City of Menasha Closure Updates: PWF, Menasha Utilities, Library and Senior Center remain closed to public. The Library is offering curbside service for picking up ordered materials and for material drop off. City Hall is open to the public.

The WI Dept of Health Services still urges everyone to stay safer at home to help slow the spread of COVID-19. However, for those who may wish to engage in activities away from their home this summer, the CDC has issued the following guidance:

Public Bathroom Tips!

- Don't crowd into a restroom.
 - Stay at least 6 feet away from other people.
 - Limit the use of smaller restrooms to one person (and a parent or attendant, if needed) or household unit at a time.
 - If there are too many people, form a line outside the restroom door and stay 6 feet from one another—or 6 feet between different households.
- Additional precautions include:
- Wear a cloth face covering, if you are able.
 - Have hand sanitizer with you in case the facilities are not supplied with soap and water.
 - Use hand sanitizer before entering the restroom.
 - Use a clean paper towel or tissue each time you have to touch a surface, including door handles, locks, toilet seats and lids, and faucets.
 - If there is one, close the toilet lid before flushing.
 - Wash your hands with soap and water for 20 seconds after using the restroom. Use hand sanitizer if soap is not available.
 - If they are available, use paper towels to dry your hands instead of air dryers. Hand dryers may spread the virus around an enclosed space.
 - Leave the restroom when you are done. If possible, wait for friends or family outside the restroom door.

COVID-19 FAQ

How do you define a wave in a pandemic? Are we in the first wave, or the second, of this one?

- A second wave can be defined as a recurrence after a period of widespread decline. Until we see a period of widespread decline in Wisconsin, we are still considered to be in the first wave.

Resilient Wisconsin

It is important to support your mental health during the coronavirus pandemic.
