

City of Menasha COVID-19 Data Summary

Date: June 30, 2022

Summary/What's New

- On June 21, the WI DHS announced that children age 6 months and older are eligible to receive the COVID-19 vaccine. The Moderna vaccine is authorized for children 6 months through 5 years old and requires 2 doses, 28 days apart. The Pfizer vaccine is authorized for children ages 6 months to 4 years old and requires 3 total doses: the first 2 doses are given 3 weeks apart, followed by a third at least 2 months later. **The Pfizer vaccine for children 6 months to 4 years old is now available at the Menasha Health Department's weekly COVID-19 vaccine clinics.**
- The Menasha Health Department and Wisconsin DHS are following the CDC's updated [masking guidance](#) which correlates to COVID-19 Community Levels. Your county's [COVID-19 Community Level](#) helps determine which prevention measures are needed to protect yourself and your family.
- The virus that causes COVID-19 is still here, and can cause serious illness and death in individuals at high risk and those who are not up to date with their COVID-19 vaccines. Consider your risks and the risks of those with whom you live or interact when choosing whether to wear a mask when in public places; and consider getting the COVID-19 vaccine if you haven't already for the most protection.
- **Vaccination is the best tool to prevent serious disease, hospitalization, and death due to COVID-19.**
 - Wisconsin residents ages 6 months and older are eligible to receive the COVID-19 vaccine. COVID-19 vaccines are safe, effective, and free. You do not need an ID or insurance.
 - Adults age 50 years or older and people 12 years and older who are immunocompromised are encouraged to receive a second booster dose 4 months after their first booster dose.
 - Visit the Menasha Health Department's [COVID-19 vaccine webpage](#) for clinic information.
 - If you have questions about the COVID-19 vaccine, call: 211 or 877-947-2211. Language assistance is available. Visit [vaccines.gov](#) to find a place to get your FREE COVID-19 vaccine.
- COVID-19 testing is available in the community if you are in need of a test. Visit our [testing sites webpage](#) for more information. You may also order two sets of four free at-home test kits from the federal government [here](#).
- To help prevent the spread of the virus, follow [current isolation and quarantine guidance](#) if you test positive for COVID-19, have symptoms, or have been exposed.
- As of June 28, 62.1% of City of Menasha residents have received at least one dose of the vaccine and 59.4% are fully vaccinated. To read more about vaccine data, see [this dashboard](#).
- Currently in the City of Menasha the burden of confirmed and probable COVID-19 cases is high. The combined case rate for this 2-week period (June 15 – June 28) is 253.9 cases per 100,000 population, which is a decrease from the case rate of 287.1 from the previous 2-week period (June 8 – June 21).

Background

This data summary provides preliminary data on the cases of COVID-19 in the City of Menasha from June 15, 2022 – June 28, 2022. Data included in this report is for lab-confirmed cases of COVID-19 and probable cases of COVID-19. A person is counted as a probable case of COVID-19 if they have a positive antigen test OR has symptoms of COVID-19 AND has a known exposure to COVID-19. Case counts utilized for all graphs and tables are based on the date public health staff received and recorded the test results. Numbers here may not represent final case counts for this reporting period.

Number and percent of City of Menasha, Calumet and Winnebago County residents who have received the COVID-19 vaccine (as of June 28)

| | Received at least 1 dose | Completed vaccine series | Completed Booster/Additional dose (N/D=no data available) | Population |
|------------------|--------------------------|--------------------------|---|------------|
| City of Menasha* | 11,257 (62.1%) | 10,767 (59.4%) | N/D | 18,114 |
| Calumet | 28,645 (57.1%) | 27,608 (55.0%) | 15,886 (31.6%) | 50,209 |
| Winnebago | 107,356 (62.6%) | 102,588 (59.8%) | 58,521 (34.1%) | 171,631 |

*Vaccine data was retrieved from: <https://www.dhs.wisconsin.gov/covid-19/vaccine-data.htm>. Other municipal-level demographic data is not available. To view more COVID-19 vaccine data, please visit: <https://www.dhs.wisconsin.gov/covid-19/vaccine-data.htm>

Age range and ethnicity COVID-19 vaccine data for Calumet and Winnebago County residents who have completed the vaccine series (as of June 28)

Percent of Calumet County residents who have completed the vaccine series

Percent of Winnebago County residents who have completed the vaccine series

| Current CDC COVID-19 Community Levels | | | |
|---|----------------|------------------|------------------|
| Current Status as of 6/23/22 | Calumet County | Winnebago County | City of Menasha* |
| Community Level | Low | Low | Low |
| New COVID-19 Cases per 100,000 population in the past 7 days | 111.80 | 165.79 | |
| New COVID-19 hospital admissions per 100,000 population | 4.5 | 5.4 | |
| % Staffed inpatient beds in use by patients with confirmed COVID-19 | 3.0% | 4.8% | |

*City of Menasha residents may reside in either Calumet or Winnebago County. The City of Menasha will take the higher level of the two counties for COVID-19 Community Level indicators should the two counties differ. For more information on COVID-19 Community Levels, visit this webpage: <https://www.cdc.gov/coronavirus/2019-ncov/your-health/covid-by-county.html>

What Prevention Steps Should You Take Based on Your COVID-19 Community Level?

| Low | Medium | High |
|---|--|---|
| <ul style="list-style-type: none"> Stay up to date with COVID-19 vaccines Get tested if you have symptoms | <ul style="list-style-type: none"> If you are at high risk for severe illness, talk to your healthcare provider about whether you need to wear a mask and take other precautions Stay up to date with COVID-19 vaccines Get tested if you have symptoms | <ul style="list-style-type: none"> Wear a mask indoors in public Stay up to date with COVID-19 vaccines Get tested if you have symptoms Additional precautions may be needed for people at high risk for severe illness |
| <p>People may choose to mask at any time. People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask and follow isolation and quarantine guidance.</p> | | |

*For more information on COVID-19 Community Levels and what prevention strategies should be implemented in the community, visit this webpage: <https://www.cdc.gov/coronavirus/2019-ncov/science/community-levels.html>

Number and percentage of laboratory confirmed and probable cases of COVID-19 by age range, cumulative and past two weeks

| Age Group | Cumulative Total Cases | | Total Cases in the Past Two Weeks | |
|-----------------------|------------------------|---------------------------|-----------------------------------|------------------------------------|
| | Number of Cases | Percentage of Total Cases | Number of Cases | Percent of Cases in Past Two Weeks |
| 0-9 | 448 | 8.2% | 6 | 13.0% |
| 10-19 | 750 | 13.8% | 2 | 4.3% |
| 20-29 | 872 | 16.0% | 7 | 15.2% |
| 30-39 | 999 | 18.3% | 10 | 21.7% |
| 40-49 | 827 | 15.2% | 9 | 19.6% |
| 50-59 | 741 | 13.6% | 4 | 8.7% |
| 60-69 | 465 | 8.5% | 3 | 6.5% |
| 70-79 | 222 | 4.1% | 4 | 8.7% |
| 80+ | 128 | 2.3% | 1 | 2.2% |
| Combined Total | 5,452 | 100% | 46 | 100% |

Daily new cases (lab-confirmed and probable) in the City of Menasha and the 7-day average of total new cases

COVID-19 Metrics

| Metric | Current Status | Change from last reporting period | |
|---|--|--|---|
| Case Incidence | Total confirmed and probable cases per 100,000 in the past 7 days | 143.5 cases per 100,000 / 7 days | ↓ |
| Fox Valley HERC Hospital Capacity* | Percentage of hospital inpatient beds in the community that are occupied. | 88.6% of inpatient beds occupied | ↓ |
| | Percentage of intensive care unit beds in the community that are occupied. | 87.3% ICU beds occupied | ↓ |
| | Percentage of hospital inpatient beds in the community that are occupied by patients with COVID-19. | 4.7% beds occupied by patients with COVID-19 | ↑ |

*Hospital capacity data is collected and reported at the Healthcare Emergency Readiness Coalition (HERC) level. The City of Menasha is part of HERC 6 (Fox Valley HERC). Hospital capability information can be found here: <https://www.dhs.wisconsin.gov/covid-19/hosp-data.htm#capabilities>

Case count, case rate per 100,000 people, and burden class in the City of Menasha for the past two weeks (June 15 – June 28)

| | Case Count for Past 2 Weeks | Case Rate (per 100,000 people) | Burden Class* | Population |
|-----------------|-----------------------------|--------------------------------|---------------|------------|
| City of Menasha | 46 | 253.9 | High | 18,114 |

*Burden Class is based on the case rate per 100,000 people in the past two weeks. See the table below for more information.

City of Menasha COVID-19 laboratory confirmed and probable case rate trend and burden by 2-week periods*

*Refer to the table below for more information on burden categories and thresholds.

Burden (lab-confirmed & probable case rate)

| Burden Status | Case Rate per 100,000 residents in the past two weeks | City of Menasha number of cases in the past two weeks |
|-----------------|---|---|
| Low | Case rate is less than or equal to 10. | Less than 2 cases. |
| Moderate | Case rate is greater than 10, but less than or equal to 50. | Greater than 1 cases, but less than or equal to 9 cases. |
| Moderately High | Case rate is greater than 50, but less than or equal to 100. | Greater than 9 cases, but less than or equal to 18 cases. |
| High | Case rate is greater than 100, but less than or equal to 350. | Greater than 18 cases, but less than or equal to 63 cases. |
| Very High | Case rate is greater than 350, but less than or equal to 1,000. | Greater than 63 cases, but less than or equal to 181 cases. |
| Critically High | Case rate is greater than 1,000. | Greater than 181 cases. |
