

City of Menasha COVID-19 Pandemic Resilient Plan

Date: September 16, 2021

Summary/What's New

- There are still a few days left to receive the first dose of the COVID-19 vaccine to be eligible for the \$100 COVID-19 Vaccine Reward program! **The program has been extended to Sun., Sept. 19, 2021.** The program opened Aug. 20 and is available to anyone ages 12 and up in Wisconsin who gets their first dose of COVID-19 vaccine by Sept. 19. To claim this reward, fill out the form found on [this website](#) or call 844-684-1064 for assistance.
- The WI DHS has updated the [Illness After Vaccination](#) data page with data for August 2021. On average, fully vaccinated individuals are less likely to be infected, hospitalized, and die from COVID-19 compared to unvaccinated individuals. Data is updated on a monthly basis.
- The Pfizer-BioNTech (Comirnaty) COVID-19 vaccine has received **full approval** from the Food and Drug Administration (FDA) for individuals age 16 and older. This vaccine is still available for 12-15 year olds and for a 3rd dose for immunocompromised individuals under its EUA.
- The CDC has recommended an additional dose of the mRNA COVID-19 vaccine (Pfizer or Moderna) at least 28 days after the initial 2 doses for people who are **immunocompromised**. Visit [this website](#) for more information about additional doses for the immunocompromised. Individuals who received the Johnson & Johnson (Janssen) vaccine are not recommended to receive an additional dose.
- On Tuesday, July 27, the CDC released [updated guidance](#) for fully vaccinated people based on COVID-19 [community transmission levels](#). The updated guidance recommends that everyone, including those who are fully vaccinated, wear a mask in indoor public settings in areas where community transmission is at substantial or high levels. **The City of Menasha is currently experiencing a high level of community transmission.**
- Wisconsin is seeing an increase in the number of new cases of COVID-19. The majority of cases are occurring in people who are not fully vaccinated. **Vaccination is still the best tool to prevent serious disease, hospitalization, and death due to COVID-19 and its variants, including the Delta Variant.** The Delta variant is highly contagious and is spreading faster than any previous SARS-CoV-2 variant.
 - WI DHS has a [website to track COVID-19 variants](#) in Wisconsin.
- Wisconsin residents age 12 and older are eligible to receive the COVID-19 vaccine. Only the Pfizer-BioNTech vaccine is currently authorized to be used for those ages 12-17. Visit the Menasha Health Department's [COVID-19 vaccine webpage](#) for vaccine clinic information.
 - If you have questions about the COVID-19 vaccine, call: 211 or 877-947-2211. Spanish, Hmong, Chinese Mandarin, Hindi, and Somali language assistance is available. You can also visit [vaccines.gov](#) to find a place to get your FREE COVID-19 vaccine.
 - 211 Wisconsin provides a special directory to find to find pop-up vaccine clinics in the state. To find pop-up vaccine clinics near you, visit [this website](#).
- Testing is available if you have symptoms of COVID-19, if you believe you were exposed to the virus, attended a large social gathering, or if you think you need a test even though you don't have symptoms. Visit our [COVID-19 testing sites webpage](#) for information about where you can go to get tested for COVID-19.
- As of September 14, 53.8% of City of Menasha residents have received at least one dose of the vaccine and 51.0% are fully vaccinated. To read more about vaccine data, see [this dashboard](#).

Public Health
Prevent. Promote. Protect.

- Currently in the City of Menasha the burden of confirmed and probable COVID-19 cases is very high and the activity level is very high. The combined case rate for this 2-week period (Sept 1 – Sept 14) is 458.2 cases per 100,000 population, which is an increase from the case rate of 441.6 from the previous 2-week period (Aug 25 – Sept 7).

Background

This data summary provides preliminary data on the cases of COVID-19 in the City of Menasha from Sept 1, 2021 – Sept 14, 2021. Most data included in this report is for laboratory confirmed cases of COVID-19 (lab-confirmed). Some data is available for probable cases of COVID-19. A person is counted as a probable case of COVID-19 if they are not positive by a confirmatory laboratory test method (PCR/molecular test), but has a positive antigen test OR has symptoms of COVID-19 AND has a known exposure to COVID-19. Case counts utilized for all graphs and tables are based on the date public health staff received and recorded the test results. Numbers here may not represent final case counts for this reporting period.

Number and percent of City of Menasha residents who have received the COVID-19 vaccine (as of Sept 14)

Received at least 1 dose	Completed vaccine series	Population
9,753 (53.8%)	9,237 (51.0%)	18,114

*Vaccine data was retrieved from: <https://www.dhs.wisconsin.gov/covid-19/vaccine-data.htm> under "Municipality" tab. Other demographic data is not yet available.

Case counts, case rate per 100,000 people, burden class, trajectory and activity level in the City of Menasha and the State of Wisconsin for the past two weeks (Sept 1 – Sept 14)

Note: The case rate, burden class, trajectory class, and activity level reflect both lab-confirmed and probable cases. WI DHS is undergoing continuous data cleaning and data may change as it is reviewed.

	Case Count for Past 2 Weeks (lab-confirmed & probable)	Case Rate (per 100,000 people)	Burden Class*	Trajectory Class (N/A=no statistically significant change; N/D=no data available)	Activity Level*	Population**
City of Menasha	83	458.2	Very High	N/D	Very High	18,114
Wisconsin	28,276	489.1	Very High	Growing	Very High	

*Burden Class is based off of the case rate per 100,000 people in the past two weeks. Visit the DHS website for more information about Burden and Activity Level visit; <https://www.dhs.wisconsin.gov/covid-19/local.htm>

**Population for the City of Menasha was retrieved from <https://data.census.gov/cedsci/table?q=Menasha%20City,%20Wisconsin&t=Age%20and%20Sex&tid=ACSST5Y2019.S0101&hidePreview=false>

Burden (lab-confirmed & probable case rate)

Burden Status	Case Rate per 100,000 residents in the past two weeks	City of Menasha number of cases in the past two weeks
Low	Case rate is less than or equal to 10.	Less than 2 cases.
Moderate	Case rate is greater than 10, but less than or equal to 50.	Greater than 1 cases, but less than or equal to 9 cases.
Moderately High	Case rate is greater than 50, but less than or equal to 100.	Greater than 9 cases, but less than or equal to 18 cases.
High	Case rate is greater than 100, but less than or equal to 350.	Greater than 18 cases, but less than or equal to 63 cases.
Very High	Case rate is greater than 350, but less than or equal to 1,000.	Greater than 63 cases, but less than or equal to 181 cases.
Critically High	Case rate is greater than 1,000.	Greater than 181 cases.

City of Menasha COVID-19 laboratory confirmed and probable case rate trend and burden by 2-week periods*

*see the table above for more information about burden status

Testing metrics in the City of Menasha from the last 5 reporting periods

Metric	Reporting Period				
	Current: 9/1 – 9/14	8/25 – 9/7	8/18 – 8/31	8/11 – 8/24	8/4 – 8/17
7-Day Average Percent Positive	16.2%	17.6%	24.1%	20.0%	33.3%
7-Day Average New Test Results	24.7	24.3	20.7	15.7	14.3
7-Day Average New Cases (lab-confirmed & probable)	6.4	5.4	6.0	5.1	6.4

Cumulative and two week period total and percentage of laboratory confirmed cases of COVID-19 by age range

Age Group	Cumulative Total Confirmed Cases		Confirmed Cases in the Past Two Weeks	
	Number of Cases	Percentage of Total Cases	Number of Cases	Percent of Cases in Past Two Weeks
0-9	125	5.8%	7	12.1%
10-19	258	11.9%	9	15.5%
20-29	386	17.8%	7	12.1%
30-39	384	17.7%	13	22.4%
40-49	314	14.5%	4	6.9%
50-59	322	14.9%	9	15.5%
60-69	207	9.6%	6	10.3%
70-79	92	4.2%	1	1.7%
80+	77	3.6%	2	3.4%
Total	2,165	100%	58	100%

Cumulative total and percentage of laboratory-confirmed cases of COVID-19 by age range

Case Incidence Metrics

Metric	Thresholds	Current Status
Centers for Disease Control and Prevention: City of Menasha Total New Confirmed Cases per 100,000 in the past 7 days*	Blue (Low Transmission): 0-9 Yellow (Moderate Transmission): 10-49 Orange (Substantial Transmission): 50-99 Red (High Transmission): ≥ 100	154.6 per 100,000 / 7 days
Harvard Global Health: City of Menasha Confirmed Case Incidence per 100,000 (7-day rolling average)**	Red: >25 Yellow: $1<10$ Orange: $10<25$ Green: <1	22.1 cases per 100,000 / day

Additional Metrics

Metric	Thresholds	Current Status	
Testing	Percent PCR Positive Tests (7-day average)	Red: $>10\%$ Yellow: 5-10% Green: $<5\%$	16.2% positive tests / day
	Daily Number of Tests (7-day average)	Red: <14 tests/day Yellow: 14-28 tests/day Green: >28 tests/day	24.7 tests / day
Public Health Contact Timeliness	Disease Investigation	Red: Not able to contact all confirmed cases within 24 hours Green: Able to contact all confirmed cases within 24 hours	Able to contact all within 24 hours
	Contact Tracing	Red: PH is not able to contact all within 48 hours Green: PH is able to contact all within 48 hours	Able to contact within 48 hours
Hospital Capacity*	Percentage of hospital inpatient beds in the community that are occupied.	Red: $> 90\%$ Yellow: 80-90% Green: $<80\%$	92.2% of inpatient beds occupied
	Percentage of intensive care unit beds in the community that are occupied.	Red: $> 90\%$ Yellow: 80-90% Green: $<80\%$	88.9% ICU beds occupied
	Percentage of hospital inpatient beds in the community that are occupied by patients with COVID-19.	Red: $>15\%$ Yellow: 10-15% Light Green: 5-10% Dark Green: $<5\%$	12.3% beds occupied by patients with COVID-19

*Hospital capacity data are from the Emergency Management Resource (EMResource) system. Reporting is not mandatory. Hospital capacity data is collected and reported at the Healthcare Emergency Readiness Coalition (HERC) level. The City of Menasha is a part of HERC 6, or the Fox Valley HERC. Hospital capability information at the state and HERC level can be found here: <https://www.dhs.wisconsin.gov/covid-19/hosp-data.htm#capabilities>
