From: Parks & Recreation Department and Community Development Department/SS and MS
RE: **Lawson Canal/Banta Corridor Conceptual Plan Update**

After years of planning, the City took the first step towards improving the Gilbert site by constructing a beautiful waterfront trail in 2015. This was the beginning of what has long been envisioned as a multi-phase recreation and re-development project. Since that time, the Parks & Recreation Dept. has continued the focus of how to transform the Lawson Canal and continue public access with a waterfront trail to the east and west. With the current redevelopment plan for the Banta site moving forward, staff felt it was prudent to merge these discussions and the design and planning process into one conceptual plan to create a fluid blend between private development and public access in a premiere location within the City of Menasha.

To lead the process, the City has executed an agreement with Stantec, Neighborhood Planners and River Restoration in hopes to apply for a significant DNR stewardship grant this coming May. Part of this application includes gaining City support and drafting the necessary documents needed to submit the grant including conceptual plan for the corridor.

Over the last several months, staff has been working with the consultants to create a draft plan that focuses on several key defining elements of the conceptual design:

- Creating a public waterfront destination with multiple outdoor recreational opportunities
- Connectivity of canal and river
- Connections of private development and public access areas
- Fishing Access
- Bike/Pedestrian Access
- Oak St Right-of-Way
- Development of Banta Point
- Future Access of Development Sites

Additionally, multiple contributing components have been identified to be necessary to complete to be eligible to apply for the grant:

- Acquisition of a portion of the canal, dam and adjacent property owned by the PJC Group: Currently, City staff has come to a verbal agreement for a right to purchase. This agreement would allow the City to execute the acquisition upon funding and overall design concept approval.

- Acquisition of Canal owned by Neenah-Menasha Power Company: The RDA has officially acquired the canal property from the Neenah-Menasha Water Power Company in December 2020.
- Water Rights: City staff is moving forward with conversations with Neenah-Menasha Power Company to obtain the necessary water rights for the Canal.

As we move forward in this phase of the design process and in an effort to build community support and answer design questions, the Common Council, RDA, Plan Commission and general public are all invited to a presentation of a draft conceptual plan for the Lawson Canal/Banta Corridor on **March 23rd, 2021 at 5:00pm at Menasha City Hall** by Stantec and Neighborhood Planners. A 30 minute presentation will be given starting at 5:00pm followed by 30 minutes for Q/A. A virtual option will be also be provided to listen live. The presentation will be recorded and made available to the general public. In addition, there will be a one week public input period to allow for additional feedback. Exact details how additional feedback would be gathered has yet to be determined.

Due to the timing of this project and the required grant submittal dates, we are also planning to hold a **special meeting on April 13th** to review final concept designs based on feedback received from the workshop and public input period and thus recommend support to the Council. Specifics regarding this meeting have not been finalized and will be provided at a later date.

At the April 20 Common Council meeting, staff will seek approval of a resolution allowing staff and consultants to move forward with the grant applications.

Throughout this process and as part of the agreement with Stantec and Neighborhood Partners, we are identifying and applying for additional future funding sources which will continue to build on the momentum and allow us to move this process forward into the next design and development phase.

MEMORANDUM

Date: March 18, 2021
To: Park Board
From: Megan Sackett, Parks & Recreation Director
RE: Amendment to Ordinance 12-1 Park Regulations

Recently, a resident reached out to staff and the Common Council regarding our ordinance in respect to dogs on trails. Upon review of our ordinance, staff found incongruences in the ordinance regarding dogs/pets on trails. In addition to clarifying the language within the ordinance, staff would like to expand the scope of the current ordinance. Staff felt it was important to maintain our policy of allowing dogs/pets only on our trail system within our parks and restrict them within general park space, but felt it was prudent to expand the trails open to dogs/pets beyond the Friendship Trail in Jefferson Park. With many of our trails being part of a larger regional trail system, staff felt it was important to provide some consistency among neighboring communities.

Below is an outline of neighboring Fox Cities communities ordinances related to dogs/pets on trails or in parks:

Appleton - Dogs that are on designated trails and/or walkways and restrained by a chain, rope or other type of leash that is not more than eight (8) feet in length and an individual competent to physically control and restrain the dog is in physical control of the leash at all times.

Fox Crossing - Animals, leashed or unleashed, are not allowed in any public park except for sidewalks greater than eight feet consisting of asphalt, concrete, stone aggregate and/or natural material located along road rights-of-way and environmental corridors.

Neenah - Bringing animals onto park property is prohibited, with the exception of leashed dogs on roads and trails.

Harrison – Leashed (not more than ten feet in length) animals are allowed on officially designated trails only.

Kaukauna-Prohibited areas for animals. Any person owning, keeping or in charge of any animal shall not permit such animal to be in any public park in the city at any time, except as authorized in writing by the park department, on any public school grounds, or on any playgrounds except for school-sponsored and authorized purposes. The provisions of this section shall not be applicable in cases in which a person is being assisted by a seeing-eye dog or in cases where a leashed animal is being walked upon a designated trail area through the park.

Kimberly-Dogs are not allowed within the city parks. When in the immediate control of the owner, possessor or keeper thereof, dogs may be allowed only upon the park sidewalks or surrounding park streets.

The City of Menasha boasts a robust trail system with many of our residents and neighboring community members utilizing the trails frequently as part of their daily lives. The Simmons National Consumer Study shows that 53% of Americans have a pet. With pets becoming more prevalent in our everyday life, our policies should recognize the benefit to our community and expand our policy to allow for dogs/pets within our trail system while aligning with surrounding local communities.
