winnebago County Register of Deeds on October 14, 2015 ("Development Agreement"); and

WHEREAS, Developer and City desire to make a slight modification to particular provisions of the Development Agreement to allow the project to be completed in a timely manner;

NOW THEREFORE, in consideration of the mutual agreements contained herein, and for additional consideration, the receipt and sufficiency of which are hereby acknowledged, the parties do hereby agree as follows:

- 1. The following paragraph is hereby added to the Development Agreement:
 - "1.10. <u>Restoration of Curb, Sidewalks, and Gutters</u>. Developer shall be responsible for restoring the curb, sidewalks, and gutters adjacent to the Building on Mill and Main Streets and on the south side of Broad Street in accordance with City specifications."
- 2. The words and numbers "One Million Seven Hundred Fifty Thousand Dollars (\$1,750,000.00)" are deleted from the first sentence in paragraph 2.1 of the Development Agreement and are replaced with the following words and numbers: "one million eight hundred eight thousand nine hundred forty and 00/100 dollars (\$1,808,940.00)."
- 3. The following language is hereby added to the conclusion of the first sentence in paragraph 2.1 of the Agreement:
 - "...and (iii) City shall pay Developer \$58,940.00 upon the restoration of the curb, sidewalks, and gutters adjacent to the Building along Mill and Main Streets and the south side of Broad Street (the "Third Incentive Payment")."
- 4. The first sentence of paragraph 2.7. (viii) is hereby deleted and replaced with the following language:
 - "restoration and/or repair of all streets adjacent to Building on Mill and Main Streets and on the south side of Broad Street, necessary as a result of the construction of the Project."
- 5. Except as set forth herein, all terms and conditions of the Agreement are unchanged and remain in full force and effect.

IN WITNESS WHEREOF, the parties have set their hands to this First Amendment to Development Agreement as of the date and year referenced below.

Except as provided in subd. 2. b., members shall be appointed under subd. 3.
- b. Two additional members, who represent the Wisconsin hotel and motel industry, shall be appointed to the commission by

- 3. Members of the commission shall be appointed by the principal elected official in the municipality and shall be confirmed by a majority vote of the members of the municipality's governing body who are present when the vote is taken. Commissioners shall serve for a one—year term, at the pleasure of the appointing official, and may be reappointed.

Any amount of room tax collected that must be spent on tourism promotion and tourism development shall either be forwarded to the commission for its municipality or zone if the municipality has created a commission, or forwarded to a tourism entity.
- 3. A commission shall use the room tax revenue that it receives from a municipality for tourism promotion and tourism development in the zone or in the municipality.
- 4. The commission shall report annually to each municipality from which it receives room tax revenue the purposes for which the revenues were spent.
- 5. The commission may not use any of the room tax revenue to construct or develop a lodging facility.
- 6. If a municipality issued debt or bond anticipation notes before January 1, 2005, to finance the construction of a municipally owned convention center or conference center, nothing in this section may prevent the municipality from meeting all of the terms of its obligation.
- 7. Notwithstanding the provisions of subds. 1. and 2., any amount of room tax revenue that a municipality described under s. 77.994 (3) is required to spend on tourism promotion and tourism development shall be forwarded to, and spent by, the municipality's tourism entity, unless the municipality creates a commission and forwards the revenue to the commission.
- 8. The governing body of a tourism entity shall include at least one owner or operator of a lodging facility that collects the room tax described in this section and that is located in the municipality for which the room tax is collected. Subdivision 4., as it applies to a commission, applies to a tourism entity.
- (dm) Beginning with the room tax collected on January 1, 2017, by a municipality that collected a room tax on May 13, 1994, as described in par. (d) 2., and retained more than 30 percent of the room tax collected for purposes other than tourism promotion and tourism development, such a municipality may continue to retain, each year, the greater of either 30 percent of its current year revenues or one of the following amounts:
- For fiscal year 2017, the same dollar amount of the room tax retained as the municipality retained in its 2014 fiscal year.

- 2. For fiscal year 2018, the same dollar amount of the room tax retained as the municipality retained in its 2013 fiscal year,
- For fiscal year 2019, the same dollar amount of the room tax retained as the municipality retained in its 2012 fiscal year.
- For fiscal year 2020, the same dollar amount of the room tax retained as the municipality retained in its 2011 fiscal year.
- For fiscal year 2021 and thereafter, the same dollar amount of the room tax retained as the municipality retained in its 2010 fiscal year.
- (e) 1. Subject to subd. 2., a district may adopt a resolution imposing a room tax under par. (a) in an amount not to exceed 3% of total room charges. A majority of the authorized members of the district's board may vote that, if the balance in a special debt service reserve fund of the district is less than the requirement under s. 229.50 (5), the room tax imposed by the district under this subdivision is 3% of total room charges beginning on the next January 1, April 1, July 1 or October 1 after the payment and this tax is irrepealable if any bonds issued by the district and secured by the special debt service reserve fund are outstanding. A room tax imposed by a district under this subdivision applies within the district's jurisdiction, as specified in s. 229.43, and the proceeds of the tax may be used only for the district's debt service on its bond obligations. If a district stops imposing and collecting a room tax, the district's sponsoring municipality may impose and collect a room tax under par. (a) on the date on which the district stops imposing and collecting its room tax.
- 2. In addition to the room tax that a district may impose under subd. 1., if the district's only sponsoring municipality is a 1st class city, the district may adopt a resolution imposing an additional room tax. The additional percentage of room tax under this subdivision shall be equal to the percentage of room tax imposed by the sponsoring municipality on the date on which the sponsoring municipality agrees to stop imposing and collecting its room tax, as described under s. 229.44 (15). A district shall begin collecting the additional room tax imposed under this subdivision on the date on which the sponsoring municipality stops imposing and collecting its room tax. A room tax imposed by a district under this subdivision applies only within the borders of the sponsoring municipality and may be used for any lawful purpose of the district.

III of ch. 77, apply to the tax described under subd. 1.
- 3. From the appropriation under s. 20.835 (4) (gg), the department of revenue shall distribute 97.45% of the taxes collected under this paragraph for each district to that district and shall indicate to the district the taxes reported by each taxpayer in that district, no later than the end of the month following the end of the calendar quarter in which the amounts were collected. Under sub. (Im) (am), this section favors expenditures to construct or improve convention facilities. However, sub. (Im) (am), only addresses when a municipality may impose a room tax rate of greater than 8% and is irrelevant when the city has not exceeded that maximum. The only restrictions the rest of the statute places on the use of room tax monies are found in sub. (Im) (d), which directs a municipality to spend a certain percentage on "tourism promotion and development, which means the promotion and development of travel for recreational, business, or educational purposes, English Manor Bed and Breakfast v. RE: Authorization to Execute Relocation Order for Third Street Bridge Project

The Third Street Bridge is scheduled for replacement starting in the second half of 2016. As previously reported, this project requires the acquisition of several small portions of adjacent properties. Those properties include a portion of Jefferson Park and a privately owned property in the northeast quadrant of the project area.

Per state statutes, in order to proceed with the negotiations to acquire the necessary real estate interests in property, the Common Council needs to approve the Relocation Order for this project. The land interests and acquisitions referred to in the Relocation Order are identified on the corresponding Right of Way Plat (both documents are enclosed).

The areas needed for this project include acquisitions of 0.058 acres for Parcel No. 1 Avalone property) and 0.11 acres for Parcel No. 2 (Jefferson Park). Additionally there are small temporary and permanent easements needed from Jefferson Park for the continuation of the sidewalk on the south side of Third Street to the proposed bridge. Parks and Recreation Director Tungate and the Park Board are aware of these needs and acknowledge the minimal impact to the park. The Right of Way Plat also lists the need to obtain the release of easement rights from various utilities which is standard procedure in these situations. Funds are budgeted for this work.

As soon as the Relocation Order is signed and recorded, we will direct our real estate consultant to initiate negotiations for the necessary right of way, easements and release of rights. This project has met with several extended delays due to the concerns regarding protection of habitat for the northern long eared bat, and the special documentation and land transfer needed for the acquisition of Jefferson Park property. Therefore, I am requesting authorization to execute the Relocation Order as soon as possible in order to allow our agent to proceed with negotiations in a timely manner to meet the proposed bidding schedule.
