

# City of Menasha COVID-19 Data Summary

Date: January 12, 2023

## CDC COVID-19 Community Levels

COVID-19 Community Levels can help individuals, families, and communities make decisions based on their local COVID-19 data. The Centers for Disease Control and Prevention (CDC) uses the 3 metrics below to determine the COVID-19 Community Level, which is classified as Low, Medium, or High.

Current CDC COVID-19 Community Levels			
Current Status as of 12/29/22	Calumet County	Winnebago County	City of Menasha*
<b>Community Level</b>	Medium	Medium	<b>Medium</b>
New COVID-19 Cases per 100,000 population in the past 7 days	103.82	87.84	Our CDC Community Level has increased since the last reporting period (12/7/22 – 12/20/22).
New COVID-19 hospital admissions per 100,000 population	10.6	11.3	
% Staffed inpatient beds in use by patients with confirmed COVID-19	6.2%	8.0%	

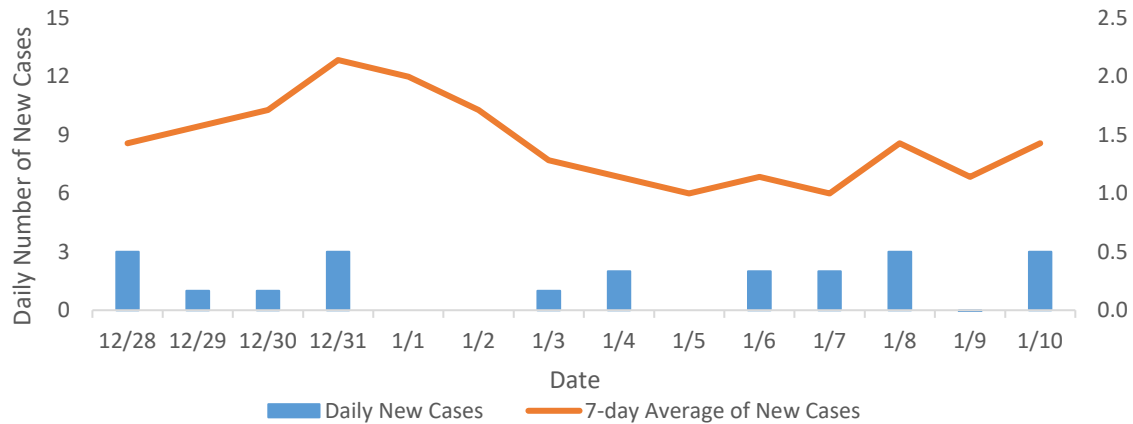

\*City of Menasha residents may reside in either Calumet or Winnebago County. The City of Menasha will take the higher level of the two counties for COVID-19 Community Level indicators should the two counties differ. For more information on COVID-19 Community Levels, visit this webpage: <https://www.cdc.gov/coronavirus/2019-ncov/your-health/covid-by-county.html>

## What Prevention Steps Should You Take Based on Your COVID-19 Community Level?

Low	Medium	High
<ul style="list-style-type: none"> <li>Stay <a href="#">up to date</a> with COVID-19 vaccines</li> <li>Get <a href="#">tested</a> if you have symptoms</li> </ul>	<ul style="list-style-type: none"> <li>If you are at <a href="#">high risk for severe illness</a>, talk to your healthcare provider about whether you need to wear a mask and take other precautions</li> <li>Stay <a href="#">up to date</a> with COVID-19 vaccines</li> <li>Get <a href="#">tested</a> if you have symptoms</li> </ul>	<ul style="list-style-type: none"> <li><a href="#">Wear a mask</a> indoors in public</li> <li>Stay <a href="#">up to date</a> with COVID-19 vaccines</li> <li>Get <a href="#">tested</a> if you have symptoms</li> <li>Additional precautions may be needed for people at <a href="#">high risk for severe illness</a></li> </ul>
<p><b>People may choose to mask at any time.</b> People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask and follow <a href="#">isolation and quarantine guidance</a>.</p>

## Daily new cases (lab-confirmed and probable) in the City of Menasha and the 7-day average of total new cases

## COVID-19 Metrics

Metric		Current Status	Change from last data summary
<b>Case Incidence</b>	Total confirmed and probable cases per 100,000 in the past 7 days	55.2 cases per 100,000 / 7 days	No change
<b>Fox Valley HERC Hospital Capacity*</b>	Percentage of hospital <b>inpatient</b> beds in the community that are occupied.	73.2% of inpatient beds occupied	↓
	Percentage of <b>intensive care unit</b> beds in the community that are occupied.	71.2% ICU beds occupied	↓
	Percentage of hospital <b>inpatient</b> beds in the community that are occupied by patients with COVID-19.	4.0% beds occupied by patients with COVID-19	↓

\*Hospital capacity data is collected and reported at the Healthcare Emergency Readiness Coalition (HERC) level. The City of Menasha is part of HERC 6 (Fox Valley HERC). Hospital capability information can be found here: <https://www.dhs.wisconsin.gov/covid-19/hosp-data.htm#capabilities>

## Number and percent of City of Menasha, Calumet and Winnebago County residents who have received the COVID-19 vaccine (as January 11)

	Total population who have completed the primary series	Total population who have received the updated booster (N/D=no data available)	Population
City of Menasha*	10,878 (60.1%)	N/D	18,114
Calumet	27,932 (55.6%)	7,836 (15.6%)	50,209
Winnebago	103,251 (60.2%)	30,118 (17.5%)	171,631

\*Vaccine data was retrieved from: <https://www.dhs.wisconsin.gov/covid-19/vaccine-data.htm>. Other municipal-level demographic data is not available. To view more COVID-19 vaccine data, please visit: <https://www.dhs.wisconsin.gov/covid-19/vaccine-data.htm>

## Age range and ethnicity COVID-19 vaccine data for Calumet and Winnebago County residents who have completed the vaccine series (as of January 11)

Percent of Calumet County residents who have completed the primary series

Percent of Winnebago County residents who have completed the primary series

### Highlights

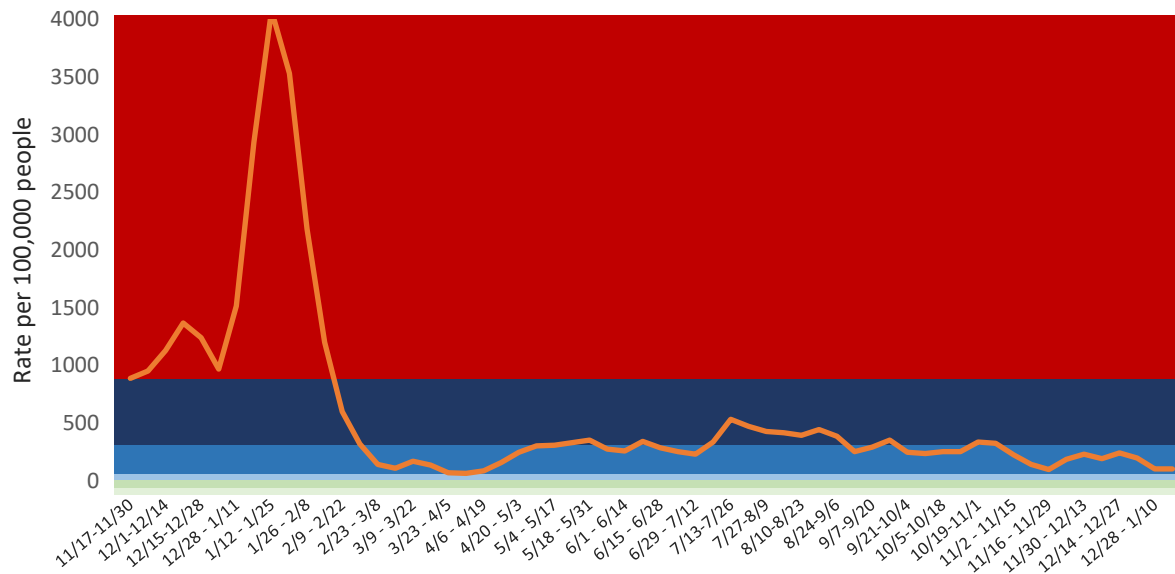

- Following FDA action, the CDC expanded the use of updated (bivalent) COVID-19 vaccines for children under 5 years old. Children ages 6 months-5 years who previously completed a Moderna primary series are eligible to receive a Moderna bivalent booster 2 months after their final primary series dose. Children ages 6 months- 4 years who are currently completing a Pfizer primary series will receive a Pfizer bivalent vaccine as their third primary dose. Any child who has already completed the 3 doses of the Pfizer primary series is NOT eligible for a booster at this time. Read more about the authorization [here](#).
- The COVID-19 Treatment Telehealth Program provides free and easy access to COVID-19 healthcare, consultation, screening and prescriptions for antiviral treatments. This program is open to Wisconsinites 18 years and older, regardless of insurance status. For more information, visit [this webpage](#).
- To help prevent the spread of the virus, follow current [isolation](#) and [quarantine](#) guidance if you test positive for COVID-19, have symptoms, or have been exposed.
- **Vaccination is the best tool to prevent serious disease, hospitalization, and death due to COVID-19.**
  - Wisconsin residents ages 6 months and older are eligible to receive the COVID-19 vaccine. Anyone 5 years or older can receive the Omicron booster 2 months after their last COVID-19 vaccine. COVID-19 vaccines are safe, effective, and free. You do not need an ID or insurance.
  - Visit the Menasha Health Department's [COVID-19 vaccine webpage](#) for clinic information.
  - If you have questions about the COVID-19 vaccine, call: 211 or 877-947-2211. Language assistance is available. Visit [vaccines.gov](#) to find a place to get your FREE COVID-19 vaccine.
  - To read more about vaccine data, see [this dashboard](#).
- Visit our [testing sites webpage](#) for more information about where to find a COVID-19 test. You may also order two sets of three free at-home test kits from the federal government [here](#). You may also order 5 free COVID-19 tests from [Say Yes! COVID Test](#).

## Case count, case rate, and burden class in the City of Menasha for the past two weeks (December 28 – January 10)

	Case Count for Past 2 Weeks	Case Rate (per 100,000 people)	Burden Class*	Population
City of Menasha	19	104.9	High	18,114

\*Burden Class is based on the case rate per 100,000 people in the past two weeks. See the table below for more information.

## City of Menasha COVID-19 laboratory confirmed and probable case rate trend and burden by 2-week periods

### Background

This data summary provides preliminary data on the cases of COVID-19 in the City of Menasha from December 28, 2022 – January 10, 2023. Data included in this report is for lab-confirmed cases and probable cases of COVID-19. A person is counted as a probable case of COVID-19 if they have a positive antigen test OR has symptoms of COVID-19 AND has a known exposure to COVID-19. Case counts utilized for all graphs and tables are based on the date public health staff received and recorded the test results. Numbers here may not represent final case counts for this reporting period.
