City of Menasha Closure Updates: City hall, PWF, Menasha Utilities, Library and Senior Center remain closed to public.

Feeling sick, use telehealth!

Wisconsin is highly encouraging residents to utilize telehealth when feeling ill. Not all health care visits can use a telehealth format, but there are many that can, ranging from appointments where a doctor may want to assess if there's a need for an in-person visit, to behavioral health sessions that are important parts of ongoing treatment plans. Patients should work with their providers to figure out what telehealth options are available for them. If you do need COVID-19 testing, it does not count towards your deductible.

PPE Donations Needed!

Wisconsin is looking for companies, educational facilities and other organizations that may have personal protective equipment (PPE) supplies and other needed resources that could be used in the state's response to the COVID-19 emergency . If you or someone you know can donate, please click [here](#).

COVID-19 FAQ

Is take-out and delivery food safe?

COVID-19 is unlikely to be passed on through prepared meals ordered for take-out or delivery. Since COVID-19 is spread mainly through person-to-person contact, the best precaution to take is to avoid direct contact with service workers. If you are still concerned, here are some other practical steps you can take to stay safe when ordering take-out or food delivery:

- * Practice appropriate social distancing with restaurant personnel or other customers when getting take-out at the restaurant.
- * Use touch-free payment systems, including touch-free tipping.
- * Place delivery bags and containers in the sink rather than on the table or countertop.
- * Transfer food from takeout containers to a plate.
- * Discard all delivery bags, boxes, and takeout containers in the trash or recycling.
- * Wash your hands before eating.
- * Leftovers should be put in your own food storage containers rather than in takeout containers.
- * Clean and sanitize the sink after your meal.

Resilient Wisconsin Tip #2

Relax your body. Do what works for you, like taking deep breaths, stretching and exercising, meditation or prayer.
